Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

A. The State of Ohio requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.

B. Program Title:
   IO Waiver Amendment December 2018

C. Waiver Number: OH.0231
   Original Base Waiver Number: OH.0231.

D. Amendment Number: OH.0231.R04.09

E. Proposed Effective Date: (mm/dd/yy)
   12/01/18

   Approved Effective Date: 12/01/18
   Approved Effective Date of Waiver being Amended: 07/01/14

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:
The amendment reflects the Ohio Department of Developmental Disabilities’ (DODD’s) intention to improve access to technology services for Ohioans with developmental disabilities who would benefit from innovative supportive technology that lowers barriers that people with disabilities encounter in their daily lives, and to add a transition service that supports people who move from facilities to homes in the community. The new Assistive Technology services align with Governor John Kasich’s 2018 executive order establishing a “Technology First” initiative in Ohio with the goal of expanding access to technology for people with developmental disabilities.

News coverage of the initiative can be found here: https://apnews.com/825f4e5ccd764192bc7fcfc35c790d46

The executive order can be found here: http://governor.ohio.gov/Portals/0/Signed%20Executive%20Order.pdf

Ohio has amended the approved waiver application in the following appendices:

- Appendix A-2 Oversight of Performance: Update ODM Adverse Outcomes process and update name of ODM Protection from Harm Unit to Health and Welfare Section
- Appendix B-3 Participant Access and Eligibility: Update the waitlist rule reference, update systems information
- Appendix C-3 Participant Services:
  - Add Assistive Technology service
  - Assistive Technology service will be available as an alternative to Remote Monitoring equipment and Career Planning sub-component Assistive Technology Assessment services beginning January 1, 2019.
  - Modify Remote Monitoring service, which is retitled “Remote Support,” and
  - End date Remote Monitoring Equipment
  - End date sub-component Assistive Technology Assessment in Career Planning service
  - Add Community Transition Service
  - Update rule references to reflect five year rule review changes
- Appendix G-1 Participant Safeguards: Updated to reflect the MUI rule reference, updated name of ODM Protection from Harm Unit to Health and Welfare Section
- Appendix I-2 Financial Accountability: Updated to reflect service changes stated above and electronic visit verification requirements.
- Appendix J-2 Cost Neutrality Demonstration: Waiver Year 5 is updated to reflect service additions and modifications as specified in Appendix C.

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (check each that applies):

<table>
<thead>
<tr>
<th>Component of the Approved Waiver</th>
<th>Subsection(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>[ ] Waiver Application</td>

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (check each that applies):

- ☐ Modify target group(s)
- ☐ Modify Medicaid eligibility
- ☑ Add/delete services
- ☑ Revise service specifications
- ☑ Revise provider qualifications
- ☐ Increase/decrease number of participants
- ☐ Revise cost neutrality demonstration
- ☐ Add participant-direction of services
- ☑ Other
  Specify:

Revision of various rule references in Appendix C to reflect new Ohio Administrative Code rule numbering convention; addition of electronic visit verification.

**Application for a §1915(c) Home and Community-Based Services Waiver**

1. Request Information (1 of 3)

A. The State of Ohio requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).

B. Program Title (optional - this title will be used to locate this waiver in the finder):

   IO Waiver Amendment December 2018

C. Type of Request: amendment

   Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

   ☐ 3 years ☑ 5 years

   Original Base Waiver Number: OH.0231
Waiver Number: OH.0231.R04.09
Draft ID: OH.007.04.15

D. Type of Waiver (select only one):

- Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 07/01/14
   Approved Effective Date of Waiver being Amended: 07/01/14

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (check each that applies):

- **Hospital**
  
  Select applicable level of care
  
  - **Hospital as defined in 42 CFR §440.10**
    
    If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

- **Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160**

- **Nursing Facility**
  
  Select applicable level of care
  
  - **Nursing Facility as defined in 42 CFR ??440.40 and 42 CFR ??440.155**
    
    If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

- **Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140**

- **Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)**
  
  If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

  - **Not applicable**
  - **Applicable**

  Check the applicable authority or authorities:

  - **Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I**
  
  - **Waiver(s) authorized under §1915(b) of the Act.**
    
    Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

06/17/2019
Specify the §1915(b) authorities under which this program operates (check each that applies):

- §1915(b)(1) (mandated enrollment to managed care)
- §1915(b)(2) (central broker)
- §1915(b)(3) (employ cost savings to furnish additional services)
- §1915(b)(4) (selective contracting/limit number of providers)

A program operated under §1932(a) of the Act.

Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

- A program authorized under §1915(i) of the Act.
- A program authorized under §1915(j) of the Act.
- A program authorized under §1115 of the Act.

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.

Check if applicable:
- This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

**Brief Waiver Description.** In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The purpose of the Individual Options waiver is to provide home and community-based service options to individuals with a developmental disability in order to avoid or delay institutionalization.

The goal and objective of the Individual Options waiver is to provide home and community-based waiver services to Ohio residents with a developmental disability. These services are provided in community settings of the individual’s choice and may include living with family, in their own home, in adult foster care settings, or in small congregate settings.

The objective is to provide needed services to individuals with developmental disabilities and to increase enrollment capacity in a systematic manner in order to reduce waiting lists for these services.

The organizational structure for this waiver includes the Ohio Department of Medicaid (ODM) as the Single State Medicaid Agency, the Ohio Department of Developmental Disabilities (DODD) as the administrator of the waiver, and the County Boards of Developmental Disabilities (County Boards of DD) as the local operating entity. The two state departments operate in accordance with an interagency agreement. ODM retains final authority for the waiver, its administration and operation.

Traditional and self-directed methods of service delivery are used. Providers include for profit and not-for-profit agency and independent providers, and County Boards when no other providers are available in accordance with the corrective action plan agreed upon by CMS.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.
A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Direction of Services. When the state provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

- ☑ Yes. This waiver provides participant direction opportunities. Appendix E is required.
- ☐ No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

G. Participant Safeguards. Appendix G describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.

H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.

I. Financial Accountability. Appendix I describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

- ☑ Not Applicable
- ☐ No
- ☑ Yes

C. Statewideness. Indicate whether the state requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

- ☑ No
- ☑ Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):

- ☐ Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state.

Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:
Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state.

Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

A. Health & Welfare: The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any state licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,

3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in Appendix C.

B. Financial Accountability. The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. Evaluation of Need: The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

F. Actual Total Expenditures: The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
G. Institutionalization Absent Waiver: The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

H. Reporting: The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

D. Access to Services. The state does not limit or restrict participant access to waiver services except as provided in Appendix C.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

F. FFP Limitation. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. Fair Hearing: The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. Appendix F specifies the state's procedures to provide
individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

**H. Quality Improvement.** The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in Appendix H.

**I. Public Input.** Describe how the state secures public input into the development of the waiver:
DECEMBER 2018 AMENDMENT- PUBLIC COMMENTS

Date of the formal public comment period: June 18, 2018 – July 18, 2018.

The IO, Level One and SELF Public Notices are featured on the DODD website ("This Week at DODD") until the close of the public comment period: http://dodd.ohio.gov/Training/Pages/ThisWeek.aspx and the emails and notice are available in electronic form in the DODD website communications archive; email message: http://dodd.ohio.gov/Communications/Lists/Posts/Post.aspx?ID=994 ; notice: http://dodd.ohio.gov/Communications/SiteAssets/Individual%20Options%20Public%20Notice.pdf may request hard copies of the website content through mail or phone.

Public Input Process- Description
Throughout the life of the waiver, DODD has engaged individuals enrolled in the Individual Options (IO) Waiver and stakeholders, including families, and other caregivers, providers, and advocates, in both a formal and informal capacity to discuss amendments to the waiver.

DODD follows a protocol to advance-publish the changes in the waiver application and provide notice to inform the public including but not limited to individuals, families, County Boards, provider association, and advocates of changes incorporated in the IO Waiver amendment application.

These public notices include mass distribution using multiple listservs via e-mail and posting on DODD’s website. The local County Boards post a copy of the Public Notice and Request for Comment announcement, which includes information about how to obtain a non-electronic copy of the waiver and the proposed amendments from DODD and local county boards. Individuals are able to obtain the waiver application which is available in both hard copies and online and requests may be through mail or phone.

By providing public notice the public has the opportunity to provide input prior to submission of the IO Waiver amendment. Individuals are able to obtain the waiver application which is available in both non-electronic copies and electronic copies. Individuals are given the option to request a non-electronic copy of the waiver applications and were the option to submit public comment non-electronically.

Ohio offers five methods for the public to provide input on the proposed waiver amendment and/or request a non-electronic copy:

E-mail: waiverfeedback@dodd.ohio.gov
Written comments sent to:
DODD
30 E. Broad Street, 13th Floor, Columbus, OH 43215
Phone: (614) 728-1033
Courier or in-person submission to:
Attn: DODD
30 E. Broad Street, 13th Floor, Columbus, OH 43215
Fax: Ohio provides a fax number: (614) 466-6945. Attn: Bureau of Long Term Services and Support, IO Waiver

PUBLIC COMMENT DECEMBER 2018

Public Comment and Department Response

The state received the following comments germane to the waiver amendments:

Comment: The state received a letter of support from Ohio Provider Resource Association (OPRA) on behalf of 127 service providers supportive of the Ohio Department of Developmental Disabilities (DODD) for their continued effort to ensure Ohioans with intellectual and developmental disabilities are properly served by the Home and Community-Based Services (HCBS) waivers.

Department's Response: The state thanks the Ohio Provider Resource Association (OPRA) for the letter of support and continue collaboration to develop these system changes.

Comment: The state received a comment from a concerned parent of a child regarding the new wait list process and how
J. Notice to Tribal Governments. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

Last Name: Dickerson
First Name: Icilda L.
Title: Bureau of Long-term Services and Supports
Agency: Ohio Department of Medicaid
Address: 50 West Town Street, 5th floor, Columbus, OH 43215
Address 2: P.O. Box 182709
City: Columbus
State: Ohio
Zip: 43218-2709
Phone: (614) 752-3578 Ext: TTY
Fax: (614) 644-6945
E-mail: icilda.dickerson@medicaid.ohio.gov

B. If applicable, the state operating agency representative with whom CMS should communicate regarding the waiver is:
8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state's request to amend its approved waiver under §1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Signature: ROSEANN CULVER

State Medicaid Director or Designee

Submission Date: Sep 17, 2018

Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.
Attachment #1: Transition Plan

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

☐ Replacing an approved waiver with this waiver.
☐ Combining waivers.
☐ Splitting one waiver into two waivers.
☒ Eliminating a service.
☐ Adding or decreasing an individual cost limit pertaining to eligibility.
☐ Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
☐ Reducing the unduplicated count of participants (Factor C).
☐ Adding new, or decreasing, a limitation on the number of participants served at any point in time.
☐ Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
☐ Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

New services implementation - Community Transition and Assistive Technology

RULES: OAC 5123-9-48 Home and community-based services – community transition under the individual options waiver and OAC 5123-9-12 Home and community-based services assistive technology under the individual options, level one, and self-empowered life funding waivers will be final filed with an effective date of January 1, 2019.

CASE MANAGEMENT: SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. The SSA’s are responsible for working with individual(s) to discuss and provide information about the new replacement services.

SERVICE PLANNING: SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. Ohio is in compliance with the person-centered planning process as outlined in Ohio Administrative Code 5123:2-1-11, effective as of March 17, 2014.

COMMUNICATIONS: Ohio has worked with various stakeholder workgroups, presented at major conferences, and developed print, website (http://dodd.ohio.gov/IndividualFamilies/Pages/AssistiveTech.aspx), and social media resources to inform families and individuals who may be interested in supportive technology services, county board service planning teams, and providers who deliver current equipment or technology related services who will have the opportunity to be certified to deliver the new Assistive Technology service. Ohio has worked with the primary statewide stakeholder waiver workgroup to develop and share information regarding the community transitions service for people who are leaving facilities.

Remote Support is not being terminated. The current service of Remote Monitoring is being renamed to Remote Supports, based on stakeholder input. Stakeholders indicated the name “Remote Support” is more person-centered and was favored over the original name of “Remote Monitoring” as the name for this service. The state has modified the service title only as a result of this stakeholder input.

Eliminated Service - Remote Monitoring Equipment transition plan

RULES: OAC 5123:2-9-32 Home and community-based services remote monitoring and remote monitoring equipment under the individual options, level one, and self-empowered life funding waivers will be rescinded with an effective date of January 1, 2019. OAC 5123-9-12 Home and community-based services assistive technology under the individual options, level one, and self-empowered life funding waivers, through which all technology equipment including equipment that supports remote monitoring services, will be final filed with an effective date of January 1, 2019.

CASE MANAGEMENT: Service planning will remain with the same entity and SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. The SSA’s are responsible for working with individual(s) to discuss and provide information about the new replacement services.

SERVICE PLANNING: Service planning will remain with the same entity and SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. Ohio is in compliance with the person-centered planning process as outlined in Ohio Administrative Code 5123:2-1-11, effective as of March 17, 2014.

Agency providers of Remote Support Equipment will be automatically certified to provide the Assistive Technology Equipment without submitting an application.

COMMUNICATIONS: Ohio has worked with various stakeholder workgroups, presented at major conferences, and developed print, website (http://dodd.ohio.gov/IndividualFamilies/Pages/AssistiveTech.aspx), and social media resources to inform families and individuals who may be interested in supportive technology services, county board service planning teams, and providers who deliver current equipment or technology related services who will have the opportunity to be certified to deliver the new Assistive Technology service.

Eliminated Service - Career Planning service sub-component Assistive Technology Assessment transition plan

RULES: OAC 5123:2-9-13 Home and community-based services waivers - career planning under the individual options, level
one, and self-empowered life funding waivers will be amended with an effective date of January 1, 2019 to remove language regarding sub-component Assistive Technology Assessment. OAC 5123-9-12 Home and community-based services assistive technology under the individual options, level one, and self-empowered life funding waivers, which includes both a consultation component and a support/training component that together replace the expired sub-component, will be final filed with an effective date of January 1, 2019

CASE MANAGEMENT: Service planning will remain with the same entity and SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. The SSA’s are responsible for working with individual(s) to discuss and provide information about the new replacement services.

SERVICE PLANNING: Service planning will remain with the same entity and SSA’s will work with the individuals and their teams to develop or revise Person Centered Individual Service Plans. DODD typically issues notice to individuals/providers with the proposed effective date, typically 30 days or more in advance of new service availability. Ohio is in compliance with the person-centered planning process as outlined in Ohio Administrative Code 5123:2-1-11, effective as of March 17, 2014.

Providers of the Career Planning Assistive Technology Assessment subcomponent will be automatically certified to provide the Assistive Technology Consultation without submitting an application.

COMMUNICATIONS: Ohio has worked with various stakeholder workgroups, presented at major conferences, and developed print, website (http://dodd.ohio.gov/IndividualFamilies/Pages/AssistiveTech.aspx), and social media resources to inform families and individuals who may be interested in supportive technology services, county board service planning teams, and providers who deliver current equipment or technology related services who will have the opportunity to be certified to deliver the new Assistive Technology service.

Comparison between career planning service subcomponent-assistive technology assessment and the new assistive technology consultation component

• The scope of both services is the same.
• Under career planning, assistive technology assessment was only available as it related to employment supports. The new assistive technology consultation component is available to individuals who could benefit from technology-based supports in residential, community, or employment settings.
• Provider qualifications under the new assistive technology service were expanded to include people who have at least 2 years full-time or part-time equivalent, paid work experience in the developmental disabilities field and hold a bachelor’s degree in a technology related field.
• The rate per assessment under the career planning subcomponent was $352.20. The rate for the new assistive technology consultation service is $137.44 per report. The new rate is based on the time to perform the assessment and develop the written recommendation report, paid at the approved state plan rates for Physical Therapy/Occupational Therapy/ Speech Language Pathology. The new rate is lower than the career planning subcomponent because the rate does not include training, and education is a separate component.

Comparison between remote monitoring equipment and assistive technology equipment

• The scope of both services is the same.
• Independent providers could deliver remote monitoring equipment. Assistive technology equipment may only be provided by agency providers. The state determined sufficient agency capacity existed for the service without including independent providers. The state verified no independent providers of remote monitoring equipment had billed for the service.
• The budget limitations for both services are the same at $5,000 per waiver eligibility span.

No comparison is required between personal emergency response systems and assistive technology equipment as personal emergency responses systems is not an available service under the Individual Options benefit package.

No comparison is required between remote supports and assistive technology, as remote supports is not being terminated.

Service and support administrators through the county board of developmental disabilities will work with each person impacted by these changes to transition to a new provider of the relevant replacement service and will update the person’s individual support plan accordingly. The state is granting the appropriate assistive technology certifications to existing providers of the assistive technology subcomponent of career planning and remote support equipment to ensure no disruption in service occurs.

Individuals are informed of the opportunity to request a Fair Hearing by their service and support administrator as plans are
Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.

Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.
I. STATUS OF THE STATE TRANSITION PLAN

Under the umbrella of the Office of Health Transformation (http://www.healthtransformation.ohio.gov), an interagency project team, comprised of state staff from the Ohio Department of Aging (ODA), the Ohio Department of Developmental Disabilities (DODD), and the Ohio Department of Medicaid (ODM) developed a shared approach for developing the draft statewide transition plan. Compliance with the CMS rule creates different opportunities and challenges for the Intermediate Care Facilities for Individuals with an Intellectual Disability (ICF-IID) waiver system and the Nursing-facility based level of care (NF-LOC) waiver system. As a result, the project team leveraged the existing resources and infrastructures of each waiver system to established system specific assessment methodologies to conduct a review of the applicable state statutes, administrative rules, approved waivers, provider licensing, qualifications and waiver certification requirements, service specifications, case management administrative and operational processes, person-centered planning processes, monitoring and operational oversight activities, and quality improvement strategies to determine the current level of compliance and identify areas for improvement and remediation to achieve and maintain full compliance.

During Ohio’s formal public comment period, a copy of the full draft transition plan was posted to the website of Ohio’s Office of Health Transformation from December 15, 2014 through January 23, 2015. During the Statewide formal public comment period, described in detail in Section III of Ohio’s State Transition Plan, the state received input from many interested parties including individuals receiving services, family members, providers, advocates and the federal Centers for Medicare and Medicaid Services (CMS). As a result of the feedback, the state made adjustments to the draft plan by adding clarity, adjusting the approach to specific settings, and providing for an increased contribution from individuals and families.

