

My Service Plan

An Easy Read Guide

Your service plan lists the services that support you.

Services in a service plan might be things like

- someone to help you cook
- someone to help you with your medication
- someone that drives you to work

My Service Providers

Your service plan also says who will do the things listed in the plan.

Those are your service providers.

They can also be called your staff or your aid.

You have the right to choose your service providers.

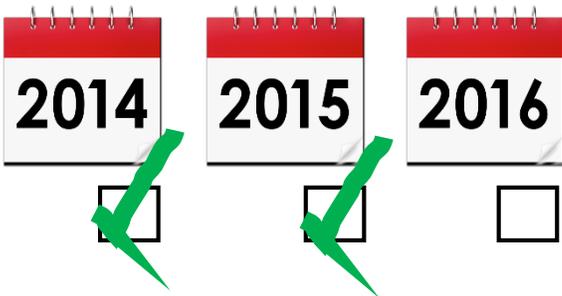

You have the right to help make decisions about what is in your plan.

Your plan should be easy to read and understand.

It can be in words or in pictures.

You should review your service plan with all of your service providers at least 1 time each year.

You can change your service plan any time

- If you are unhappy with your services
- If you change your mind about the services you want
- If you change your mind about who you want as your service provider
