## About the Add-on

An add-on rate is an amount “added-on” to the regular rate of reimbursement available for certain services.

The Competency-Based Training and Longevity Add-on adds \$0.39 per fifteen-minute unit, to the regular reimbursement rate for routine homemaker/personal care or HPC services.

Providers can only bill at this higher rate for routine HPC provided by eligible providers. [More on applicable services.](#)

Direct service providers interested in obtaining the add-on rate must meet the following conditions to be eligible.

- Two years of paid full-time or equivalent experience providing support to people with developmental disabilities [More on experience required.](#)
- Completion of 60 hours of applicable training [More on applicable training.](#)

## Applicable services

The add-on is only applied when eligible direct service professionals provide routine HPC.

The add-on does not apply to On-site/On-call, participant-directed HPC or *any service* other than routine HPC.

Although the training and longevity add-on does not apply to Adult Day Supports or Vocational Habilitation, providers of those services may be eligible for the Community Integration Add-On of \$0.52 per unit.

The Community Integration add-on is available to staff who complete department-provided training deliver services in community settings, in groups four or fewer individuals. Free, online Community Integration training is available by logging into DODD MyLearning at [MyLearning.dodd.ohio.gov](https://mylearning.dodd.ohio.gov).

## Two Years of Full Time Experience

To be eligible for this add-on, direct service providers must have two years (or the equivalent 4,160 hours) experience providing hands-on support to people with developmental disabilities.

That is, 4,160 hours of paid work, providing services authorized through Level One, SELF, and/or Individual Options waivers (see a full [list of waiver services](#)), providing services in an intermediate care facility for individuals with intellectual disabilities, better known as an ICF <sup>1</sup>, or providing services funded by local resources, such as county board-funded programs like supported living or respite.

These hours do not have to be consecutive. They do not have to be from the same agency or the same job.

Hours can be part-time, intermittent, seasonal, or occasional work over any period of time.

Hours of experience may include hours worked in other states. <sup>2</sup>

---

<sup>1</sup> Revision May 30, 2018 to clarify that experience providing services in an intermediate care facility is also applicable.

<sup>2</sup> Revision June 8, 2018 to clarify out-of-state experience is acceptable.

## Completion of 60 hours of applicable training

Access to this add-on requires 60 hours of applicable training. Direct service providers are responsible for tracking hours of applicable training that they have successfully completed.

Training that applies toward this add-on includes

- Completion of Ohio DSPATHS Certificate of Initial Proficiency or Certificate of Advanced Proficiency, regardless of when it was completed
- OR any combination of the following courses completed, within the last five years
  - Online courses offered through DirectCourse accredited by the National Alliance of Direct Support Professionals
    - The department has made over 130 hours of these courses available at no cost, see [dodd.ohio.gov/training](http://dodd.ohio.gov/training)
    - Any of these courses are applicable for this add-on
  - Online courses offered through Relias that have been accredited by the National Alliance of Direct Support Professionals
  - In-person DSPATHS seminars, offered by the Ohio Alliance of Direct Support Professionals, with content accredited by the National Alliance of Direct Support Professionals, see [oadsp.org/training](http://oadsp.org/training)

Courses that do not apply toward the 60 hours of training for the add-on rate include

- any courses that were a part of the provider's eight-hour initial direct service provider training,
- any courses taken to meet annual training requirements, including
  - the requirements of rule OAC 5123:2-17-02 (MUI)
  - the rights of individuals set forth in OAC 5123.62 to 5123.64
  - the role and responsibilities with regard to services, including person-centered planning, community integration, self-determination, and self-advocacy, OAC 5123:2-2-01

Courses must have been completed within five consecutive, calendar years of the application for the add-on. [More about how to apply for the add on.](#)

## Applying for the Training and Longevity Add-On

Direct service providers will track the hours of applicable training that they have successfully completed and submit documentation when they reach sixty hours.

Documentation of completed training may include

- A DSPATHS Certificate of Initial or Advanced Proficiency
- Training certificates or transcripts from DirectCourse or Relias Learning
- A certificate from in-person DSPATHS seminars, offered by the Ohio Alliance of Direct Support Professionals

No re-certification or re-application is needed to maintain the add-on rate. Once obtained, the direct service provider remains eligible indefinitely and can be billed through any employer.

Agency employees who later become independent providers may follow process for independent providers and apply for the add-on with proof of training and experience.

### *Provider agency staff*

Employees of agencies must submit proof of experience to their employer, in a manner prescribed by the employer, before the add-on can be applied.

The agency will review these documents and verify two years of work experience. The agency may use the department's [Employment Experience form](#), or develop one of their own.

Once the agency has verified the information, the agency may bill for hours of homemaker/personal care or HPC services provided by an eligible direct service provider using a billing code that reimburses the agency at a higher rate. [More on this billing code.](#)

The agency is required to maintain verification of related experience and training for each direct service provider for whom the add-on is billed.