December 2015 Update: The Centers for Medicare and Medicaid Services (CMS) completed its initial review of Ohio’s Statewide Transition Plan and issued the findings to the State on July 23, 2015. As a result of the initial CMS review of the draft statewide transition plan, the plan was revised and posted for public comment. During Ohio’s second formal public comment period, a copy of the full draft transition plan was posted to the website of Ohio’s Office of Health Transformation between October 15, 2015 and November 15, 2015. A summary of how public input process and the summary of comments on the revised draft transition plan pertaining to this waiver is described in Section Main B. Optional Attachment.

Ohio submitted the revised draft statewide transition plan through the portal on December 3, 2015. The State awaits CMS approval of the revised plan. While the State is attaching the updated IO Waiver Transition plan, the State expects that language in the State’s Transition Plan approved by CMS and related to the IO Waiver will take precedence over the language in the waiver transition plan.

August 2016 Update: On June 2, 2016, CMS granted the state of Ohio initial approval of its Statewide Transition Plan (STP) to bring settings into compliance with the federal home and community-based services (HCBS) regulations found at 42 CFR section 441.301 9(c)(4)(5) and section 441.710(a)(1)(2). Approval was granted because the state completed its systemic assessment, included the outcomes of this assessment in the STP, clearly outline remediation strategies to rectify issues that the systemic assessment uncovered, such as legislative changes and changes to contracts, and is actively working on those remediation strategies. The state continues to work towards final approval of Ohio’s STP by addressing CMS’s remaining concerns related to the state’s systemic assessment and remediation expedited the initial approval of its STP. Ohio’s Statewide Transition Plan and related documents can be found at: http://www.medicaid.ohio.gov/INITIATIVES/HCBSTransition.aspx

April 2017 Update: On 6/2/2016, the Centers for Medicare and Medicaid Services (CMS) issued the initial approval of the statewide transition plan (STP). With the initial approval, CMS requested the State respond to the additional questions outlined in Attachment II. Following the CMS review of the State’s Attachment II responses, CMS directed the State to incorporate the responses into the STP and post the STP for the required 30 day public comment period. The required public comment period ended January 12, 2017. The state received four submissions during the formal public comment period. As required by CMS, The summary of the comments and the State’s responses have been incorporated into the STP. The updated Ohio Statewide Transition Plan was submitted to CMS on March 3, 2017 and is pending final approval.

II. DESCRIPTION OF IO WAIVER SERVICES IN RESIDENTIAL AND NON-RESIDENTIAL SETTINGS

The results of the state’s preliminary assessment of the residential settings are described below.

A. Settings which currently do not meet HCBS characteristics but may with modifications.
Analysis:
Of the settings providing DODD waiver services, 5.9% (578 settings, housing 2,045 individuals) fall under the category of not currently meeting all of the HCBS characteristics, but recognize that they could become compliant with modifications. The providers completing the self-assessment were asked to identify barriers to compliance and potential timeframes for remediation. The majority identified changes to person-centered plans, improved linkage to the community, and staff development and training as their primary barriers. To help address these barriers, DODD has included, as part of its remediation strategy, continuation of its statewide person-centered planning training and development of web-based person-centered planning resources to be available to county boards, providers, individuals, and families.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:

A.1. Adopt and implement an overarching DODD HCBS Waiver Administration rule that reflects the characteristics of settings where HCBS may be provided and recognizes the individual’s opportunity to choose among services/settings that address assessed needs in the least restrictive manner, promote autonomy and full access to the community, and minimize dependency on paid supports.

Action Steps:
A.1.a. Developed content with the sub-committee with equal representation from advocates/self-advocates, county boards, and providers of HCBS.
A.1.b. Post draft rule for comment, make necessary revisions, and final file.

A.2. Modify Homemaker/Personal Care (HPC) service definition to incorporate CMS’ required HCBS community integration/access characteristics.

Action Steps:
A.2.a. Submit waiver amendment to CMS and modify service rules.
A.2.b. Form a workgroup with a broad cross-section of individuals/families, providers of HCBS and county boards to develop an HCBS settings evaluation tool utilized to conduct compliance reviews of providers to ensure that HCBS services are provided in settings that comport with the regulation.

A.3. Implement a new HCBS settings evaluation tool to assess the HCBS settings standards.

Action Step:
A.3. The tool will be used during on-site compliance reviews conducted by the state (DODD personnel). It includes reviews of documentation including the provider’s strategic plan, policies/procedures, and staff training. The review also takes into consideration the location of the setting whether it appears to be integrated into the broader community. Interviews will be conducted with individuals receiving services, direct support professionals, and family members to gather information about the types of opportunities for access to the community that are made available.

A.4. Incorporate the evaluation of settings into existing processes for provider certification, licensing and ongoing compliance monitoring.

Action Steps:
A.4.a. DODD will incorporate the setting evaluation in all provider compliance reviews which take place at least once every three years.
A.4.b. DODD will conduct compliance reviews of the providers using the process for regulatory review of certified providers outlined in Ohio Administrative Code 5123:2-2-04.
A.4.c. These reviews will be conducted in accordance with the current review schedule without modification for the compliant settings.
A.4.d. An on-site evaluation will occur prior to enrollment of applicants seeking to provide residential and non-residential HCBS. For individuals with an ICF-IID level of care, local service and support administrators (SSA) will ensure that new settings comply with the HCBS settings standards prior to adding the service to Individual Service Plans. In the event that a setting’s non-compliance prevents a service from being added to an individual’s plan, the individual will be afforded due process in accordance with Ohio Revised Code 5101:6-1 through 5101:6-9.
A.5. Implement setting-specific remediation strategies.

Actions Steps:
A. 5. a. Based upon the provider self-assessment, the provider indicated the ability to make modifications to ensure compliance. Letters to be sent to each provider.
A. 5. b. Remediation plans from providers who identified the ability to comply with the regulation with modifications. Providers will be asked to detail the steps they will take and the timelines by which each action will occur in order to comply. If a remediation plan is not accepted, a DODD internal team will meet with the provider to develop an acceptable remediation plan.
A. 5. c. Verify implementation of providers’ remediation strategies to determine completion of action steps in relation to the identified remediation timeframes.

A.6. Ongoing compliance monitoring will be incorporate into current oversight processes.

Action Step:

B. Settings which are presumed to have the effect of isolating individuals and may be subject to heightened scrutiny review.

Analysis:

CMS described settings “presumed to have the qualities of an institution” as those located in a public or private facility that provides inpatient treatment, settings located on the grounds of or adjacent to a public institution, or other settings with the effect of isolating individuals. No settings were located in a building that is also a public or private facility that provides inpatient treatment. Additionally, no settings were located in a building on the grounds of, or immediately adjacent to, a public institution. An additional 73 settings serving 335 individuals, approximately 1% of the DODD waiver population, were identified through a combination of the Residential Settings survey and previous on-site compliance reviews by DODD as potentially having the effect of isolating individuals receiving HCBS, and, therefore, would likely be subject to heightened scrutiny.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:

B.1. Adopt and implement an overarching DODD HCBS Waiver Administration rule that reflects the characteristics of settings where HCBS may be provided and recognizes the individual’s opportunity to choose among services/settings that address assessed needs in the least restrictive manner, promote autonomy and full access to the community, and minimize dependency on paid supports.

Action Steps:
B.1.a. Developed content with the sub-committee with equal representation from advocates/self-advocates, county boards, and providers of HCBS.
B.1.b. Post draft rule for comment, make necessary revisions, and final file.

B.2. Modify Homemaker/Personal Care (HPC) service definition to incorporate CMS’ required HCBS community integration/access characteristics.

Action Steps:
B.2.a. Submit waiver amendment to CMS and modify service rules.
B.2.b. Form a workgroup with a broad cross-section of individuals/families, providers of HCBS and county boards to develop an HCBS settings evaluation tool utilized to conduct compliance reviews of providers to ensure that HCBS services are provided in settings that comport with the regulation.

B.3. Implement a new HCBS settings evaluation tool to assess the HCBS settings standards.

Action Step:
B.3.a. Form a workgroup with a broad cross-section of individuals/families, providers of HCBS and county boards to develop an HCBS setting evaluation tool utilized to conduct compliance reviews of providers to ensure that HCBS services are provided in
setting that comport with the regulation.

B.4. The state will conduct on-site evaluations of all settings which, based upon self-assessment, may be subject to heightened scrutiny.

Action Step:
B.4.a. Conduct on-site evaluations of locations, which include interviews with individuals served to gain insight into the opportunities for integration they experience at the setting and also a review of policies/practices adopted by the provider to promote these opportunities.

B.5. For settings the state determines, based upon the on-site evaluation, do not currently comply, but have the ability to do so with modifications, settings specific remediation plans will be implemented.

Action Steps:
B.5.a. Based upon the on-site evaluation by the state, the provider will be asked to detail the steps they will take and the timelines by which each action will occur in order to comply. If a remediation plan is not accepted, a DODD internal team will meet with the provider to develop an acceptable remediation plan. DODD will required semi-annual status reports from the provider.
B.5.b. Verify implementation of providers’ remediation strategies to determine completion of action steps in relation to the identified remediation timeframes.

B.6. For settings the state determines, based upon the on-site evaluation, require requests for heightened scrutiny.

Action Steps:
B.6.a. Compile evidence for settings that were presumed to have institutional qualities but were determined to have HCBS characteristics based upon the on-site evaluation.
B.6.b. Updated and post the transition plan with description of the assessment results and identification of the settings for which CMS heightened scrutiny is requested.
B.6.c. Submit requests for heightened scrutiny to CMS.

B.7. For settings the state determines, based upon the on-site evaluation, require relocation plans and/or those for which CMS determines the setting does not meet the HCBS regulatory requirements.

Action Steps:
B.7.a. Work with individuals, providers, and county boards to identify new locations in which individuals may receive HCBS services.
B.7.b. Relocation plans for individual’s transition to a new setting.
B.7.c. DODD will inform individuals served in these settings that the location does not meet HCBS criteria. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. Individuals will be given timely notice and due process, and will have a choice of alternative settings and critical services are in place through a person centered planning process. DODD will require quarterly status reports from the provider.

B.8. Ongoing compliance monitoring will be incorporate into current oversight processes.

Action Step:
B.8.a. Monitor ongoing compliance with standards via monitoring by Service and Support Administrators (SSA) and ongoing provider compliance reviews, using the process for regulatory review of certified providers outlined in Ohio Administrative Code 5123:2-2-04.

C. Settings which cannot meet the HCBS characteristics.

Analysis:

Providers at 4 settings housing a total of 31 individuals indicated in the Residential Settings survey that the settings cannot meet the HCBS settings characteristics. No settings have been identified at this time.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:
C.1. The state will determine if location does or does not meet the HCBS characteristics through on-site evaluations.

Action Steps:
C.1.a. DODD will conduct site visits of the 4 settings whose providers indicated through the self-assessment survey that relocation may be necessary. An on-site visit was scheduled to occur no later than 8/31/15. The on-site visit included a face-to-face meeting with the provider, observations of 100% of the setting, and interviews of individuals, family/guardian and staff and when not possible, the interviews were conducted via phone within 14 days of the on-site review. The on-site and phone review utilized the HCBS Settings Evaluation tool.
C.1.b. If necessary, DODD will provide technical assistance to the provider regarding modifications which may be made to enable the setting to comply with the HCBS characteristics.
C.1.c. These visits will include interviews with individuals served to gain insight into the opportunities for integration they experience at the setting and also a review of policies/practices adopted by the provider to promote these opportunities.

C.2. For settings the state determines, based upon the on-site evaluation, do not currently comply, but have the ability to do so with modifications, setting-specific remediation plans will be implemented.

Action Steps:
C.2.a. Based upon the on-site evaluation by the state, the provider will be asked to detail the steps they will take and the timelines by which each action will occur in order to comply. If a remediation plan is not accepted, a DODD internal team will meet with the provider to develop an acceptable remediation plan.
C.2.b. Verify implementation of providers’ remediation strategies to determine completion of action steps in relation to the identified remediation timeframes.

C.3. For settings, the state determines, based upon the on-site evaluation, requests for heightened scrutiny.

Action Steps:
C.3.a. If, upon completing the on-site reviews, DODD determines that a request for heightened scrutiny must be submitted to CMS for consideration, DODD will work with the provider and individuals/families to compile evidence that the setting does have HCBS characteristics.
C.3.b. Update and post the transition plan with description of the assessment results and identification of the settings for which CMS heightened scrutiny is requested.
C.3.c. Submit requests for heightened scrutiny to CMS.

C.4. For settings the state determines, based upon the on-site evaluation, require relocation plans and/or those for which CMS determines the setting does not meet the HCBS regulatory requirements.

Action Steps:
C.4.a. If the site visits confirms the setting has the qualities of an institution, DODD will inform these providers the location where they are providing waiver services does not meet HCBS Criteria.
C.4.b. DODD will inform individuals served in these settings that the location does not meet HCBS criteria.
C.5. Providers will be given the option to relocate the place where they provide waiver services to more integrated setting, or opt to no longer receive Medicaid waiver funds for services that continue to be provided in these institutional settings.

Action Step:
C.5.a. Work with individuals, providers, and county boards to identify new locations in which individuals may receive HCBS services.

C.6. Develop relocation plans for settings that, based upon the on-site evaluation, and/or CMS determines the setting does not meet the HCBS regulatory requirements.

Action Step:
6.a. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. DODD will require quarterly status reports from the provider. Individuals will be given timely notice and due process, and will have a choice of alternative settings through a person centered planning process.
ANALYSIS OF THE NON-RESIDENTIAL SETTINGS IN THE IO WAIVER

The results of the state’s preliminary assessment of the non-residential settings are described below.

A. Non-Residential Settings which currently do not meet HCBS characteristics but may with modifications.

Analysis:

The survey results show that 50 of the 464 settings, or 8.4%, believe that, while they don’t have the qualities of an institution, some improvement could be made for how those services are delivered to the individuals they serve. Although these self-assessment results from providers indicate a relatively low number of settings that have the qualities of an institution, DODD believes the self-reporting significantly underrepresents the number of Adult Day Waiver Services settings that possess these qualities.

As a means of incorporating the CMS HCBS requirements into the Adult Day Waiver Services, DODD is working with an outside consultant who is facilitating a stakeholder group charged with creating a new service package to maximize opportunities for integrated employment and integrated wrap-around supports. The work for this waiver service package redesign is slated to conclude in mid-2015.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:

A.1. Create and implement a new Adult Day Waiver Service (ADWS) package (service definitions, provider qualifications, rate structure) that maximizes opportunities for integrated employment and integrated wrap-around supports.

Action Steps:
A.1.a. Submit waiver amendment to CMS and modify service rules.
A.1.b. Submit the new Day Services rules through rule review and implementation process.

A.2. Monitor compliance with the provision of services in integrated settings.

Action Steps:
A.2.a. Form a workgroup with a broad cross-section of individuals/families, providers of HCBS and county boards to develop an HCBS settings evaluation tool utilized to conduct compliance reviews of providers to ensure that HCBS services are provided in settings that comport with the regulation.
A.2.b. The tool will be used during on-site compliance reviews conducted by the state (DODD personnel). It includes reviews of documentation including the provider’s strategic plan, policies/procedures, and staff training. The review also takes into consideration the location of the setting whether it appears to be integrated into the broader community. Interviews will be conducted with individuals receiving services, direct support professionals, and family members to gather information about the types of opportunities for access to the community that are made available.
A.3. Incorporate the evaluation of settings into existing processes for provider certification, licensing and ongoing compliance monitoring.

Action Steps:
A.3.a. DODD will incorporate the setting evaluation in all provider compliance reviews which take place at least once every three years.
A.3.b. DODD will conduct compliance reviews of the providers using the process for regulatory review of certified providers outlined in Ohio Administrative Code 5123:2-2-04.
A.3.c. These reviews will be conducted in accordance with the current review schedule without modification for the compliant settings.
A.3.d. An on-site evaluation will occur prior to enrollment of applicants seeking to provide residential and non-residential HCBS. For individuals with an ICF-IID level of care, local service and support administrators (SSA) will ensure that new settings comply with the HCBS settings standards prior to adding the service to Individual Service Plans. In the event that a setting’s non-compliance prevents a service from being added to an individual’s plan, the individual will be afforded due process in accordance with Ohio Revised Code 5101:6-1 through 5101:6-9.
A.3.e. Additional mechanisms which contribute to the ongoing monitoring of the site-specific setting include but aren’t limited to: case management oversight as outlined in the approved waivers, involvement of protection and advocacy entities, a complaint process, and participant experience surveys.
A.4. Implement setting-specific remediation strategies.

Action Steps:
A.4.a. Based upon the provider self-assessment, the provider indicated the ability to make modifications to ensure compliance by 2019. Letters to be sent to each provider.
A.4.b. Remediation plans from providers who identified the ability to comply with the regulation with modifications. Providers will be asked to detail the steps they will take and the timelines by which each action will occur in order to comply. If a remediation plan is not accepted, a DODD internal team will meet with the provider to develop an acceptable remediation plan.
A.4.c. Verify implementation of providers’ remediation strategies to determine completion of action steps in relation to the identified remediation timeframes.

A.5. Ongoing compliance monitoring will be incorporate into current oversight processes.

Action Step:

B. Non-residential Settings which are presumed to have the qualities of an institution and may be subject to heightened scrutiny review.

Analysis: In terms of those settings that would be subject to heightened scrutiny, 19 settings (4.1%) identified that the location where they provide services would place them into this category.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:

B.1. Waiver Service (ADWS) package (service definitions, provider qualifications, rate structure) that maximizes opportunities for integrated employment and integrated wrap-around supports.

Action Step:
B.1.a. Submit waiver amendment to CMS and modify service rules.
B.2. The state will conduct on-site evaluations of all settings which, based upon self-assessment, may be subject to heightened scrutiny.

