Career Planning: Career Discovery
An Easy Read Guide

Your service plan lists the things that you want help with so that you can live your life.

The services in a service plan might be things like
• someone to help you cook
• someone to help you with your medication
• someone that drives you to work

One service you can list in your service plan is career planning.

Career planning services help people find a job in the community.

A part of career planning is career discovery. Career discovery is a way to find out what you are good at and what you like to do.
Discovery is a "hands on" and active way to find out what kind of job is right for you by trying different jobs out.

A person who does career discovery activities with you will make a report for you and your team.

The report will have information about what jobs you may like based on what you are good at and what you like.

You can use the report to choose the best job for you in the community.

If you would like to know more about career planning: career discovery, contact your Service and Support Administrator or your SSA.

If you are not sure who your SSA is, read Your Service and Support Administrator, an Easy Read Guide.
