

CURRENT PERSONAL SUMMARY

PURPOSE: To provide past and current medical information that should be maintained for review as part of ongoing care.

COMPLETED BY: The individual, staff working with the individual, or the physician.

WHY THIS IS IMPORTANT:

- Provides an ongoing history of past and current medical issues to assist with treatment of any new or ongoing medical problems
- Physician will be able to review the information and provide emergency care in a more timely manner by eliminating the need to gather past/current medical history