Action Step:
B.2.a. DODD will conduct on-site evaluations of locations, which include interviews with individuals served to gain insight into the opportunities for integration they experience at the setting and also a review of policies/practices adopted by the provider to promote these opportunities.
B.3. For settings the state determines, based upon the on-site evaluation, do not currently comply, but have the ability to do so with modifications, settings specific remediation plans will be implemented.

Action Step:
B.3.a. Based upon the on-site evaluation by the state, the provider will be asked to detail the steps they will take and the timelines by which each action will occur in order to comply. If a remediation plan is not accepted, a DODD internal team will meet with the provider to develop an acceptable remediation plan.

B.4. For settings the state determines, based upon the on-site evaluation, require requests for heightened scrutiny.

Action Steps:
B.4.a. Verify implementation of providers’ remediation strategies to determine completion of action steps in relation to the identified remediation timeframes.
B.4.b. Compile evidence for settings that were presumed to have institutional qualities but were determined to have HCBS characteristics based upon the on-site evaluation.
B.4.c. Updated and post the transition plan with description of the assessment results and identification of the settings for which CMS heightened scrutiny is requested.
B.4.d. Submit requests for heightened scrutiny to CMS.

B.5. For settings the state determines, based upon the on-site evaluation, require relocation plans and/or those for which CMS determines the setting does not meet the HCBS regulatory requirements.
Action Steps:

B.5.a. Work with individuals, providers, and county boards to identify new locations in which individuals may receive HCBS services from the provider of their choice.

B.5.b. Relocation plans for individual’s transition to a new setting.

B.5.c. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. Individuals will be given timely notice and due process, and will have a choice of alternative settings through a person centered planning process. DODD will require quarterly status reports from the provider.

B. 6. Ongoing compliance monitoring will be incorporate into current oversight processes.

Action Step:

B.6.a. Monitor ongoing compliance with standards via monitoring by Service and Support Administrators (SSA) and ongoing provider compliance reviews using the process for regulatory review of certified providers outlined in Ohio Administrative Code 5123:2-2-04.

C. Non-residential Settings which cannot meet the HCBS characteristics.

Analysis:

Thirteen settings (2.8%) stated they cannot meet the HCBS requirements. To determine the level of compliance for these settings, an on-site review will be conducted and, if the review aligns with the assessment, a carefully constructed plan will be developed for any individual receiving waiver services at that location to ensure as smooth a transition as possible.

Remediation Strategies and Action Steps as outlined in the Ohio Statewide Transition Plan Appendix 2: ICF-IID Level of Care Waivers Setting Remediation Grid, submitted in CMS portal on December 3, 2015:

C.1. Providers will be given the option to relocate the place where they provide waiver services to more integrated setting, or opt to no longer receive Medicaid waiver funds for services that continue to be provided in these institutional settings.

Action Steps:

C.1.a. Inform these providers the location where they are providing services does not meet HCBS Criteria.

C.1.b. Updated and post the transition plan with description of the assessment results and identification of the settings that do not meet the HCBS regulatory requirements.

C.1.c. DODD will inform individuals served in these settings that the location does not meet HCBS criteria. DODD will ensure the individuals’ service and support administrators assist individuals with transitioning to a setting that does comply with the criteria and, if necessary, with choosing a new provider. Individuals will be given timely notice and due process, and will have a choice of alternative settings through a person centered planning process.

C.2. Adult Day Health Center waiver service under the Transitions DD Waiver will be ended effective June 30, 2017.

Action Step:

C.2.a. The Adult Day Health Center waiver services under the Transitions DD waiver offers only facility-based options and no employment supports to individuals enrolled in the waiver. A Transitions DD waiver phase-out plan was approved by CMS effective July 1, 2015. Individuals will have the option to enroll in another DD waiver which will have other options of adult day array services.

III. STATUS OF THE STATE’S TRANSITION TO COMPLIANCE

December 2015 Update: The Centers for Medicare and Medicaid Services (CMS) completed its initial review of Ohio’s Statewide Transition Plan and issued the findings to the State on July 23, 2015. As a result of the initial CMS review of the draft statewide transition plan, the plan was revised and posted for public comment. During Ohio’s second formal public comment period, a copy of the full draft transition plan was posted to the website of Ohio’s Office of Health Transformation between October 15, 2015 and November 15, 2015. A summary of how public input process and the summary of comments on the
revised draft transition plan pertaining to this waiver is described in Section Main B. Optional.

The State assures that the settings transition plan included with this waiver renewal will be subject to any provisions or requirements included in the State’s approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the renewal and/or amendment.

August 2016 Update: On June 2, 2016, CMS granted the state of Ohio initial approval of its Statewide Transition Plan (STP) to bring settings into compliance with the federal home and community-based services (HCBS) regulations found at 42 CFR section 441.301 9(c)(4)(5) and section 441.710(a)(1)(2). Approval was granted because the state completed its systemic assessment, included the outcomes of this assessment in the STP, clearly outline remediation strategies to rectify issues that the systemic assessment uncovered, such as legislative changes and changes to contracts, and is actively working on those remediation strategies. The state continues to work towards final approval of Ohio’s STP by addressing CMS’s remaining concerns related to the state’s systemic assessment and remediation expedited the initial approval of its STP. Ohio’s Statewide Transition Plan and related documents can be found at: http://www.medicaid.ohio.gov/INITIATIVES/HCBSTransition.aspx

April 2017 Update: On 6/2/2016, the Centers for Medicare and Medicaid Services (CMS) issued the initial approval of the statewide transition plan (STP). With the initial approval, CMS requested the State respond to the additional questions outlined in Attachment II.
Following the CMS review of the State’s Attachment II responses, CMS directed the State to incorporate the responses into the STP and post the STP for the required 30 day public comment period. The required public comment period ended January 12, 2017. The state received four submissions during the formal public comment period. As required by CMS, The summary of the comments and the State’s responses have been incorporated into the STP.
The updated Ohio Statewide Transition Plan was submitted to CMS on March 3, 2017 and is pending final approval.

August 2017 Update: Ohio continues to submit milestone updates to the Centers for Medicare and Medicaid Services (CMS); the last update to CMS was submitted July 2017. As outlined in the Ohio Statewide Transition Plan, Ohio posted the required public comment period for ICF/IDD residential settings who require heightened scrutiny consideration by CMS. The dates of the formal public comment period are July 27, 2017-August 26, 2017 (http://medicaid.ohio.gov/RESOURCES/PublicNotices/HeightenedScrutinyReviewRequest.aspx).

January 2018 Update: Ohio continues to submit milestone updates to the Centers for Medicare and Medicaid Services (CMS); the last update to CMS was submitted July 2017. Ohio submitted ICD-IDD system heightened scrutiny packets to CMS in September 2017.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):
RAI RESPONSE 4/13/2018-Response Regarding Appendix I-2-a (add-on rate)

The add-on of $0.39/unit was developed with stakeholder input in response to the existing workforce shortage. The intent was to promote retention of direct support professionals by making available an additional $1.00/hour. Upon increasing the wage component of the homemaker/personal care rate to reflect the additional $0.25/unit, the employee-related expenses, productivity assumptions, and administrative assumptions that are part of the rate methodology were increased accordingly.

December 2015: Public Input Process and Comment Summary for the Revised Draft Statewide Transition Plan

Dates of the formal public comment period for the revised draft statewide transition plan: October 15, 2015 through November 15, 2015.

Active Link used to post the entire plan:

Ohio used the following methods to announce the opportunity to review the revised draft statewide transition plan:

Electronic: Ohio posted the revised draft plan, a public notice, summary, and stakeholder feedback on the original draft plan on the Ohio Office of Health Transformation (OHT) website. The Ohio Department of Medicaid (ODM), the Ohio Department of Aging (ODA) and the Ohio Department of Developmental Disabilities (DODD) posted public notices on their websites, which linked to the OHT site.

Remittance advice. To reach the provider community, ODM placed a notice on provider “remittance advices” during the weeks of October 22 and 29, 2015, advising providers of the draft transition plan and listing website at which they could read the plan and submit comments. Home health agencies, personal care aides and home care attendants, and waiver services organizations were among the provider types notified.

Non-Electronic: The local County Department of Job and Family Services offices posted a copy of the Public Notice and Request for Comment announcement, which included information about how to obtain a non-electronic copy of the waiver and the proposed amendments.

During the public comment period, conversations between waiver case managers individuals served on Medicaid waivers, their family members, or any individuals who may be interested, included the opportunity to provide public comment on the Plan and how to obtain a non-electronic copy of the waiver and proposed amendments.

Announcements at meetings, e-mails and conference calls. Each agency took the opportunity to inform attendees of various Medicaid-related meetings and conference calls and stakeholder e-mail groups about the opportunity to review and comment on the HCBS draft transition plan. Combined, announcements were made at least 16 times through the various methodologies reaching almost 13,000 people, which included individuals receiving services, stakeholders, providers, advocates and professional associations. In the distribution of the e-mails, each agency asked recipients to further spread the opportunity to comment to their respective colleagues and distribution lists.

Stakeholder advisory groups. Announcements were issued to both DODD and ODM/ODA Stakeholder Advisory Groups regarding the formal public comment period with a request to disseminate the information to their respective colleagues and distribution lists.

Ohio provided five methods for the public to provide input on the draft transition plan and/or request a non-electronic copy of the plan:

E-mail - Ohio established a dedicated e-mail box named MCD-HCBSfeedback.
Written comments - Ohio also provided a U.S. Postal Service address, which was Ohio Department of Medicaid, ATTN: HCBS Transition Plan, P.O. Box 182709, 5th Floor, Columbus, OH 43218.
Fax - Ohio provided a fax number, which was (614) 466-6945.
Toll-free phone number - Ohio provided a toll-free number, 1 (800) 364-3153, with a recorded message advising callers they had reached the CMS HCBS draft transition plan phone message box and offering five minutes in which to leave a message.
Video. In response to a stakeholder request during the posting of the first draft transition plan, Ohio also accepted emailed .mov video submissions.

The state received 7 unduplicated comments on the revised draft statewide transition plan during the formal public comment
period. Some submissions addressed a variety of themes. The following is a summary of the comments:

Assisted Living: 14% of the comments were on this topic. (1)

Comment: The personal needs allowance for individuals enrolled on the waiver is inadequate to promote community inclusion. Response: The state acknowledges the value of the personal needs allowance in supporting community integration. The state will consider the personal need allowance policy in future waiver design. No change made to the plan.

Miscellaneous: 86% of comments received were not specific to any type of setting and some submissions addressed a variety of themes. One submission was specific to both systems, one submission was relevant only to the NF-based LOC system and four submissions were directed to the ICF-IID system. (6)

Comment: The principle that individuals and families determine what integration means must permeate the plan. Response: The State agrees this is a basic principle of the transition plan. The plan provides opportunities for the experience of individuals to inform the implementation and ongoing assessment of compliance. No change made to the plan.

Comment: The on-site evaluations should include a broader sample of settings, not just those based on provider self-assessments. Response: The State agrees the on-site evaluations should not be limited to those based on provider self-assessments. The ongoing provider oversight process does incorporate a review of the settings beyond those identified proposed plan, as appropriate. No change made to the plan.

Comment: Benchmarks and timelines are needed to make sure sufficient progress is made and process is transparent. Response: The State acknowledges the importance of identified benchmarks and timelines. The plan outlines the proposed timelines for each component. The State will use existing stakeholder communication avenues to report on implementation progress. No change made to the plan.

Comment: Enforcement mechanism for individuals to challenge any setting not compliant. Response: The State acknowledges the value of individual' assessment of initial and ongoing setting compliance. Using the existing complaint processes, individuals have the right to file a complaint regarding a specific setting and/or to report directly to the State any concerns with a setting’s ability to comply. Upon receiving a report by an individual or another entity, the State will initiate a formal review, as appropriate. No change made to the plan.

Comment: Clarify the individual has a right to due process upon proposed modifications. Response: Due process is currently afforded if individuals have concerns with the scope, duration, or frequency of services authorized in the person-centered service plan, including any modifications proposed to the plan. No change made to the plan.

Comment: Ongoing education is needed about the new rule and subsequent changes. Response: The state will continue to share information about changes and status updates through the established stakeholder groups, routine publications, and websites. The design of the communication strategy included in the plan is underway as well as the development of “easy read” documents for individuals served by the ICF-IID system. No change made to the plan.

Comment: The Office of the State Ombudsman is supportive of the ombudsman’s role in the education and relocation process. The Ombudsman recommends flexibility with timeframes for relocation, depending on the number of settings, to ensure smooth transition for individuals. Response: The existing relocation team protocols will be used to ensure smooth transitions for individuals, including determining time frames for relocations. No change made to the plan.

Comment: The transition plan committee, which advised the development of the ICF-IID remediation plan, should be reassembled. Response: The State acknowledges the importance of ongoing communication and opportunities to provide feedback on the implementation of the remediation plan for both systems. Ongoing communication will be provided and feedback will be
solicited through existing stakeholder workgroups and publications, as well as through future public comment periods related to updates to the statewide transition plan and resulting waiver or rule amendments. No change made to the plan.

Comment: Additional Training and technical assistance is required to assist providers with complying with the regulation.

Response: The State acknowledges the value of ongoing education and technical assistance with plan implementation. Information regarding the requirements for all HCBS settings has been provided via regional forums, conferences, webinar presentations, and written publications. Since the characteristics of HCBS settings are determined through the experiences of individuals receiving supports, training efforts have been focused on the person-centered planning process. DODD has contracted with national experts to provide training and technical assistance to county board personnel and providers. In addition, local training sessions have been made available to individuals and families. Resources to support team members with person-centered planning are also available on DODD’s website. To support providers who are transitioning from facility-based day services to integrated community supports, DODD has awarded project transformation grants and has fostered communities of practices for providers to share their experiences with transformation with one another. No change made to the plan.

Comment: Revised service definitions for adult day waiver services and new rate methodologies should be adopted prior to plan implementation.

Response: The State does not agree. Individuals should be afforded opportunities for access to the broader community in accordance with their person-centered plans. DODD continues to meet with stakeholders and respond to feedback regarding proposed service definitions and rates. The planned implementation date remains October 2016. Nothing in the current rules prevents or prohibits compliance. Many providers have already or are in the process of making necessary changes to increase individuals’ access to the broader community. No change made to the plan.

Comment: County board personnel should be permitted to accompany DODD personnel during on-site visits.

Response: The State does not agree that it is necessary to include county board personnel in onsite reviews conducted by the State. County board personnel will receive training on the HCBS settings evaluation tool for use during the ongoing compliance process. No change made to the plan.

Comment: Empower SSAs in evaluating service setting compliance with integration mandate.

Response: County board personnel will receive training on the HCBS settings evaluation tool for use during the ongoing compliance process. No change made to the plan.

Comment: A question was raised about whether a formal strategic plan is required by providers of HCBS.

Response: No formal strategic plan is required. A provider’s strategic plan, if available, is one possible indicator of the provider’s commitment to supporting individuals with access to the broader community. No change made to the plan.

Comment: A question was raised about the role of protection and advocacy entities in the ongoing monitoring of site-specific settings.

Response: Involvement in ongoing compliance efforts by protection and advocacy entities is not duplicative of other compliance efforts by the State. Protection and advocacy entities are key partners in ongoing compliance by informing individuals of their right to file a complaint regarding a specific setting and/or to report directly to the State any concerns with a setting’s ability to comply. Upon receiving a report by an individual or another entity, the State will initiate a formal review, as appropriate. No change made to the plan.

Comment: The State should conduct on-site reviews until county boards have resolved the conflict of interest.

Response: The State agrees that county boards should not conduct reviews of existing adult day waiver settings until they are no longer providers of service. All initial onsite reviews will be conducted by the State. County board personnel will receive training on the HCBS settings evaluation tool for use in the ongoing compliance process. Reviews by county board personnel will focus on residential settings, as long as boards continue to provide adult day waiver (non-residential) services. No change made to the plan.

Comment: Concern was expressed that the HCBS settings evaluation tool was developed by a group of stakeholders chosen by DODD.
Response: The State does not agree. DODD invited individuals, advocates, providers, and county board personnel who provided public input on the initial posting of the statewide transition plan. Representatives included those who submitted comments in support and in opposition to the plan. No change made to the plan.

Comment: Questioned how the public will be able to comment on the results of the on-site evaluations.

Response: The statewide transition plan will be updated to reflect the results of the on-site evaluations. Future public comment periods related to updates to the statewide transition plan and resulting waiver or rule amendments will be available. No change made to the plan.

Comment: State provider compliance reviews need to occur more often than once every 3 years.

Response: Routine reviews are conducted at least once every three years. However, special reviews may be conducted whenever concerns are reported. In addition to the formal provider compliance reviews conducted by DODD and county boards, service and support administrators conduct ongoing monitoring of service plan implementation. No change made to the plan.

Comment: The HCBS settings evaluation tool should be posted to the website.

Response: The State agrees. A copy of the final HCBS evaluation tool will be posted to DODD’s website. No change made to the plan.

Comment: Full inclusion requires enhanced literacy.

Response: The State acknowledges the importance of literacy. Case managers are responsible for linking individuals with supports necessary to support their desired outcomes. This may include referrals to literacy organizations, as appropriate. No change made to the plan.

Appendix A: Waiver Administration and Operation

1. **State Line of Authority for Waiver Operation.** Specify the state line of authority for the operation of the waiver (*select one*):
   - The waiver is operated by the state Medicaid agency.
     - Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (*select one*):
       - The Medical Assistance Unit.
         - Specify the unit name:

       *(Do not complete item A-2)*
   - Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.
     - Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

   *(Complete item A-2-a).*

- The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.
  - Specify the division/unit name:
    - The Ohio Department of Developmental Disabilities (DODD)

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency

06/17/2019
agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. *(Complete item A-2-b).*

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:
The single State Medicaid Agency (ODM) assures the compliant performance of this waiver by: delegating specific responsibilities to the Operating Agency (DODD) through an interagency agreement; managing Medicaid provider agreements; establishing general Medicaid rules; approving the Operating Agency’s program-specific rules related to Medicaid requirements; processing claims for federal reimbursement, conducting audits; conducting post-payment review of Medicaid claims; monitoring the compliance and effectiveness of the Operating Agency’s operations; leading the development of quality improvement plans; and facilitating interagency data-sharing and collaboration.