## *Independent providers*

Upon completion of 60 hours of applicable training, independent providers will submit both their proof of training completion and proof of experience to the department for verification, through the Provider Services Management or PSM application, uploading all supporting documentation before submitting for review.

## *Proof of experience*

Independent providers who wish to include hours of experience as a paid employee of a provider agency must submit statements on letterhead which include

- the name and signature of a human resources representative
- agency contact information
- employment dates
- the total number of hours of paid for providing services

[More about applicable services.](#)

Hours of experience as an independent provider of Level One, SELF, or Individual Options Waivers services must be submitted using the department's [Employment Experience form](#), then submitted through PSM.

Hours of experience must total two years, or the equivalent 4,160 hours of providing hands-on support to people with developmental disabilities, prior to applying for the add-on (no earlier than June 1, 2018).

## *Proof of training*

Independent providers may submit proof of 60 hours of successfully completed training by uploading course transcripts and certificates, indicating hours and courses completed, into PSM (no earlier than June 1, 2018).

The department will review all documents submitted and verify that requirements of the add-on are met.

Independent providers will receive notification that they are eligible to bill hours of HPC using a billing code that reimburse the provider at a higher rate. [More on this billing code.](#)

## Budget and Billing

The Medicaid maximum rate for the add-on is \$0.39 for each 15-minute unit of routine HPC.

This add-on is state-funded, meaning the Ohio Department of Developmental Disabilities is paying the non-federal share.

### *Budgeting*

The cost of the add-on would not be attributed to the person's ODDP range or waiver budget limitation.

County boards of developmental disabilities will continue to project units of HPC but will not project the number of units to which the add-on will apply.

Since county boards will not be able to predict when a direct service provider who is eligible for this add-on rate will be scheduled to provide routine HPC services, this will not be included in the cost projection tool within Medicaid Services Systems or MSS. County boards will continue to project and authorize services using the typical procedure codes (APC, FPC, etc.).

### *Billing*

Providers bill new HPC "Q" codes contained in the appendix to the HPC rule.

Independent providers who have been determined by DODD to be eligible for the add-on will have the ability to submit claims using designated procedure codes that will pay the additional \$0.39/unit for routine HPC claims.

Agency providers must determine which employees are eligible for the add-on. When those employees deliver routine HPC, the agency may submit claims using the designated procedure codes that will pay the additional \$0.39/unit. This will enable the agency to pay the eligible employees an additional \$1.00/hour when delivering routine HPC.

A provider will add the \$0.39 add-on amount to the input rate of the claim per qualified staff member. When a multi-staff billing code is used, agency providers enter the number of qualified staff who meet the criteria for the add on in the staff size billing field. [See Table 1.](#)

|            |                              |     |  |
|------------|------------------------------|-----|--|
| 1<br>Staff | Individual Options<br>Waiver | AQC | Add \$0.39 to rate   |
|            | Level One Waiver             | FQC |  |
| 2<br>Staff | Individual Options<br>Waiver | AQW | Add \$0.39 per qualified staff to rate; and<br>Enter number of qualified staff in "staff size" |
|            | Level One Waiver             | FQW |  |
| 3<br>Staff | Individual Options<br>Waiver | AQX |  |
|            | Level One Waiver             | FQX |  |
| 4<br>Staff | Individual Options<br>Waiver | AQY |  |
|            | Level One Waiver             | FQY |  |
| 5<br>Staff | Individual Options<br>Waiver | AQZ |  |
|            | Level One Waiver             | FQZ |  |

Table 1

## Examples

Independent provider who is qualified for the add on serving 1 person on the IO waiver in Clark county: the regular HPC rate for independent providers is \$4.36/unit. The provider adds \$0.39 to the unit input rate and bills AQC at \$4.75/unit.

Agency provider has 1 staff who is qualified for the add on serving 1 individual on the IO waiver in Clark county: the regular HPC rate for agency providers is \$5.04/unit. The provider adds \$0.39 to the unit input rate and bills AQC at \$5.43/unit.

Agency provider has 2 staff who are both qualified for the add on serving 4 individuals on the IO waiver in Clark county: the regular HPC rate for 2 staff serving 4 individuals is \$10.80/unit. The provider bills AQW at \$11.58/unit and the agency enters "2" in the staff size field to indicate that both staff are qualified for the competency add on.

Agency provider has 2 staff serving 4 individuals on the IO waiver in Clark county, 1 staff who is qualified for the add on and 1 staff who is not qualified: the regular HPC rate for 2 staff serving 4 individuals is \$10.80/unit. The provider bills AQW at \$11.19/unit and the agency enters "1" in the staff size field to indicate that 1 staff is qualified for the competency add on.
