

DODD MyLearning Online Course System Requirements

The web-based courses in DODD MyLearning work with most internet browsers and computer configurations. The courses have interactive elements that require certain software in order to work properly.

Below are the minimum system requirements for viewing MyLearning online course content.

Browser Support

Browser	Minimum Version	Recommended Version
Google Chrome	55	62.0.3202
Mozilla Firefox	48	56.0.2
Microsoft Internet Explorer	8	11
Apple Safari	7	9

Mobile Support

Operating System	Minimum Version	Recommended Version	App Required
Android OS	4.1	7.0	Articulate Mobile Player
Apple iOS	iOS 7	56.0.2	Articulate Mobile Player on iPad

Plug-ins Required

The browser plug-ins that are required to view MyLearning courses are **Adobe Flash Player 10.3** or newer and **JavaScript**. These plug-ins need to be activated in the browser settings before taking a course for optimal results.

Browser Performance

In order for MyLearning courses to be viewed without performance interruptions, it is recommended to clear out the browser cache before starting a course. Instructions on how to clear out browser cache can be found [here](#).