Responsibilities delegated to the Operating Agency include: assuring compliant and effective case management for applicants and waiver participants by county boards of dd; managing a system for participant health and welfare; certifying particular types of waiver service providers; assuring compliance of non-licensed providers; assuring that paid claims are for services authorized in individual service plans; setting program standards/expectations; monitoring and evaluating local administration of the waiver; providing technical assistance; facilitating continuous quality improvement in the waiver’s local administration; and more generally, ensuring that all waiver assurances are addressed and met for all waiver participants. These requirements are articulated in an interagency agreement which is reviewed and re-negotiated at least every two years.

The single State Medicaid Agency’s (ODM) oversight of the Operating Agency’s (DODD) performance occurs through a combination of reviews of performance data, interagency quality briefings, and fiscal reviews.

ODM monitors DODD’s compliance and performance by:

1) Conducting the Continuous Review of DODD performance measure data (described below and in Appendix H);

2) Assuring the resolution of case-specific problems (described below is the ODM Adverse Outcome and Alert Monitoring processes);

3) Assuring systemic remediation (Quality Improvement Plan) whenever a performance measure is not fully met, and falls below a threshold of 86% (described in Appendix H);

4) Convening operating agency Quality Briefings twice a year;

5) Convening interagency HCBS waiver Quality Steering Committee (QSC) approximately four times per year; and

6) Fiscal reviews and audits (described below and in Appendix I).

ODM’s primary means for monitoring waiver compliance with federal waiver assurances occurs through the ongoing review of performance data gathered by DODD and ODM. ODM will examine performance data and other information gathered both by ODM and DODD to measure compliance and performance with respect to the federal waiver assurances including service planning, care management, free choice of provider, level of care, health and welfare, participant satisfaction, and validation of service delivery. This data and any remediation (if necessary) will be submitted in accordance with the approved performance measures in the waiver. This information will also be used by ODM to complete the quality sections of the CMS 372 report (submitted to CMS annually) and include in the Evidence Report submitted for each waiver as part of the renewal process. If areas of non-compliance or opportunities to improve program performance are identified through this process, ODM may require DODD to develop and implement quality improvement plans and monitor their effectiveness at achieving desired outcomes.

As part of the state’s oversight strategy, each year ODM will host Quality Briefings between ODM and DODD to review and discuss both monitoring and oversight processes and quality data. In these meetings, which will occur approximately twice per year, the departments will include a discussion about opportunities for program improvement that were detected, what corrective measures are/or were taken, and how the operating agency verified, or intends to verify, that the actions were effective. The quality briefings will also serve as the forum for ODM and DODD to share and review the validity and/or usefulness of performance metrics identified in this application. Throughout this review process, if areas of non-compliance or opportunities to improve program
performance are identified through this or other processes, ODM may require DODD to develop and implement quality improvement plans and monitor their effectiveness at achieving desired outcomes.

ODM also convenes the interagency HCBS waiver quality steering committee (QSC). The committee compares performance across Ohio’s Medicaid HCBS waiver systems, to identify cross-system structural weaknesses, to support collaborative efforts to improve program performance, to identify best practices and to help Ohio move toward a more unified quality management system. In 2013, Ohio engaged with Truven to update and revise the performance measures used in the State’s HCBS waivers. The QSC was instrumental in facilitating collaborative interaction across state agencies and with Truven to support the development of the “core measures” that are reflected in this waiver application.

In addition to the DODD’s program review and compliance monitoring, fiscal reviews occur on a regular basis. This includes desk reviews of administrative costs and A-133 Audits, which occur at least every three years based on risk.

ODM Adverse Outcomes process-When ODM personnel have reason to believe that a waiver recipient(s)’s health or welfare is or has been at substantial risk of being negatively affected, they will follow a protocol to assure timely reporting, intervention, and resolution in order that to the extent possible the person is made whole. These cases are managed through the Adverse Outcome (AO) Process. AOs are categorized into three types based upon the perceived risk to an individual’s health, safety and/or welfare: Imminent, Serious, Moderate. Depending on the level of severity staff will take immediate action; contact emergency response and protective service authorities as appropriate; coordinate intervention with providers, case managers, and other authorities; and report the finding to the Operating Agency. The Operating Agency is then required, within certain time frames, to describe and report the progress of their plan(s) for resolution and remediation (including at the systems level). ODM will convene a multi-disciplinary group, known as the Health and Welfare review committee to determine if resolution/remediation plans are appropriate, and determine if the AO(s) was resolved and or remedied.

ODM Director Incidents Alert Monitoring – ODM health and welfare review committee monitors both prevention and outcome activities performed by DODD to protect Medicaid individuals on HCBS waivers from significant incidents impacting their health and safety. ODM staff review incident alerts, track and monitor them until, resolution has been reached, the individual is healthy and safe, the cause has been identified and remedied, and preventive measures have been taken.

The discovery of potential Incident Alerts may occur through the following means: ODM may be notified by DODD via Director’s Alert e-mail or other means; by the ODM health and welfare review committee; through ODM monitoring of DODD Incident Tracking System (ITS); through other service delivery systems; media; or complaints received directly by ODM.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

- Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).
  Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.:

- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):
Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

County Boards of DD conduct waiver operational and administrative functions at the local level. These responsibilities include performing assessments and evaluations, assisting in the preparation and submission of prior authorization requests for waiver services, assisting individuals in exercising free choice of provider, monitoring services, investigations of abuse, neglect and major incidents, case management (known as service and support administration) and managing waiting lists in accordance with Section 5123.042 of the Ohio Revised Code.

Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

In accordance with Section 5126.054 of the Ohio Revised Code, each county board of dd develops a plan for Medicaid waiver administration. The plan includes the Planning Implementation Component Tracking document (known as the PICT).

DODD oversight activities:
* reviews and approves the county board of dd Plan for Medicaid waiver administration,
* reviews county board of dd recommendations regarding whether an individuals application for HCBS waiver services should be approved or denied, including whether the individual meets an ICF-IID level of care,
* retains the authority to review any Individual Service Plan (ISP) recommended by the county board of dd for waiver services, and
* provides communication, technical assistance and training to county board of dd regarding their role as local operators for waivers.

Appendix H provides further discussion of the oversight of county board of dd by DODD.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:
The Operating Agency (DODD): 1) accredits each County Board for a period of one to three years, with better performing boards granted the longer accreditation terms, 2) conducts annual reviews of each County Board to evaluate participant Prevention from Harm systems, and 3) on an ongoing basis, investigates complaints and individual incidents of abuse, neglect, or exploitation, especially when the alleged problem potentially resulted from a local system failure. The tools used for accreditation contain questions, probes, and requests for evidence that tie directly to federal assurances, including assurances for: service planning & consumer free choice of provider; level of care determination; health and welfare; and hearing rights. The health and welfare sections of the accreditation tool are used for the annual Protection from Harm evaluations. The Operating Agency produces regular reports on participant-specific Major Unusual Incidents, including county-specific data, and monitors to detect trends and patterns.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

06/17/2019
For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
PM A1: Number and percentage of Quality Briefings conducted between Ohio Department of Medicaid (ODM) to review the operating agency’s (Ohio Department of Developmental Disabilities (DODD)) performance data as specified in the waiver application. Numerator: Number of conducted Quality Briefings between ODM. Denominator: Total number of Quality Briefings specified in the waiver.

Data Source (Select one):
Other
If 'Other' is selected, specify:
ODM/DODD Quality Briefing Meeting Minutes/Performance Measure Data

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Data for specific waivers will be presented to each operating agency in Quality Briefings twice a year. These Quality Briefings will also be informed by data presented by the operating agencies to report oversight activities conducted in the period, and including descriptions of any compliance or performance problems, actions taken to remedy those problems, and how the operating agency verified, or intends to verify, that the actions were effective. The Quality Briefings will also serve as the forum for ODM and DODD to share and review performance metrics identified in this application.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
ODM conducts activities for: 1) case-specific remediation, and 2) system-level remediation.

Activities by ODM for addressing individual problems include:
1) ODM Adverse Outcomes process - during the course of any review conducted by ODM, when staff encounter a situation in which a waiver recipient’s health or welfare seems to be at risk, the staff follow a protocol to report these observations. Adverse outcomes are prioritized based upon three reporting levels: Imminent, Serious, and Moderate. Depending on the severity of the situation, the staff will take immediate action, coordinate intervention with providers or case managers, or report the finding to the ODM health and welfare section. The ODM health and welfare section communicates findings to the Operating Agency for review and/or intervention, and with explicit variable timeframes within which a report back to ODM is expected. ODM logs and tracks all such findings and referrals to appropriate assure resolution. ODM convenes the Health and Welfare Review committee to determine when an Adverse Outcome is fully resolved and can be closed.
2) Alert Monitoring – The ODM health and welfare section monitors both prevention and outcome activities performed by DODD to protect Medicaid consumers on HCBS waivers from significant incidents impacting their health and welfare. The ODM health and welfare section review incident alerts, track and monitor them until, resolution has been reached, the individual is healthy and safe, the cause has been identified and remedied, and preventive measures have been taken. The discovery of potential Director Incident Alerts may occur through the following means: may be notified by DODD via Director’s Alert e-mail or other means; by ODM health and welfare section; through ODM monitoring of DODD Incident Tracking System (ITS); through other service delivery systems; media; or complaints received directly by ODM.

Activities by ODM geared to support systems level remediation include:
1) Performance Measures data reports submitted to ODM by DODD on a quarterly basis. DODD is able to address individual remediation as they are discovered and provide technical assistance that may include plans of corrective action.
2) Quality Briefings - ODM convenes a bi-annual Quality Briefing with DODD in which the agencies share and review performance measures data. In addition, data may include performance data reflecting DODD monitoring activities, including how many particular monitoring activities were completed in the period, what areas of non-complaints were identified, and what corrective actions were initiated. This Quality Improvement process is described in greater detail in Appendix H.

ii. Remediation Data Aggregation

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-
Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. **Target Group(s)**. Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

<table>
<thead>
<tr>
<th>Target Group</th>
<th>Included</th>

</tbody>
</table>

b. **Additional Criteria**. The state further specifies its target group(s) as follows:

c. **Transition of Individuals Affected by Maximum Age Limitation**. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):
Not applicable. There is no maximum age limit

- The following transition planning procedures are employed for participants who will reach the waiver’s maximum age limit.

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- **No Cost Limit.** The state does not apply an individual cost limit. *Do not complete Item B-2-b or item B-2-c.*

- **Cost Limit in Excess of Institutional Costs.** The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. *Complete Items B-2-b and B-2-c.*

**The limit specified by the state is (select one):**

- A level higher than 100% of the institutional average.

  Specify the percentage: [ ]

- **Other**

  Specify:

- **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c.*

- **Cost Limit Lower Than Institutional Costs.** The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

  Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. *Complete Items B-2-b and B-2-c.*

**The cost limit specified by the state is (select one):**

- The following dollar amount:
Specify dollar amount: 

The dollar amount (select one)

○ Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

○ May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.

○ The following percentage that is less than 100% of the institutional average:

Specify percent:

○ Other:

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. Participant Safeguards. When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- Other safeguard(s)

Specify:
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>19000</td>
</tr>
<tr>
<td>Year 2</td>
<td>21000</td>
</tr>
<tr>
<td>Year 3</td>
<td>23600</td>
</tr>
<tr>
<td>Year 4</td>
<td>24300</td>
</tr>
<tr>
<td>Year 5</td>
<td>25000</td>
</tr>
</tbody>
</table>

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: (select one):

- ☐ The state does not limit the number of participants that it serves at any point in time during a waiver year.
- ☐ The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td></td>
</tr>
<tr>
<td>Year 2</td>
<td></td>
</tr>
<tr>
<td>Year 3</td>
<td></td>
</tr>
<tr>
<td>Year 4</td>
<td></td>
</tr>
<tr>
<td>Year 5</td>
<td></td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):
Not applicable. The state does not reserve capacity.

The state reserves capacity for the following purpose(s).

Purpose(s) the state reserves capacity for:

<table>
<thead>
<tr>
<th>Purposes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emergencies and Hearing Decisions</td>
</tr>
<tr>
<td>Statewide HCBS Waiting List Reduction</td>
</tr>
<tr>
<td>Community Alternative</td>
</tr>
<tr>
<td>Transfer Individuals on Transitions DD Waiver</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Emergencies and Hearing Decisions

Purpose (describe):

2.

a. Emergencies: Individuals who require waiver resources to address immediate needs due to circumstances specified in OAC 5123:2-1-08, or

b. Hearing Decisions: An order for the county DD board to enroll an individual on the waiver as the result of a Medicaid state hearing decision made in conformance with 5101.35 of the Revised Code.

Describe how the amount of reserved capacity was determined:

A total of 3% of unduplicated number of participants (listed in Table B-3-a) is reserved to accommodate emergency situations and hearing decisions during each Waiver Year.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>570</td>
</tr>
<tr>
<td>Year 2</td>
<td>588</td>
</tr>
<tr>
<td>Year 3</td>
<td>609</td>
</tr>
<tr>
<td>Year 4</td>
<td>630</td>
</tr>
<tr>
<td>Year 5</td>
<td>651</td>
</tr>
</tbody>
</table>
Statewide HCBS Waiting List Reduction

Purpose (describe):

864 reserve capacity waivers are needed for years two and three and 200 reserve capacity waivers are needed for year five for enrollment of individuals in state-funded waivers as part of the State’s waiting list reduction initiative.

Describe how the amount of reserved capacity was determined:

Ohio Developmental Disabilities Council and research partner Ohio Colleges of Medicine Government Resource Center conducted a study of people on Ohio's Home and Community-Based Waiver waiting list. The goal was to get more detailed information about the people on the list and the services they require. The findings of the study lead the group to propose the 10% Solution to reduce the HCBS waiting list. These reserve capacity of Individual Options waivers were included within Ohio’s budget and initiative to reduce the HCBS waiting list.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>0</td>
</tr>
<tr>
<td>Year 2</td>
<td>216</td>
</tr>
<tr>
<td>Year 3</td>
<td>648</td>
</tr>
<tr>
<td>Year 4</td>
<td>0</td>
</tr>
<tr>
<td>Year 5</td>
<td>200</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Community Alternative

Purpose (describe):

Community option of individuals seeking placement or residing in a public or private ICF/IID.

Describe how the amount of reserved capacity was determined:

The number for this reserved capacity was derived as a result of meetings with stakeholders on how to advance Ohio's support of the Olmstead Initiative in terms of individual's seeking placement in an ICF/IID and for moving individuals out of institutional setting.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>400</td>
</tr>
<tr>
<td>Year 2</td>
<td>300</td>
</tr>
<tr>
<td>Year 3</td>
<td>440</td>
</tr>
</tbody>
</table>
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

**Purpose** (provide a title or short description to use for lookup):

Transfer Individuals on Transitions DD Waiver

**Purpose** (describe):

To support the transfer of individuals currently enrolled on the Transitions DD Waiver.

**Describe how the amount of reserved capacity was determined:**

The reserved capacity was determined based on Table B-3-a Unduplicated Number of Participants.

Max number of Unduplicated Number of Participants is 3000.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. **Allocation of Waiver Capacity.**

*Select one:*

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.
Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

The Ohio Department of Developmental Disabilities (DODD) allocates waiver capacity for the Individual Options Waiver to the 88 county boards. The allocation process starts with a waiver allocation request submitted by each county board which is reviewed by DODD in the waiver management system. DODD reviews all requests and approves allocations in a manner that ensures that individuals who are residents of each of Ohio's 88 counties have proportionate access to Individual Options waiver opportunities. The formula for allocation of waiver capacity is based on demographic information and census data. The selection for entrance onto the waiver does not impact the formula; criteria for selecting entrants onto the waiver is based on the waiting list rule (please see Appendix B-3-f for additional information).

The waiver management system was updated in 2018 to consolidate both waiver allocation and enrollment into one system. As a result of these improvements in the system, reviews of allocations requested and granted, as well as waiver enrollments, can occur in real-time. ODM staff members have direct access to the data contained in the waiver management system and can also request reports at any time. Real-time reporting compares the unduplicated number of individuals enrolled and the number of waiver applications in process. A monthly summary is sent by DODD to ODM and Office of Budget Management (OBM). Once the unduplicated count approaches the approved count, the actual enrollments are monitored closely, as well as the number of applications in process to assure that the unduplicated count is not exceeded.

DODD maintains unused waiver capacity and allocates to county boards of developmental disabilities only the number of waivers requested by each board in accordance with its annual strategic planning process. Additional requests can be made by county boards throughout the year to address needs for increased capacity.

Ohio Revised Code 5123.046 requires the State to approve county board plans for waiver enrollment. Each year, county boards submit requests for waiver allocation to DODD through its web-based application, based on both available funding and the needs of people on the waiting list. DODD compares the statewide requests for waiver allocation with the number of unused waivers available for allocation and approves allocation requests through the web-based allocation in a manner that ensures statewide access.

The State’s practices do not violate the requirement that individuals have comparable access to waiver services across the state or impede movement among counties. Waiver allocation is managed at the state level by DODD with oversight by the Ohio Department of Medicaid. Chapters 5123 and 5126 of the Ohio Revised Code include provisions for the State of Ohio to pay the non-federal share of home and community-based services when a county faces financial hardship to ensure continued statewide access.

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:
Section 5126.042 of the Ohio Revised Code requires the state to work with stakeholders to establish a process for a home and community-based services waiting list. Ohio Revised Code 5126.042 has been amended to remove the existing priority groups.

Ohio Administrative Code 5123-9-04 specifies how individuals are selected for entrance to the waiver.

The Ohio Administrative Code specifies the one statewide process for how individuals are selected for entrance to a DODD-operated waiver, defines criteria for immediate need, and establishes the order in which individuals on a waiting list will be offered home and community-based services according to criteria that defines an individual’s current need for home and community-based services.

