

ISP HEALTH PLANNING WORKSHEET

PURPOSE: To provide complete information on all health issues. This will assure that appropriate plans for needed assistance or medical follow-up will be included in the new plan.

COMPLETED BY: Family or staff that assist the individual in getting his/her basic needs met on a regular basis.

WHY THIS IS IMPORTANT:

- Provides complete written documentation of any recent or ongoing medical issues the individual may be experiencing
- Allows the team to get the complete medical information for the purpose of eliminating the possibility of something being omitted
- Provides better picture of individual needs that must be addressed as part of the planning process
