

Get ready! IAF Phase 2 is almost here!

Phase 2 of the IAF Online Submission project is almost complete! The IAF application on the DODD Web Portal will be updated Monday, September 22, 2014.

#### What does that mean for me?

- **Online, Real-Time Roster Management**
  - Allowing discharges and admissions of residents as they occur
- **Online Resident Assessment** (Beginning 9/30 to coincide with the Reporting Period End Date)
  - Complete and certify assessments online without the worry of creating and uploading a file
- **Live reports** available as assessment certification is completed
  - Access to reports previously posted online will still be available
- **Browse and print** assessments

Providers will no longer use the IAF desktop software to manage rosters, assess residents or create files to upload. Instead they will be able to perform all these functions online and in real time.

Beginning Monday, September 15<sup>th</sup> the existing IAF application will no longer be available.

#### Join us for webinar training on these new features:

Roster Management:

[Mon, Sep 22, 2014 9:30 AM - 11:00 AM EDT](#)

[Thu, Sep 25, 2014 9:30 AM - 11:00 AM EDT](#)

Assessment, Certification, and Reports:

[Wed, Oct 1, 2014 9:30 AM - 11:00 AM EDT](#)

[Fri, Oct 3, 2014 9:30 AM - 11:00 AM EDT](#)

---

#### Also important:

A step-by-step guide to new IAF features will be posted on the DODD website next week here:

<http://dodd.ohio.gov/medicaid/Pages/IAF-Online-Submission.aspx>

A limited number of test accounts are available to practice new features in an online training environment. Access is limited to the first 30 requests. Providers with multiple facilities and submission agents will share one training account. For access contact Josh Anderson at [joshua.anderson@dodd.ohio.gov](mailto:joshua.anderson@dodd.ohio.gov).

Access to the IAF application will be unchanged from Phase 1. All current submission agents will keep the access to the providers they are mapped to.