In accordance with Ohio Administrative Code 5123-9-04, individuals assessed to have immediate needs who require waiver enrollment to address those needs are enrolled without being placed on the waiting list. When selecting individuals from the waiting list for enrollment, individuals determined to have the greatest need are enrolled ahead of others with fewer needs. Urgency of need is determined by the number of criteria met for placement on the waiting list. Individuals who meet multiple criteria are enrolled ahead of those who meet only one criterion. When two or more individuals meet the same number of criteria, order of enrollment is determined by the earliest waiting list placement date.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The state is a (select one):
   - [ ] §1634 State
   - [ ] SSI Criteria State
   - [ ] 209(b) State

2. Miller Trust State.
   Indicate whether the state is a Miller Trust State (select one):
   - [ ] No
   - [x] Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. Check all that apply:

   Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

   - [ ] Low income families with children as provided in §1931 of the Act
   - [x] SSI recipients
   - [ ] Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
   - [ ] Optional state supplement recipients
   - [ ] Optional categorically needy aged and/or disabled individuals who have income at:

   Select one:
   - [ ] 100% of the Federal poverty level (FPL)
   - [ ] % of FPL, which is lower than 100% of FPL.
Specify percentage:

- Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
- Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
- Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
- Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
- Medically needy in 209(b) States (42 CFR §435.330)
- Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
- Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

42 CFR 435.145 - Children with Title IV-E Adoption assistance or Foster Care payments
Sec. 1902(a)(10)(A)(i)(VIII) - Adult Expansion
Sec.1902(a)(10)(A)(i)(IX) - Former Foster Children
Sec.1902(a)(10)(A)(ii)(VIII) - Children with Non-IV-E Adoption Assistance
Sec.1902(a)(10)(A)(ii)(XVII) - Independent foster care adolescents
42 CFR 435.110 - Parents/Caretaker Relatives
42 CFR 435.116 - Pregnant Women
42 CFR 435.118 - Infants and children under age 19
42 CFR 435.210-SSI look alike

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
- Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- All individuals in the special home and community-based waiver group under 42 CFR §435.217
- Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- A special income level equal to:

  Select one:

  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of FBR, which is lower than 300% (42 CFR §435.236)

    Specify percentage:

  - A dollar amount which is lower than 300%.

    Specify dollar amount:
Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)

Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)

Medically needy without spend down in 209(b) States (42 CFR §435.330)

Aged and disabled individuals who have income at:

Select one:

- 100% of FPL
- % of FPL, which is lower than 100%.

Specify percentage amount:

Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

- Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses spousal post-eligibility rules under §1924 of the Act. Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

  Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

   - Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular post-eligibility rules for individuals with a community spouse.
Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The state uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

- The following standard included under the state plan

  Select one:

  - SSI standard
  - Optional state supplement standard
  - Medically needy income standard
  - The special income level for institutionalized persons

  (select one):

  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of the FBR, which is less than 300%

    Specify the percentage: 

  - A dollar amount which is less than 300%.

    Specify dollar amount: 

  - A percentage of the Federal poverty level

    Specify percentage: 

  - Other standard included under the state Plan

    Specify:

  - The following dollar amount

    Specify dollar amount: If this amount changes, this item will be revised.

  - The following formula is used to determine the needs allowance:

    Specify:

    65% of 300% of the Social Security Income Federal Benefit Rate (SSI/FBR).

  - Other
ii. Allowance for the spouse only (select one):

- Not Applicable
- The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

Specify the amount of the allowance (select one):

- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: [ ] If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: [ ] The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state’s approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

- The amount is determined using the following formula:

Specify:

- Other

Specify:
iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- **Not Applicable (see instructions)** Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state establishes the following reasonable limits

Specify:

---

Appendix B: Participant Access and Eligibility

**B-5: Post-Eligibility Treatment of Income (3 of 7)**

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

**B-5: Post-Eligibility Treatment of Income (4 of 7)**

*Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.*

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- SSI standard
- Optional state supplement standard
- Medically needy income standard
- The special income level for institutionalized persons
- A percentage of the Federal poverty level
Specify percentage:

- The following dollar amount:
  Specify dollar amount: If this amount changes, this item will be revised
- The following formula is used to determine the needs allowance:
  Specify formula:

  65% of 300% of the Social Security Income Federal Benefit Rate (SSI/FBR).

- Other
  Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual’s maintenance needs in the community.

Select one:

- Allowance is the same
- Allowance is different.

  Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

  a. Health insurance premiums, deductibles and co-insurance charges
  b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

- Not Applicable (see instructions) Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.
- The state does not establish reasonable limits.
- The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.
Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant’s monthly income a personal needs allowance (as specified below), a community spouse’s allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state’s policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: [ ]

ii. Frequency of services. The state requires (select one):

- [ ] The provision of waiver services at least monthly
- [ ] Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:
Pursuant to the provision of ODM rule 5160-40-01, Medicaid home and community-based services program individual options waiver, DODD advised County Board Superintendents of DD and HCBS waiver providers in an Information Notice dated January 13, 2006 that the HCBS waiver programs are not to be utilized for the sole purpose of obtaining Medicaid eligibility. During each calendar month, county board of dd personnel are to monitor the service used by individuals whose Individual Service Plans (ISPs) indicate the need for waiver services. Consistent with ODM authorizing rules, when an individual does not use any waiver service every thirty consecutive days, the county board of dd must assess the individuals need for continued waiver services. If, through the assessment, it is determined that the individual does not need any waiver services, the county of dd board must recommend the individual for disenrollment from the waiver.

If an individual is anticipated to need waiver services less frequently than every thirty calendar days, Service and Support Administrators (SSAs) are to indicate in the ISP the method of monitoring they will employ to assure that the individual's health and welfare is not in jeopardy. Monitoring is to occur no less frequently than once each calendar month. Completion of this monitoring activity and the outcomes of the reviews are to be documented, and the documentation is to be maintained in the individuals file.

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

- Directly by the Medicaid agency
- By the operating agency specified in Appendix A
- By a government agency under contract with the Medicaid agency.

Specify the entity:

- Other
  Specify:

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Initial Levels of Care are determined by Qualified Intellectual Disabilities Professional staff, as defined in 42 CFR 483.430(a):
(a) Qualified intellectual disability professional:
(1) Has at least one year of experience working directly with persons with intellectual disability or other developmental disabilities; and
(2) Is one of the following:
(1) A doctor of medicine or osteopathy.
(ii) A registered nurse.
(iii) An individual who holds at least a bachelor's degree in a human services field (including, but not limited to: sociology, special education, rehabilitation counseling, and psychology).

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.
As a condition of waiver eligibility, applicants must meet an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID) Level of Care as defined in OAC rule 5123:2-8-01.

Criteria for ICF-IID level of care:

(1) For individuals birth through age nine, the criteria for a developmental disabilities level of care is met when:

(a) The individual has a substantial developmental delay or specific congenital or acquired condition other than an impairment caused solely by mental illness; and

(b) In the absence of individually planned supports, the individual has a high probability of having substantial functional limitations in at least three areas of major life activities set forth in OAC 5123:2-8-01 later in life:
   (i) Self-care;
   (ii) Receptive and expressive communication;
   (iii) Learning;
   (iv) Mobility;
   (v) Self-direction;
   (vi) Capacity for independent living; and
   (vii) Economic self-sufficiency.

(2) For individuals age ten and older, the criteria for a developmental disabilities level of care is met when:

(a) The individual has been diagnosed with a severe, chronic disability that:

   (i) Is attributable to a mental or physical impairment or combination of mental and physical impairments, other than an impairment caused solely by mental illness;
   (ii) Is manifested before the individual is age twenty-two; and
   (iii) Is likely to continue indefinitely.

(b) The condition described in paragraph (C)(2)(a) of OAC rule 5123:2-8-01 results in substantial functional limitations in three or more of the following areas of major life activities, as determined through use of the standardized level of care assessment instrument approved by the Ohio Department of Medicaid:

(c) The condition described in paragraph (C)(2)(a) of this rule reflects the individual's need for a combination and sequence of special, interdisciplinary, or generic services, individualized supports, or other forms of assistance of lifelong or extended duration that are individually planned and coordinated.

DODD uses a standardized functional assessment, which is part of the department’s web-based application to ensure all required information has been submitted.

e. **Level of Care Instrument(s).** Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

   - ☑ The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.
   - ☐ A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.

   Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. **Process for Level of Care Evaluation/Reevaluation:** Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:
The details information for this section can also be found in Appendix B-6-d. The requirements and processes for ICF-IID Level of Care determinations and redetermination is prescribed in OAC rule 5123:2-8-01. The level of care initial evaluation and annual reevaluation is completed using the standardize assessment maintained in the DODD’s Level of Care application. In order for the ICF-IID LOC request to be approved, each initial LOC recommendation must include:

a) current diagnoses, including an indication of whether the individual has been diagnosed with a severe, chronic disability as described in paragraph (C)(2)(a) of in OAC rule 5123:2-8-01;

b) Review of current functional capacity. This review shall be documented using a standardized functional assessment that is approved by the Ohio Department of Medicaid.

c) The assessment documentation shall be maintained in the individual's record and made available for state and federal quality assurance and audit purposes.

Initial level of care recommendations for individuals seeking enrollment in a Medicaid home and community-based services waiver must be approved by the DODD prior to enrollment in the waiver. Level of care recommendations may be submitted to the DODD up to ninety days in advance of the proposed enrollment date.

For reevaluations the County Board will submit an ICF-IID level of care redetermination to DODD within twelve months of the previous level of care determination and whenever the individual experiences a significant change of condition as described in paragraph (D) (5)(a-b) in OAC rule 5123:2-8-01.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):

- Every three months
- Every six months
- Every twelve months
- Other schedule

Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.

Specify the qualifications:

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (specify):

DODD staff receive alerts from the LOC system which gives the waiver participants names (by county), their LOC due date 90 days prior and 15 days prior to the redetermination due date. A Prior Notice letter (named such as it provides the individual their rights to a prior notice for a pending action) is issued to the individual and/or guardian and to the County Board alerting them of the pending timelines, and encourages collaboration with the County Board to ensure all necessary documentation is submitted to DODD prior to the due date. The information generated from these reports is entered into an excel spreadsheet and is monitored by DODD staff (at two levels) for the purpose of working with the external customers to ensure the timely submittal of the redetermination.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:
Electronically retrievable documentation of all level of care evaluations and reevaluations are maintained in accordance with state and federal regulations.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
PM B1: Number and percent of new enrollees who had a LOC indicating need for institutional LOC prior to receipt of services. Numerator: Number of new enrollees who had a LOC indicating need for institutional LOC prior to receipt of services. Denominator: Total number new enrollees.

Data Source (Select one):
Other
If 'Other' is selected, specify:
DODD - Waiver Management System (WMS)

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.
Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
PM B2: Number and percent of level of care redetermination completed within 12 months of the previous level of care determination. Numerator: Number of level of care redetermination completed within 12 months of the previous level of care determination. Denominator: Total number of waiver participants with redetermination needed.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

   DODD becomes aware of problems through a variety of mechanisms including, but not limited to, formal & informal complaints, technical assistance requests, and routine & special regulatory review processes (accreditation, licensure, provider compliance, quality assurance, etc). As problems are discovered, the individual county board of dd is notified and technical assistance is provided using email, phone contact and/or letters to the County Board of DD Superintendent. During the DODD regulatory review process citations may be issued and plans of correction required as needed and appropriate. When issues are noted that are systemic, DODD will provide statewide training and additional technical assistance and monitor for improvement during subsequent monitoring cycles.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and

ii. given the choice of either institutional or home and community-based services.

a. Procedures. Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

At the time the individual requests HCBS waiver services, the county board of dd in the county in which the individual resides is responsible for explaining the services available under the Individual Options waiver and the alternative of services delivered in an ICF-IID facility.

The county boards of dd use the Freedom of Choice form to document that the individual has chosen to enroll on the waiver as an alternative to services in an ICF-IID facility. When the Freedom of Choice form is signed by the individual, the county board of dd shall provide a copy of the Right to a State Hearing Brochure (ODHS 8007) or Notice of Approval of Your Application for Assistance (ODJFS 4074) to the individual.

DODD maintains a database of all currently certified providers throughout the state, which is accessible on the DODD website. Each county board of dd has access to the provider database on the DODD website. In addition, the county board of dd may also maintain a list of willing and qualified providers who have identified that they are willing to provide services in that particular county. This county-specific list of providers utilizes the information contained on the DODD provider database; the purpose in making it county-specific is to assist the individual in locating providers in the individuals county of residence who are willing and qualified to provide the services the individual needs. The Service and Support Administrator (SSA who functions as a case manager) at the county board of dd provides this information to waiver recipients at least annually and upon request. The free choice of provider process in outlined in the Ohio Administrative Code rule 5123: 2-9-11.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.
The completed Freedom of Choice forms are maintained by the 88 county boards of dd.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services “Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons” (68 FR 47311 - August 8, 2003):

Individuals with limited English proficiency have access to a range of supportive services at the time of application and throughout their participation in the waiver program. The need for language accommodation is determined by, and is the responsibility of, the county board of dd. The SSA makes arrangements for individuals to receive interpretation services as needed to ensure individuals can access services. DODD will monitor access to services by persons with limited English proficiency through its ongoing monitoring and technical assistance process.

ODM makes interpretation services available at the county and state levels. A variety of ODJFS forms have been translated into Spanish and Somali, including the Medicaid Consumer guide and state hearing forms. The County Departments of Job and Family Services (CDJFS) also make interpreter services available to individuals when needed during the eligibility determination process.

</thead>
</table>

**Service Definition (Scope):**

Community Respite means services provided to individuals unable to care for themselves that are furnished on a short-term basis because of the absence or need for relief of those persons who normally provide care for the individuals. Community Respite shall only be provided outside of an individual’s home in a camp, recreation center, or other place where an organized community program or activity occurs.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

---

06/17/2019
Community Respite shall not be provided in any residence and shall not be simultaneously provided at the same location where Adult Day Support or Vocational Habilitation is provided.

Payment for Community Respite does not include room and board.

Community Respite shall not be provided to an individual at the same time by the same provider as Homemaker/Personal Care or Shared Living. Only one provider of Residential Respite or Community Respite shall use a daily billing unit on any given day.

Community Respite is limited to 60 calendar days of service per waiver eligibility span.

Service Delivery Method (check each that applies):

Adult day support means provision of regularly scheduled activities in a non-residential setting, such as assistance with acquisition, retention, or improvement of self-help, socialization, and adaptive skills that enhance the individual's social development and performance of daily community living skills. Adult day support activities and environments shall be designed to foster the acquisition of skills, build community membership and independence, and expand personal choice. Adult day support enables the individual to attain and maintain his or her maximum potential. Activities that constitute adult day support include, but are not limited to:

(a) Supports to participate in community activities and build community membership consistent with the individual's interests, preferences, goals, and outcomes.

(b) Supports to develop and maintain a meaningful social life, including social skill development which offers opportunities for personal growth, independence, and natural supports through community involvement, participation, and relationships.

(c) Supports and opportunities that increase problem-solving skills to maximize an individual's ability to participate in integrated community activities independently or with natural supports.

(d) Personal care including supports and supervision in the areas of personal hygiene, eating, communication, mobility, toileting, and dressing to ensure an individual's ability to experience and participate in community living.

(e) Skill reinforcement including the implementation of behavioral support strategies, assistance in the use of communication and mobility devices, and other activities that reinforce skills learned by the individual that are necessary to ensure his or her initial and continued participation in community life.

(f) Training in self-determination which includes assisting the individual to develop self-advocacy skills; to exercise his or her civil rights; to exercise control and responsibility over the services he or she receives; and to acquire skills that enable him or her to become more independent, productive, and integrated within the community.

(g) Recreation and leisure including supports identified in the person-centered individual service plan as being therapeutic in nature, rather than merely providing a diversion, and/or as being necessary to assist the individual to develop and/or maintain social relationships and family contacts.

(h) Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities in accordance with Chapter 5123:2-6 of the Administrative Code.

Requirements for service delivery:

(1) The expected outcome of adult day support is building on the individual's strengths and fostering the development of skills that lead to greater independence, community membership, relationship-building, self-direction, and self-advocacy.

(2) Adult day support is available to individuals who are no longer eligible for educational services based on their graduation and/or receipt of a diploma or equivalency certificate and/or their permanent discontinuation of educational services within parameters established by the Ohio department of education.

(3) Adult day support shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rule 5123:2-1-11 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan.

(4) Adult day support may be provided in a variety of settings in the community, but shall not be furnished in the individual's residence or other residential living arrangement.

(5) A provider of adult day support shall comply with applicable laws, rules, and regulations of the federal, state, and local governments pertaining to the physical environment (building and grounds) where adult day support is provided. A provider of adult day support shall be informed of and comply with standards (e.g., Americans with Disabilities Act of 1990) applicable to the service setting.

(6) Adult day support includes both individual activities and group activities. The nature of group activities and the
number of staff providing adult day support to a group of individuals shall be appropriate to meet the needs and achieve the outcomes identified in each group member's person-centered individual service plan.

(7) When meals are provided as part of adult day support, they shall not constitute a full nutritional regimen (i.e., three meals per day).

(8) A provider of adult day support shall recognize changes in the individual's condition and behavior as well as safety and sanitation hazards, report to the service and support administrator, and record the changes in the individual's written record.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

See Appendix C-4, "Other Type of Limit".

Payment for adult day support, career planning, group employment support, individual employment support, and vocational habilitation alone or in combination, shall not exceed the budget limitations contained in appendix C to rule 5123:2-9-19 of the Administrative Code. As part of this waiver amendment, both Supported Employment-Community; and Supported Employment-Enclave will be end dated 03/31/2017. As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio's Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

Homemaker/personal care (HPC) means the coordinated provision of a variety of services, supports and supervision necessary for the health and welfare of an individual which enables the individual to live in the community. These are tasks directed at increasing the independence of the individual within his/her home or community. This service will help the individual meet daily living needs, and without this service, alone or in combination with other waiver services, the individual would require institutionalization.

Homemaking and personal tasks are combined into a single service titled homemaker/personal care because, in actual practice, a single person provides both services and does so as part of the natural flow of the day. For example, the provider may prepare a dish and place it in the oven to cook (homemaking), assist the individual in washing up before a meal and assist him/her to the table (personal care), put the prepared meal on the table (homemaking), and assist the individual in eating (personal care). Segregating these activities into discrete services is impractical.

(b) Services provided include the following:

1. Self-advocacy training may include training to assist in the expression of personal preferences, self-representation, self-protection from and reporting of abuse, neglect and exploitation, individual rights and to make increasingly responsible choices.

