Ohio Mapping: Vision Themes across the ‘Three Buckets’

Purpose and Directions: The purpose of this tool is to map – create a snapshot - of what’s currently happening in each of the “Three Buckets” that contributes toward the three vision themes of future orientation, access to high quality, flexible and coordinated supports, and opportunities for family members. Use the space to list places or activities that answer the questions in each square. You can be general (e.g. “hospitals”) or specific (e.g. Jamestown West Hospital”). Please consider the lifespan – from prenatal to aging.

 Vision Themes →  3 Buckets	A FUTURE ORIENTATION	ACCESS TO HIGH QUALITY, FLEXIBLE AND COORDINATED SUPPORTS	FAMILY MEMBER HAS OPPORTUNITIES
Discovery & Navigation Where do families get information?	Where and/or how do families get information and navigation that helps with a future orientation?