2. Self-direction, including the identification of and response to dangerous or threatening situations, making decisions and choices affecting the individual’s life, and initiating changes in living arrangements of life activities.

3. Daily living skills including training in accomplishing routine household tasks, meal preparation, personal care, self-administration of medication, and other areas of daily living including proper use of adaptive and assistive devices, appliances, home safety, first aid and infant and childcare training for parents who have a developmental disability, and communication skills such as using the telephone.

4. Money management services may include training involving money management and personal finances, planning and decision making and may only be provided under HPC if provided in conjunction with other homemaker or personal care tasks.

5. Implementation of recommended follow-up counseling or other therapeutic interventions under the direction of a professional or extension of therapeutic services, which consist of reinforcing physical, occupational, speech and other therapeutic programs. Services are aimed at increasing the overall effective functioning of the individual.

6. Behavior support strategies includes training and assistance in appropriate expressions of emotions or desires, assertiveness, acquisition of socially appropriate behaviors; or extension of therapeutic services. Services are aimed at increasing the overall effective functioning of the individual.

7. Medical and health care services that are integral to meeting the daily needs of the individual (e.g. routine administration of medications or tending to the needs of individuals who are ill or require attention to their medical needs on an ongoing basis.

8. Emergency assistance training includes developing responses in case of emergencies, prevention planning, and training in the use of equipment or technologies used to access emergency response systems.

9. Community access services that explore community services available to all people, natural supports available to the individual, and develop methods to access additional services/supports/activities needed by the individual to be integrated in and have full access to the community.

10. Mobility including training or assistance aimed at enhancing movement within the individual’s home, mastering the use of adaptive aids and equipment, accessing and using public transportation, independent travel, or other means of providing transportation.

The individual provider shall comply with the requirements of rule 5123:2-2-06 regarding behavior supports. If there is an individual behavior support strategy, the individual provider shall be trained in the components of the plan. The individual provider shall maintain documentation of such training in accordance with 5123-9-30 and present such documentation upon request by ODM, DODD, or the county board.
On Site/On Call is a subservice of Homemaker Personal Care. The on-site/on-call rate is paid when no need for supervision or supports is anticipated and a provider must be on-site and available to provide homemaker/personal care but is not required to remain awake. This service must be documented in the Individual Service Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Due to the scope of services available, the Homemaker/Personal Care Daily Billing Unit service may not be used at the same time as Career Planning, Vocational Habilitation, Individual Employment Support, Group Employment or Adult Day Support services. Homemaker/Personal Care services shall not be deemed to be services provided under Shared Living as defined in 5123:2-9-33. A person may receive shared Homemaker/personal care only on days when shared living is not provided. A provider of Homemaker/Personal Care cannot bill for both Homemaker/Personal Care and HPC - Daily Billing Unit on the same day.

“Supported employment services” are ongoing supports to participants who, because of their disabilities, need intensive on-going support to obtain and maintain an individual job in competitive or customized employment, or self-employment, in an integrated work setting in the general workforce for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. Where applicable, the proposed outcome of this service is sustained paid employment at or above the minimum wage in an integrated setting in the general workforce, in a job that meets personal and career goals. "Supported employment” does not include sheltered work or other similar types of vocational services furnished in specialized facilities. ¬¬

"Supported employment - community” means supported employment services provided in an integrated community work setting where waiver recipients and persons without disabilities are employed to perform the same or similar work tasks. ¬¬ Supported employment - community may also include services and supports that assist an individual to achieve self-employment through the operation of a business. Such self employment assistance may be provided in the individuals home or the residence of another person and may include:¬

1. Aiding the individual to identify potential business opportunities;¬
2. Participating in developing a business plan, including identifying potential sources of business financing and gaining assistance to launch a business;¬
3. Identifying supports necessary for the individuals to operate the business;¬
4. Providing ongoing counseling and guidance once the business has been launched.¬

Supported employment - community waiver funds may not be used to either start-up or operate a business.¬

Supported Employment Community services are available to individuals who are no longer eligible for educational services based on their graduation and /or receipt of a diploma/ equivalency certificate and/or their permanent discontinuation of educational services within parameters established by the Ohio Department of Education. Supported Employment- Community services furnished under the waiver are not available under a program funded by the Rehabilitation Act of 1973, 29 U.S.C.701, as amended and in effect on the effective date of approval of this waiver service by CMS.

Activities that constitute supported employment community services follow:¬

1. Vocational assessment” that is conducted through formal and informal means for the purpose of developing a vocational profile and employment goals. The profile may contain information about the individuals educational background, work history and job preferences; will identify the individuals strengths, values, interests, abilities, available natural supports and access to transportation; and will identify the earned and unearned income available to the individual. ¬

2. "Job development and placement” includes some or all of the following activities provided directly or on behalf of the individual: ¬
   (a) Developing a resume that identifies the individuals job related and/or relevant vocational experiences;¬
   (b) Training and assisting the individual to develop job-seeking skills;¬
   (c) Targeting jobs on behalf of the individual that are available in the individuals work location of choice;¬
   (d) Assisting the individual to find jobs that are well matched to his/her employment goals;¬
   (e) Developing job opportunities on behalf of the individual through direct and indirect promotional strategies and relationship-building with employers;¬
   (f) Conducting work-site analyses, including customizing jobs;¬
   (g) Increasing potential employers awareness of available incentives that could result from employment of the individual.¬

3. "Job training/coaching” includes some or all of the following activities:¬
   (a) Developing a systematic plan of on-the-job instruction and support, including task analyses;¬
   (b) Assisting the individual to perform activities that result in his/her social integration with disabled and non-disabled employees on the work-site;¬
   (c) Supporting and training the individual in the use of generic and/or individualized transportation services;¬
   (d) Providing off-site services and training that assist the individual with problem solving and meeting job-
(e) Developing and implementing a plan to assist the individual to transition from his/her prior vocational or educational setting to employment, emphasizing the use of natural supports.

4. "Ongoing job support" includes direct supervision, telephone and/or on-site monitoring and counseling and the provision of some or all of the following supports to promote the individual's job adjustment and retention:

(a) Following-up with the employer and/or the individual at the frequency required to assist the individual to retain employment;

(b) Assisting the individual to use natural supports and generic community resources;

(c) Providing training to the individual to maintain work skills, enhance personal hygiene, learn new work skills, improve social skills and/or modify behaviors that are interfering with the continuation of his/her employment;

(d) Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities as identified in rule 5123:2-6-01 of the Administrative Code, which a licensed nurse agrees to delegate in accordance with requirements of Chapters 4723., 5123., and 5126. of the Revised Code and rules adopted under those chapters.

5. "Worksite accessibility" includes some or all of the following activities:

(a) Time spent identifying the need for and assuring the provision of reasonable job site accommodations that allow the individual to gain and retain employment;

(b) Time spent assuring the provision of these accommodations through partnership efforts with the employer;

6. "Training in self-determination" includes assisting the individual to develop self-advocacy skills, to exercise his/her civil rights, to exercise control and responsibility over the services he/she receives and to acquire skills that enable him/her to become more independent, productive and integrated within the community.

7. Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities as identified in rule 5123:2-6-01 of the Administrative Code, which a licensed nurse agrees to delegate in accordance with requirements of Chapters 4723., 5123., and 5126. of the Revised Code and rules adopted under those chapters.

Documentation is maintained that this service is not available under section 110 of the Rehabilitation Act of 1973 or IDEA (20 U.S.C. 1401 et seq.). Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: 1) Incentive payments made to an employer to encourage or subsidize the employer's participation in supported employment; or 2) Payments that are passed through to users of supported employment services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

It is Ohio's intent to amend the waiver to end Supported Employment-Community, as a service effective 03/31/2017. Individual Employment Support and/or Career Planning services will be available as an alternatives to Supported Employment-Community beginning 04/01/2017.

**Service Definition (Scope):**
Adaptive and assistive equipment means those specialized medical equipment and supplies that include devices, controls, or appliances, specified in the individual’s ISP, which enable individuals to increase their abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which they live.

This service also includes items necessary for life support, ancillary supplies and equipment necessary to the proper functioning of such items, and durable and non-durable medical equipment not available under the medicaid state plan. To the extent that such equipment or supplies are available under the state plan or could be covered under the provisions of 1905(r) of the Social Security Act, they will not be covered as HCBS services for waiver participants less than twenty-one years of age. Excluded are those items that are not of direct medical or remedial benefit to the individual. All items shall meet applicable standards of manufacture, design, and installation.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
- Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
- Adult Family Living
HCBS Taxonomy:

Category 1: 02 Round-the-Clock Services
Sub-Category 1: 02023 shared living, other

Category 2: 
Sub-Category 2: 

Category 3: 
Sub-Category 3: 

Category 4: 
Sub-Category 4: 

"Adult Family Living" means personal care and support services provided to an adult by a caregiver who is related and lives with the individual receiving the services. Adult Family Living is provided in conjunction with residing in the home and is part of the rhythm of life that naturally occurs when people live together as a family. Due to the environment provided by living together as a family, segregating these activities into discrete services is impractical. The supports that may be provided as a component of adult family living include the following:

(a) Basic personal care and grooming, including bathing, care of the hair, and assistance with clothing.

(b) Assistance with bladder and/or bowel requirements or problems, including helping the individual to and from the bathroom or assisting the individual with bedpan routines.

(c) Assisting the individual with self-medication or provision of medication administration for prescribed medications and assisting the individual with, or performing, health care activities.

(d) Performing household services essential to the individual's health and comfort in the home (e.g., necessary changing of bed linens or rearranging of furniture to enable the individual to move about more easily in his or her home).

(e) Assessing, monitoring, and supervising the individual to ensure the individual's safety, health, and welfare.

(f) Light cleaning tasks in areas of the home used by the individual.

(g) Preparation of a shopping list appropriate to the individual's dietary needs and financial circumstances, performance of grocery shopping activities as necessary, and preparation of meals.

(h) Personal laundry.

(i) Incidental neighborhood errands as necessary, including accompanying the individual to medical and other appropriate appointments and accompanying the individual for walks outside the home.

(j) Skill development to prevent the loss of skills and enhance skills that are already present that lead to greater independence and community integration.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Individuals must specify in their Individual Service Plan (ISP) whether they will have Adult Family Living delivered as a daily rate service or in 15-minute units (subject to the same annual cost limitation as the daily rate [as determined by multiplying the daily rate for Adult Family Living by the number of days in the waiver eligibility span]).

The Medicaid Billing System (MBS) processing edits prevent the Homemaker/Personal Care and Adult Family Living services from being billed simultaneously.

The implementation specifications of this service are outlined in paragraph G of 5123:2-9-32.

It is Ohio’s intent to amend the waiver to end Adult Family Living, as a service effective 09/30/17. Shared Living services will be available as an alternative to Adult Family Living beginning 10/01/17.

"Adult foster care" means personal care and supportive services (e.g., homemaker, chore, and medication oversight to the extent permitted under state law) provided in a private home by an unrelated, principal care provider who lives in the home and whose primary, legal residence is that home. Foster care is furnished to adults who receive these services in conjunction with residing in the home. The total number of individuals (including participants served under the waiver) with mental retardation or other developmental disability living in the home shall not exceed four. Unless the home is licensed under section 5123.19 of the Revised Code, the adult foster care provider shall not provide adult foster care services under the waiver to more than three of the individuals living in the home. Adult foster care services, their associated activities, and skill development proximate the rhythm of life that naturally occurs as part of living in the family home. Homemaker and chore services are furnished to the individual as a component of adult foster care. Due to the environment provided by foster care, segregating these activities into discrete services is impractical. Without this service, alone or in combination with other waiver services, the individual would require institutionalization.

Services provided include the following:

(i) Basic personal care and grooming, including bathing, care of the hair and assistance with clothing;

(ii) Assistance with bladder and/or bowel requirements or problems, including helping the individual to and from the bathroom or assisting the individual with bedpan routines;

(iii) Assisting the individual with self-medication or provision of medication administration for prescribed medications, and assisting the individual with, or performing health care activities;

(iv) Performing household services essential to the individual's health and comfort in the home (e.g., necessary changing of bed linens or rearranging of furniture to enable the individual to move about more easily in his/her home);

(v) Assessing, monitoring, and supervising the individual to ensure the individual's safety, health, and welfare;

(vi) Light cleaning tasks in areas of the home used by the individual;

(vii) Preparation of a shopping list appropriate to the individual's dietary needs and financial circumstances, performance of grocery shopping activities as necessary, and preparation of meals;

(viii) Personal laundry;

(ix) Incidental neighborhood errands as necessary, including accompanying the individual to medical and other appropriate appointments and accompanying the individual for short walks outside the home; and

(x) Skill development to prevent the loss of skills and enhancing skills that are already present that will lead to greater independence and community integration.

The adult foster care provider shall comply with the requirements of rule 5123:2-1-02 (J) regarding behavior supports. If there is an individual behavior support plan, the individual provider shall be trained in the components of the plan. The individual provider shall maintain documentation of such training in accordance with paragraph (J)(8) of rule 5123:2-9-30 and present such documentation upon request by ODM, DODD, or the county board of dd.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Adult Foster Care is not available for individuals who are eligible to receive foster care services funded under Title IV-E. Individuals who receive personal care services and supports in adult foster care settings shall receive Adult Foster Care services in lieu of Homemaker/Personal Care except when circumstances arise that require the individual to be served in a setting other than the home of the individual provider or agency provider of adult foster care or if arranged as substitute coverage for an individual foster care provider. Adult foster care shall not be provided on the same day as homemaker/personal care.

It is Ohio’s intent to amend the waiver to end Adult Foster Care, as a service effective 09/30/17. Shared Living services will be available as an alternative to Adult Foster Care beginning 10/01/17.

Payments for adult foster care services are not made for room and board, items of comfort or convenience, or the costs of facility maintenance, upkeep and improvement. Payment for adult foster care services does not include payments made, directly or indirectly, to members of the participant’s immediate family. The methodology by which the costs of room and board are excluded from payments for adult foster care is described in Appendix I.”

Adult Foster Care rates have been developed on a per diem basis by each ODDP funding range and adjusted for each cost of doing business (CODB) factor. Due to the per diem nature of the service, Adult Foster Care services are subject to the annual maximum limitation as outlined in Ohio Administrative Code 5123:2-9-13.

### OAC 5123:2-9-33(H) (1-3) Provider qualifications:

i. Providers of adult foster care shall complete an application and meet the applicable individual options waiver homemaker/personal care certification requirements (i.e., individual, agency, or licensed facility) as outlined in rule OAC 5123:2-9-30.

ii. Providers currently certified to deliver individual options waiver homemaker/personal care services are only required to complete and submit to the department the adult foster care service application.

iii. A county board shall not be certified to provide adult foster care services or enter into a Medicaid provider agreement with ODM for adult foster care services.
Verification of Provider Qualifications

Entity Responsible for Verification:
Ohio Department of Developmental Disabilities

Frequency of Verification:

DODD has the statutory authority in section 5123.16 of the Revised Code to establish a period of recertification. Pursuant to rule 5123:2-2-04 HCBS Waivers: Compliance Reviews of HCBS Waiver Providers, DODD compliance reviews of certified providers shall be conducted so that each certified provider is reviewed once during the term of their certification.

Appendix C: Participant Services
C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Assistive Technology

HCBS Taxonomy:

<table>
<thead>
<tr>
<th>Category 1:</th>
<th>Sub-Category 1:</th>
</tr>
</thead>
<tbody>
<tr>
<td>14 Equipment, Technology, and Modifications</td>
<td>14031 equipment and technology</td>

<th>Category 4:</th>
<th>Sub-Category 4:</th>
</tr>
</thead>
</table>
“Assistive technology” means an interactive electronic item, device, product system, or engineered solution capable of internet connectivity, whether acquired commercially, modified, or customized that addresses an individuals’ needs and outcomes identified in his or her individual service plan. The service is for the direct benefit of the individual in maintaining or improving independence, functional capabilities, vocational skills, community involvement or physical skills.

Assistive technology has three distinct components:
(a) “Assistive technology consultation” means an evaluation of the assistive technology needs of an individual, including a functional evaluation of technologies available to address the individual's assessed needs and support the individual to achieve outcomes identified in his or her individual service plan.

(b) “Assistive technology equipment” means the cost of equipment comprising the assistive technology and may include engineering, designing, fitting, customizing, or otherwise adapting the equipment to meet an individual's specific needs and internet service necessary for operation of the equipment comprising the assistive technology. Assistive technology equipment may include equipment used for remote support such as motion sensing system, radio frequency identification, live video feed, live audio feed, or web-based monitoring. Assistive technology equipment does not include non-technical, non-electronic equipment (e.g., grab bars or wheelchair ramps) or items otherwise available as environmental accessibility adaptations or specialized medical equipment and supplies.

Internet service may be provided through assistive technology equipment only when the remote support vendor indicates internet service is required for the equipment used for remote support to function and the vendor secures the connection to ensure appropriate use of the internet service solely for the function of equipment used for remote support.

(c) “Assistive technology support” means education and training that aids an individual in the use of assistive technology equipment as well as training for the individual's family members, guardians, staff, or other persons who provide natural supports or paid services, employ the individual, or who are otherwise substantially involved in activities being supported by the assistive technology equipment. Assistive technology support may include, when necessary, coordination with complementary therapies or interventions and adjustments to existing assistive technology to ensure its ongoing effectiveness.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Assistive technology support is limited to 40 hours per year.
The cost of all components of assistive technology equipment shall not exceed five thousand dollars per year.

Service Delivery Method (check each that applies):

Career planning means individualized, person-centered, comprehensive employment planning and support that provides assistance for individuals to attain or advance in competitive integrated employment. Career planning is a focused and time-limited engagement of an individual in identification of a career direction, and development of a plan for achieving competitive integrated employment, and the supports needed to achieve that employment. Activities that constitute career planning include:

(a) Situational observation and assessment. Situational observation and assessment is a time-limited (i.e., thirty days for each experience) service that involves observation and assessment of the individual's interpersonal skills, work behaviors, and vocational skills through practical, experiential, community integrated, paid work experiences related to the individual's preferences as established in the individual service plan. Information gathered through situational observation and assessment provides a context to further determine the skills or behaviors to be developed by the individual to ensure his or her success in the individual's preferred work environment.

(b) Career exploration. Career exploration assists an individual to interact with job holders and observe jobs and job tasks. Career exploration may include informational interviews with and/or shadowing persons who are actually performing the job duties of the identified occupation. When possible, the job seeker shall be given an opportunity to perform actual job duties as well.

(c) Benefits education and analysis. Benefits education and analysis provides information to job seekers, families, guardians, advocates, service and support administrators, and educators about the impact of paid employment on a range of public assistance and benefits programs, including but not limited to supplemental security income, social security disability insurance, Medicaid buy-in for workers with disabilities, Medicare continuation benefits, veteran's benefits, supplemental nutrition assistance program, and housing assistance.

(d) Career discovery. Career discovery is an individualized, comprehensive process to help a person, who is pursuing individualized integrated employment or self-employment, reveal how interests and activities of daily life may be translated into possibilities for integrated employment. Career discovery results in identification of the individual's interests in one or more specific aspects of the job market; the individual's skills, strengths, and other contributions likely to be valuable to employers or valuable to the community if offered through self-employment; and conditions necessary for the individual's successful employment or self-employment. Career discovery culminates in development of a written career discovery profile summarizing the process, revelations, and recommendations for next steps which shall be used to develop the individual's vocational portfolio.

(e) Employment/self-employment plan. Employment/self-employment plan is an individualized service to create a clear plan for employment or the start-up phase of self-employment and includes a planning meeting involving the job seeker and other key people who will be instrumental in supporting the job seeker to become employed in competitive integrated employment. This service may include career advancement planning for individuals who are already employed. This service culminates in a written employment plan directly tied to the results of career exploration, if previously authorized, situational observation and assessment, and/or career discovery. For individuals seeking self-employment, this service results in the development of a self-employment business plan that identifies training and technical assistance needs and potential supports and resources for those services as well as potential sources of business financing given that Medicaid funds may not be used to defray the capital expenses associated with starting up a business.

(f) Job development. Job development is an individualized service to develop a strategy to attain competitive integrated employment. The job development strategy shall reflect best practices. The service may include analyzing a job site, identifying necessary accommodations, and negotiating with an employer for customized employment. This service is intended to result in achievement of a competitive integrated employment outcome consistent with the job seeker's or job holder's personal and career goals as identified in the individual service plan, as determined through career exploration, situational observation and assessment, career discovery, and/or the employment planning process. This service shall not be provided to an individual on place four of the path to community employment as described in rule 5123:2-2-05 of the Administrative Code.

(g) Self-employment launch. Self-employment launch is support to implement a self-employment business plan and launch a business. This service is intended to result in the achievement of an integrated employment outcome consistent with the job seeker's or job holder's personal and career goals as identified in the individual service plan, as determined through career exploration, situational observation and assessment, career discovery, and/or the employment planning process. This service shall not be provided to an individual on place four of the path to community employment as described in rule 5123:2-2-05 of the Administrative Code.
(h) Worksite accessibility. Worksite accessibility includes:

(i) Time spent identifying the need for and ensuring the provision of reasonable worksite accommodations that allow the job seeker or job holder to gain, retain, and enhance employment or self-employment;

(ii) Time spent ensuring the provision of reasonable worksite accommodations through partnership efforts with the employer and, where appropriate, the opportunities for Ohioans with disabilities agency; and

(iii) Purchasing or modifying equipment that will be retained by the individual at the current employment site and/or in other settings, when documented that funding from the opportunities for Ohioans with disabilities agency or any other source is not available.

(iv) Assistive technology assessment. Assistive technology assessment is a systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers encountered by, individuals with disabilities in employment and employment-related transportation. Assistive technology assessment includes both assessment and services. The service may consist of making home or employment site visits, measurements of the physical environment or equipment, developing technical drawings, researching potential modifications, fabrication and installation of modifications, and computer programming to provide for accessibility. The service may also include training on utilization and maintenance of accommodations. The outcome of the service should be modifications to the physical environment or equipment that will enhance the individual’s independence and employment options.

Note: It is Ohio’s intent to amend the waiver to end the Assistive Technology Assessment subcomponent of Career Planning effective 12/31/2018. Assistive Technology service will incorporate the Assistive Technology Assessment and will be available as an alternative to Assistive Technology Assessment 1/1/2019.

Requirements for service delivery:

1. The expected outcome of career planning is the individual's attainment of competitive integrated employment and/or career advancement in competitive integrated employment.

2. Career planning shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rules 5123:2-1-11 and 5123:2-2-05 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan.

3. Career planning may be provided in a variety of settings but shall not be furnished in the individual's residence or other living arrangement except for a home visit conducted as part of career discovery or when the individual is self-employed and the residence is the site of self-employment.

4. Career planning shall be provided at a ratio of one staff to one individual.

5. Career planning services may extend to those times when the individual is not physically present while the provider is performing career planning activities on behalf of the individual.

6. A provider of career planning shall recognize changes in the individual's condition and behavior as well as safety and sanitation hazards, report to the service and support administrator, and record the changes in the individual’s written record.
(h) Worksite accessibility. Worksite accessibility includes:

(i) Time spent identifying the need for and ensuring the provision of reasonable worksite accommodations that allow the job seeker or job holder to gain, retain, and enhance employment or self-employment;

(ii) Time spent ensuring the provision of reasonable worksite accommodations through partnership efforts with the employer and, where appropriate, the opportunities for Ohioans with disabilities agency; and

(iii) Purchasing or modifying equipment that will be retained by the individual at the current employment site and/or in other settings, when documented that funding from the opportunities for Ohioans with disabilities agency or any other source is not available.

(iv) Assistive technology assessment. Assistive technology assessment is a systematic application of technologies, engineering methodologies, or scientific principles to meet the needs of, and address the barriers encountered by, individuals with disabilities in employment and employment-related transportation. Assistive technology assessment includes both assessment and services. The service may consist of making home or employment site visits, measurements of the physical environment or equipment, developing technical drawings, researching potential modifications, fabrication and installation of modifications, and computer programming to provide for accessibility. The service may also include training on utilization and maintenance of accommodations. The outcome of the service should be modifications to the physical environment or equipment that will enhance the individual's independence and employment options.

Note: It is Ohio’s intent to amend the waiver to end the Assistive Technology Assessment subcomponent of Career Planning effective 12/31/2018. Assistive Technology service will incorporate the Assistive Technology Assessment and will be available as an alternative to Assistive Technology Assessment 1/1/2019.

Requirements for service delivery:

(1) The expected outcome of career planning is the individual's attainment of competitive integrated employment and/or career advancement in competitive integrated employment.

(2) Career planning shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rules 5123:2-1-11 and 5123:2-2-05 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan.

(3) Career planning may be provided in a variety of settings but shall not be furnished in the individual's residence or other living arrangement except for a home visit conducted as part of career discovery or when the individual is self-employed and the residence is the site of self-employment.

(4) Career planning shall be provided at a ratio of one staff to one individual.

(5) Career planning services may extend to those times when the individual is not physically present while the provider is performing career planning activities on behalf of the individual.

(6) A provider of career planning shall recognize changes in the individual's condition and behavior as well as safety and sanitation hazards, report to the service and support administrator, and record the changes in the individual’s written record.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
See Appendix C-4, "Other Type of Limit"

Note: It is Ohio’s intent to amend the waiver to end the Assistive Technology Assessment subcomponent of Career Planning effective 12/31/2018. Assistive Technology service will incorporate the Assistive Technology Assessment and will be available as an alternative to Assistive Technology Assessment 1/1/2019.

Payment for adult day support, career planning, group employment support, individual employment support, and vocational habilitation alone or in combination, shall not exceed the budget limitations contained in appendix C to rule 5123:2-9-19 of the Administrative Code. As part of this waiver amendment, both Supported Employment-Community; and Supported Employment-Enclave will be end dated 03/31/2017.

As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio’s Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

"Community transition” means reimbursement for non-recurring household start-up expenses for individuals who have resided in an intermediate care facility for individuals with intellectual disabilities or a nursing facility for at least ninety days and are transitioning to enrollment in the individual options waiver, and for which the individual is directly responsible.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Community transition shall only be used one time per individual per waiver enrollment.
- Community transition services shall not exceed two thousand dollars per individual.
- Pre-transition transportation expenses covered as community transition are limited to a maximum of five hundred dollars during the individual's pre-transition period, and for a maximum of thirty consecutive days after the individual leaves the intermediate care facility for individuals with intellectual disabilities or the nursing facility or until waiver enrollment, whichever comes first.
- As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will only will be eligible to provide direct services when there is no other qualified and willing provider is available in the geographic area.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Environmental Accessibility Adaptations

HCBS Taxonomy:
Service Definition (Scope):

Environmental accessibility adaptations means those physical adaptations to the home, required by the individual's ISP, which are necessary to ensure the health, welfare and safety of the individual, or which enable the individual to function with greater independence in the home, and without which, the individual would require institutionalization. Such adaptations may include the installation of ramps and grab-bars, widening of doorways, modification of bathroom facilities, or installation of specialized electric and plumbing systems that are necessary to accommodate the medical equipment and supplies that are necessary for the welfare of the individual. Excluded are those adaptations or improvements to the home that are of general utility, and are not of direct medical or remedial benefit to the individual, such as carpeting, roof repair, central air conditioning, etc. Adaptations that add to the total square footage of the home are excluded from this benefit. All services shall be provided in accordance with applicable state or local building codes.

The services under the Environmental Accessibility Adaptations service are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

</table>
Group employment support means services and training activities provided in regular business, industry, and community settings for groups of two or more workers with disabilities such as mobile work crews and other business-based work groups engaging workers with disabilities in employment in the community.

(a) Activities that constitute group employment support include any combination of the following as necessary and appropriate to meet the community employment goals of the individual:

(i) Person-centered employment planning;

(ii) Work adjustment;

(iii) Job analysis;

(iv) Training and systematic instruction;

(v) Job coaching; and

(vi) Training in independent planning, arranging, and using transportation.

(b) Group employment support is provided in two distinct service arrangements:

(i) Dispersed enclaves in which individuals work in a self-contained unit within a company or service site in the community or perform multiple jobs in the company, but are not integrated with non-disabled employees of the company.

(ii) Mobile work crews comprised solely of individuals operating as distinct units and/or self-contained business working in several locations within the community.

Requirements for service delivery:

(1) The expected outcome of group employment support is paid employment and work experience leading to further career development and competitive integrated employment.

(2) Group employment support shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rules 5123:2-1-11 and 5123:2-2-05 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan.

(3) The service and support administrator shall ensure that documentation is maintained to demonstrate that the service provided as group employment support to an individual enrolled in a waiver is not otherwise available as vocational rehabilitation services funded under section 110 of the Rehabilitation Act of 1973, 29 U.S.C. 730, as in effect on the effective date of this rule, or as special education or related services as those terms are defined in section 602 of the Individuals with Disabilities Education Improvement Act of 2004, 20 U.S.C. 1401, as in effect on the effective date of this rule.

(4) Group employment support shall be provided in an integrated setting and support individuals’ access to the greater community, including opportunities to seek competitive, integrated employment, to engage in community life, and to have control over earned income.

(5) Group employment support may be provided in a variety of settings in the community but shall not be furnished in the individual’s residence or other residential living arrangement.

(6) Individuals receiving group employment support shall be compensated in accordance with applicable federal and state laws and regulations. A determination that an individual receiving group employment support is eligible to be paid at special minimum wage rates in accordance with 29 C.F.R. Part 525, “Employment of Workers with Disabilities under Special Certificates,” shall be based on documented evaluations and assessments.

(7) A provider of group employment support shall ensure the appropriate staff are knowledgeable about the Workforce Innovation and Opportunity Act, wage and hour laws, benefits, work incentives, and employer tax credits for individuals with developmental disabilities and ensure that individuals served receive this information.
(8) A provider of group employment support shall, in accordance with paragraph (F)(1) of rule 5123:2-2-05 of the Administrative Code, submit to each individual's team at least once every twelve months, or more frequently as decided upon by the individual's team, a written progress report. The written progress report shall outline the anticipated time-frame for each desired outcome of group employment support. If no progress is reported, the individual service plan shall be amended to identify the barriers toward achieving desired outcomes and the action steps to overcome the identified barriers.

(9) A provider of group employment support shall provide the service in a manner that presumes all participants are capable of working in competitive, integrated employment. The provider shall encourage individuals receiving the service, on an ongoing basis, and as part of the annual person-centered planning process, to explore their interests, strengths, and abilities relating to community competitive integrated employment. The provider shall, as a component of this service, assist individuals to explore, identify, and pursue career advancement opportunities that advance them toward competitive, integrated employment with individual employment support as necessary.

(10) A provider of group employment support shall recognize changes in the individual's condition and behavior, report to the service and support administrator, and record the changes in the individual’s written record.

(11) A provider of group employment support shall report identified safety and sanitation hazards that occur at the work site to employers having the responsibility to remedy the condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

See Appendix C-4, "Other Type of Limit"

Payment for adult day support, career planning, group employment support, individual employment support, and vocational habilitation alone or in combination, shall not exceed the budget limitations contained in appendix C to rule 5123:2-9-19 of the Administrative Code. As part of this waiver amendment, both Supported Employment-Community; and Supported Employment-Enclave will be end dated 03/31/2017.

As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio’s Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Habilitation - Vocational Habilitation

HCBS Taxonomy:

 Category 1:  Sub-Category 1:
04 Day Services 04010 prevocational services

 Category 2:  Sub-Category 2:
04 Day Services 04020 day habilitation

 Service Definition (Scope):

 Category 4:  Sub-Category 4:
Vocational habilitation means services that provide learning and work experiences, including volunteer work, where the individual develops general skills that lead to competitive integrated employment such as ability to communicate effectively with supervisors, coworkers, and customers; generally-accepted community workplace conduct and dress; ability to follow directions; ability to attend to tasks; workplace problem-solving skills and strategies; and workplace safety and mobility training. Services are expected to occur over a defined period of time with specific outcomes to be achieved determined by the individual and his or her team.

Activities that constitute vocational habilitation include, but are not limited to:

(a) Ongoing support which includes direct supervision, telephone and/or in-person monitoring and/or counseling, and the provision of some or all of the following supports to promote the development of general work skills.

(i) Developing a systematic plan of instruction and support, including task analyses to prepare the individual for competitive integrated employment.

(ii) Assisting the individual to perform activities that result in increasing his or her social integration with other individuals and persons employed at the worksite.

(iii) Supporting and training the individual in the use of individualized or community-based transportation services.

(iv) Providing services and training that assist the individual with problem-solving and meeting job-related expectations.

(v) Assisting the individual to use natural supports and community resources.

(vi) Providing training to the individual to maintain current skills, enhance personal hygiene, learn new work skills, attain self-determination goals, and improve social skills.

(vii) Developing and implementing a plan to assist the individual to transition from his or her vocational habilitation setting to competitive integrated employment emphasizing the use of natural supports.

(viii) Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities in accordance with Chapter 5123:2-6 of the Administrative Code.

(b) Provision of information about or referral to career planning services, disability benefits services, or other appropriate consultative services.

Requirements for service delivery:

(1) The expected outcome of vocational habilitation is the advancement of an individual on his or her path to community employment and the individual's achievement of competitive integrated employment in a job well-matched to the individual's interests, strengths, priorities, and abilities.

(2) Vocational habilitation is available to individuals who are no longer eligible for educational services based on their graduation and/or receipt of a diploma or equivalency certificate and/or their permanent discontinuation of educational services within parameters established by the Ohio department of education.

(3) Vocational habilitation shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rules 5123:2-1-11 and 5123:2-2-05 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan. Individuals receiving vocational habilitation shall have community employment outcomes in their individual service plan; vocational habilitation activities shall be designed to support the individual's community employment outcomes.

(4) Vocational habilitation may be provided in a variety of settings in the community, but shall not be furnished in the individual's residence or other residential living arrangement.

(5) A provider of vocational habilitation shall, in accordance with paragraph (F)(1) of rule 5123:2-2-05 of the Administrative Code, submit to each individual's team at least once every twelve months, or more frequently as
decided upon by the individual's team, a written progress report. The written progress report shall outline the anticipated time-frame for each desired outcome of vocational habilitation. If no progress is reported, the individual service plan shall be amended to identify the barriers toward achieving desired outcomes and the action steps to overcome the identified barriers.

(6) The service and support administrator shall ensure that documentation is maintained to demonstrate that the service provided as vocational habilitation to an individual enrolled in a waiver is not otherwise available as vocational rehabilitation services funded under section 110 of the Rehabilitation Act of 1973, 29 U.S.C. 730, as in effect on the effective date of this rule.

(7) Individuals receiving vocational habilitation shall be compensated in accordance with applicable federal laws and state laws and regulations. A determination that an individual receiving vocational habilitation is eligible to be paid at special minimum wage rates in accordance with 29 C.F.R. Part 525, "Employment of Workers with Disabilities Under Special Certificates," shall be based on documented evaluations and assessments.

(8) A provider of vocational habilitation shall ensure that appropriate staff are knowledgeable in the Workforce Innovation and Opportunity Act, wage and hour laws, benefits, work incentives, and employer tax credits for individuals with developmental disabilities and ensure that individuals served receive this information.

(9) A provider of vocational habilitation shall comply with applicable laws, rules, and regulations of the federal, state, and local governments pertaining to the physical environment (building and grounds) where vocational habilitation is provided. A provider of vocational habilitation shall be informed of and comply with standards (e.g., Americans with Disabilities Act of 1990) applicable to the service setting.

(10) A provider of vocational habilitation shall recognize changes in the individual's condition and behavior as well as safety and sanitation hazards, report to the service and support administrator, and record the changes in the individual's written record.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

See Appendix C-4, "Other Type of Limit"
Payment for adult day support, career planning, group employment support, individual employment support, and vocational habilitation alone or in combination, shall not exceed the budget limitations contained in appendix C to rule 5123:2-9-19 of the Administrative Code. As part of this waiver amendment, both Supported Employment-Community; and Supported Employment-Enclave will be end dated 03/31/2017.

As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio’s Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

Category 2:
Sub-Category 2:

Category 3:
Sub-Category 3:
**Service Definition (Scope):**

**Category 4:**

**Sub-Category 4:**

Home delivered meals means the preparation, packaging and delivery of one or more meals to consumers who are unable to prepare or obtain nourishing meals. A full regimen of three meals a day shall not be provided under the HCBS waiver.

This service alone or in conjunction with other services prevents institutionalization of the consumer.

Providers of home delivered meals shall:

- Initiate new orders for home delivered meals within seventy-two (72) hours of referral if specified by the service plan;
- Participate in the consumers Individual Service Plan (ISP) meetings if and when requested by the consumers team;
- Be able to provide two (2) meals per day, seven days per week;
- Assure that home delivered meals are delivered to each consumer in accordance with the consumers ISP;
- Possess the capability to provide special diets including, but not limited to, sodium and low sugar;
- Ensure that each meal served contains at least one-third of the current recommended dietary allowance as established by the Food and Nutrition Board of the National Academy of Sciences National Research Council;
- Have a licensed dietitian approve and sign all menus; and,
- Shall have a licensed dietitian plan and write all special menus in accordance with the ISP.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Homemaker/Personal Care - Daily Billing Unit

HCBS Taxonomy:

Category 1: 08 Home-Based Services

Sub-Category 1: 08010 home-based habilitation

Category 2:

Sub-Category 2:

Category 3:

Sub-Category 3:

Category 4:

Sub-Category 4:
Homemaker/Personal Care (HPC) Daily Billing Unit means a daily rate reimbursement for HPC services. These services are defined as the coordinated provision of a variety of services, supports and supervision necessary for the health and welfare of an individual which enables the individual to live in the community. These are tasks directed at increasing the independence of the individual within his/her home or community. This service will help the individual meet daily living needs, and without this service, alone or in combination with other waiver services, the individual would require institutionalization.

Homemaking and personal tasks are combined into a single service titled homemaker/personal care because, in actual practice, a single person provides both services and does so as part of the natural flow of the day. For example, the provider may prepare a dish and place it in the oven to cook (homemaking), assist the individual in washing up before a meal and assist him/her to the table (personal care), put the prepared meal on the table (homemaking), and assist the individual in eating (personal care). Segregating these activities into discrete services is impractical.

(b) Services provided include the following:

1. Self-advocacy training may include training to assist in the expression of personal preferences, self-representation, self-protection from and reporting of abuse, neglect and exploitation, individual rights and to make increasingly responsible choices.

2. Self-direction, including the identification of and response to dangerous or threatening situations, making decisions and choices affecting the individual’s life, and initiating changes in living arrangements of life activities.

3. Daily living skills including training in accomplishing routine household tasks, meal preparation, personal care, self-administration of medication, and other areas of daily living including proper use of adaptive and assistive devices, appliances, home safety, and communication skills.

4. Money management services may include training involving money management and personal finances, planning and decision making and may only be provided under HPC if provided in conjunction with other homemaker or personal care tasks.

5. Implementation of recommended follow-up counseling or other therapeutic interventions under the direction of a professional or extension of therapeutic services, which consist of reinforcing physical, occupational, speech and other therapeutic programs. Services are aimed at increasing the overall effective functioning of the individual.

6. Behavior support strategies includes training and assistance in appropriate expressions of emotions or desires, assertiveness, acquisition of socially appropriate behaviors; or extension of therapeutic services.

7. Medical and health care services that are integral to meeting the daily needs of the individual (e.g. routine administration of medications or tending to the needs of individuals who are ill or require attention to their medical needs on an ongoing basis.

8. Emergency assistance training includes developing responses in case of emergencies, prevention planning, and training in the use of equipment or technologies used to access emergency response systems.

9. Community access services that explore community services available to all people, natural supports available to the individual, and develop methods to access additional services/supports/activities needed by the individual to be integrated in and have full access to the community.

10. Mobility including training or assistance aimed at enhancing movement within the individual’s home, mastering the use of adaptive aids and equipment, accessing and using public transportation, independent travel, or other means of providing transportation.

The provider shall comply with the requirements of rule 5123:2-2-06 regarding behavior supports. If there is an individual behavior support plan, the provider shall be trained in the components of the plan. The provider shall maintain documentation of such training in accordance with paragraph (J)(8) of rule 5123-9-30 and present such documentation upon request by ODM, DODD, or the county board.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Due to the scope of services available, the Homemaker/Personal Care Daily Billing Unit service may not be used at the same time as Career Planning, Vocational Habilitation, Individual Employment Support, Group Employment or Adult Day Support services. Homemaker/Personal Care Daily Billing Unit services shall not be deemed to be services provided under shared living as defined in 5123:2-9-33. Homemaker/Personal Care Daily Billing Unit shall not be provided on the same day as shared living. A person may receive shared Homemaker/personal care - Daily Billing Unit only on days when shared living is not provided. A provider of Homemaker/Personal Care - Daily Billing Unit cannot bill for both Homemaker/Personal Care and Homemaker/Personal Care - Daily Billing Unit on the same day.

It is Ohio's intent to amend the waiver to remove Independent Homemaker/Personal Care Providers, as a provider of Homemaker/Personal Care-Daily Billing Unit effective 03/31/2017. As an alternative, an Independent Homemaker/Personal Care Provider, will be able to bill under the currently approved Homemaker/Personal Care Service.

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Individual Employment Support

HCBS Taxonomy:

Category 1: 03 Supported Employment

Sub-Category 1: 03021 ongoing supported employment, individual

Category 2: 0

Sub-Category 2: 0

Category 3: 0

Sub-Category 3: 0

Service Definition (Scope):

Category 4: 0

Sub-Category 4: 0
Individual employment support means individualized support for an individual to maintain competitive integrated employment. Activities that constitute individual employment support include but are not limited to:

(a) Job coaching. Job coaching is identification and provision of services and supports, utilizing task analysis and systematic instruction that assist the individual in maintaining employment and/or advancing his or her career. Job coaching includes supports provided to the individual and his or her supervisor or coworkers on behalf of the individual, either in-person or remotely via technology. Job coaching may include the engagement of natural supports in the workplace to provide additional supports that allow the job coach to maximize his or her ability to fade. Examples of job coaching strategies include job analysis, job adaptations, instructional prompts, verbal instruction, self-management tools, physical assistance, role playing, coworker modeling, written instruction. Job coaching for self-employment includes identification and provision of services and supports, including counseling and guidance, which assist the individual in maintaining self-employment through the operation of a business. When job coaching is provided, a plan outlining the steps to reduce job coaching over time shall be in place within thirty days.

(b) Benefits and work incentive management.

c) Training in assistive or other technology utilized by the individual while on the job.

d) Other workplace support services including services not specifically related to job skill training that enable the individual to be successful in integrating into the job setting.

e) Personal care and assistance, which may be a component of individual employment support but shall not comprise the entirety of the service.

Requirements for service delivery

1. The expected outcome of individual employment support is sustained competitive integrated employment in a job that is well-matched to the individual's interests, strengths, priorities, and abilities, and that meet the individual's personal and career goals.

2. Individual employment support shall be provided pursuant to a person-centered individual service plan that conforms to the requirements of rules 5123:2-1-11 and 5123:2-2-05 of the Administrative Code and shall be coordinated with other services and supports set forth in the individual service plan.

3. The service and support administrator shall ensure that documentation is maintained to demonstrate that the service provided as individual employment support to an individual enrolled in a waiver is not otherwise available as vocational rehabilitation services funded under section 110 of the Rehabilitation Act of 1973, 29 U.S.C. 730, as in effect on the effective date of this rule, or as special education or related services as those terms are defined in section 602 of the Individuals with Disabilities Education Improvement Act of 2004, 20 U.S.C. 1401, as in effect on the effective date of this rule.

4. Individual employment support shall be provided at a ratio of one staff to one individual.

5. Individual employment support services may extend to those times when the individual is not physically present and the provider is performing individual employment support on behalf of the individual (e.g., developing coworker supports or meeting with a supervisor).

6. A provider of individual employment support shall recognize changes in the individual's condition and behavior, report to the service and support administrator, and record the changes in the individual's written record.

7. A provider of individual employment support shall report identified safety and sanitation hazards that occur at the worksite to employers having the responsibility to remedy the condition.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
See Appendix C-4, "Other Type of Limit"

Payment for adult day support, career planning, group employment support, individual employment support, and vocational habilitation alone or in combination, shall not exceed the budget limitations contained in appendix C to rule 5123:2-9-19 of the Administrative Code. As part of this waiver amendment, both Supported Employment-Community; and Supported Employment-Enclave will be end dated 03/31/2017.

As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio’s Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Interpreter

HCBS Taxonomy:

Category 1:  
Sub-Category 1:
Service Definition

Scope:

Interpreter services means the process by which an individual conveys one persons message to another. The process of interpreting should incorporate both the message and the attitude of the communicator. The interpreter will maintain the role of a facilitator of communication rather than the focus or initiator of communication.

Providers of interpreter services shall:

- Render the message faithfully, always conveying the content and the spirit of the consumer, using language most readily understood by the persons whom they serve;
- Not counsel, advise or interject personal opinions;
- Participate in the consumers ISP team if and when requested by the consumers team.

This service alone or in conjunction with other services prevents institutionalization of the consumer.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

<td></td>
</tr>
</tbody>
</table>
Service Definition (Scope):

Category 4: 

Sub-Category 4: 

Money management means services that provide assistance to individuals who need support managing personal and financial affairs. Money management may also include training to assist the individual in acquisition, retention and/or improvement in money management skills. The services meet a continuum of individualized needs, from organizing and keeping track of financial records and health insurance documentation, to assisting with bill-paying and maintaining bank accounts. Money management does not take the place of services provided by professionals in the accounting, investment, or social services fields. Money management complements the work of other professionals by facilitating the completion of the day-to-day tasks rather than determining or executing long-term plans. Money management includes a broad range of tasks determined necessary in the individual service plan. Examples of supports that may be provided as a component of money management include:

(a) Bill-paying and preparation of checks for individuals to sign;

(b) Balancing checkbooks, reconciling bank account statements, and maintaining or organizing bank records;

(c) Preparing and delivering bank account deposits;

(d) Assisting an individual with applying for benefits such as Medicaid buy-in for workers with disabilities and other resources as appropriate;

(e) Assist in maintaining eligibility for monthly benefits such as food stamps;

(f) Consulting or making referrals for consultation regarding available benefits;

(g) Making referrals as appropriate for establishment of special needs accounts (e.g., Qualified Income Trusts or Achieving a Better Life Experience Act account);

(h) Organizing tax documents and other paperwork;

(i) Negotiating with creditors;

(j) Deciphering medical insurance papers and verifying proper processing of claims;

(l) Providing referrals to legal, tax, and investment professionals;

(m) Notarizing documents;

(n) Providing assistance associated with money management tasks when an individual relocates (e.g., transferring bank accounts and or updating address with creditors);

(o) Acting as power of attorney or authorized representative for financial affairs;

Requirements for service delivery

(1) Money management shall be provided pursuant to an individual service plan that conforms to the requirements of rule 5123:2-1-11 of the Administrative Code. Providers of money management shall participate in individual service plan development meetings when a request for their participation is made by the individual.

(2) The scope and intensity of money management services shall be determined by the team based on the individual's needs. Money management shall be authorized for more than ten hours per month.

(3) Persons providing money management shall comply with rule 5123:2-2-07 of the Administrative Code and the money management code of ethics contained in appendix A to this rule.

(4) A provider shall provide money management to only one individual at a time.

(5) Money management services may extend to those times when the individual is not physically present and the provider is performing money management activities on behalf of the individual.
A provider of money management shall not also provide adult family living, adult foster care, or homemaker/personal care to the same individual.

(7) Money management services involving direct contact with an individual receiving the services shall not be provided at the same time the individual is receiving homemaker/personal care involving direct contact with the individual.

(8) A provider of money management who is also an individual's payee shall:

(a) Obtain and maintain benefits for the individual; for which they are the payee

(b) Pay all of the individual's living expenses prior to providing the individual with discretionary spending money;

(c) Take all necessary measures to maintain the individual's eligibility for benefits such as ensuring bank account balances remain within established resource limitations; and

(d) Maintain documentation, report information, and comply with all other requirements and standards, including audit protocols, established by the payer of benefits as established by the Social Security Administration.

(9) Under no circumstances shall a provider of money management who is also the individual's payee be exempted from a requirement to furnish receipts for purchases or expenditures (including expenditures for travel or vacations when the individual is with his or her guardian).

(10) A provider of money management who is also the individual's payee shall not request or accept reimbursement through more than one funding source for the services that fall under the responsibilities of a payee. Additional money management tasks beyond the responsibilities of a payee may be determined through the person-centered planning process and authorized in the individual service plan.

(11) Money management shall not duplicate or include activities that help link eligible individuals with medical, social, or educational providers, programs, or services that are functions of targeted case management pursuant to rule 5160-48-01 of the Administrative Code.

(12) A provider of money management shall maintain and submit financial statements and information (e.g. checking account balance, bank statements savings account statements, trends on spending, income statements, etc.) to the individual upon request by the team.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The scope and intensity of money management services shall be determined by the team based on the individual's needs. Money management shall be authorized for no less than two hours per month and no more than ten hours per month.

<th>Sub-Category 4:</th>
</tr>
</thead>
</table>
Non-medical Transportation as a waiver service is available to enable waiver participants to get to/from a place of employment or to access Adult Day Support, Career Planning, Group Employment Support, Individual Employment Support, and/or Vocational Habilitation, as specified by the Individual Service Plan. Whenever possible, family, friends, neighbors, or community agencies that can provide this service without charge shall be used. Transportation services that are not provided free of charge and are required by enrollees in HCBS waivers administered by the Department to access one or more of these five services shall be considered to be Non-medical Transportation services and the payment rates, service limitations and provider qualifications associated with the provision of this service shall be applicable.

Non-medical Transportation is available in addition to the Transportation services described in Ohio Administrative Code 5123-9-06, which will be used primarily in connection with the provision of Homemaker/Personal Care Services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The maximum service limitation for Non-medical Transportation services is as indicated below for each year.

| Category 1 | $9,740 |
| Category 2 | $9,844 |
| Category 3 | $9,943 |
| Category 4 | $10,042 |
| Category 5 | $10,146 |
| Category 6 | $10,244 |
| Category 7 | $10,348 |
| Category 8 | $10,447 |

As part of this waiver amendment, both Supported Employment- Community; and Supported Employment-Enclave will be end dated 03/31/2017. Individual Employment Support, Group Employment Support and/or Career Planning services will be available, as an alternatives beginning 04/01/2017.

As outlined in Appendix D-1-b Service Planning Safeguards: County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio’s Transition Plan. County Boards are prohibited from providing direct services to new individuals, unless no other qualified and willing provider is available.

Nutrition services means a nutritional assessment and intervention for consumers who are identified as being at nutritional risk. The service includes development of a nutrition care plan, including appropriate means of nutritional intervention, i.e. nutrition required, feeding modality, nutrition education and nutrition counseling. The Dietitian shall:

- Participate in the development of the consumers annual individual service plan (ISP) if requested;
- Perform nutritional assessments/evaluations in accordance with the ISP;
- Develop dietary programs, if indicated by the nutritional assessment and the ISP;
- Document all hands-on programming performed;
- Inservice and/or train the consumer/family/guardian, professionals, paraprofessionals, direct care workers, habilitation specialists, vocational/school staff (including public personnel) as needed.

Nutrition services will not supplant existing services provided by the Women Infants and Children (WIC) program.

This service alone or in conjunction with other services prevents institutionalization of the consumer.

Category 3:  
Sub-Category 3:  

Service Definition (Scope):
Category 4:  
Sub-Category 4:  

06/17/2019
Participant-directed Homemaker/personal care (HPC) means the coordinated provision of a variety of services, supports and supervision necessary for the health and welfare of an individual which enables the individual to live in the community. These are tasks directed at increasing the independence of the individual within his/her home or community. This service can be furnished outside the home, as noted in service definition items 9 and 10. This service will help the individual meet daily living needs, and without this service, alone or in combination with other waiver services, the individual would require institutionalization. Participant-directed HPC service start date is expected to be 02/01/2018.

Homemaking and personal tasks are combined into a single service titled homemaker/personal care because, in actual practice, a single person provides both services and does so as part of the natural flow of the day. For example, the provider may prepare a dish and place it in the oven to cook (homemaking), assist the individual in washing up before a meal and assist him/her to the table (personal care), put the prepared meal on the table (homemaking), and assist the individual in eating (personal care). Segregating these activities into discrete services is impractical.

(b) Services provided include the following:
1. Self-advocacy training may include training to assist in the expression of personal preferences, self representation, self-protection from and reporting of abuse, neglect and exploitation, individual rights and to make increasingly responsible choices.
2. Self-direction, including the identification of and response to dangerous or threatening situations, making decisions and choices affecting the individual’s life, and initiating changes in living arrangements of life activities.
3. Daily living skills including training in accomplishing routine household tasks, meal preparation, personal care, self-administration of medication, and other areas of daily living including proper use of adaptive and assistive devices, appliances, home safety, first aid and infant and childcare training for parents who have a developmental disability, and communication skills such as using the telephone.
4. Money management services may include training involving money management and personal finances, planning and decision making and may only be provided under HPC if provided in conjunction with other homemaker or personal care tasks.
5. Implementation of recommended follow-up counseling or other therapeutic interventions under the direction of a professional or extension of therapeutic services, which consist of reinforcing physical, occupational, speech and other therapeutic programs. Services are aimed at increasing the overall effective functioning of the individual.
6. Behavior support strategies includes training and assistance in appropriate expressions of emotions or desires, assertiveness, acquisition of socially appropriate behaviors; or extension of therapeutic services. Services are aimed at increasing the overall effective functioning of the individual.
7. Medical and health care services that are integral to meeting the daily needs of the individual (e.g. routine administration of medications or tending to the needs of individuals who are ill or require attention to their medical needs on an ongoing basis.
8. Emergency assistance training includes developing responses in case of emergencies, prevention planning, and training in the use of equipment or technologies used to access emergency response systems.
9. Community access services that explore community services available to all people, natural supports available to the individual, and develop methods to access additional services/supports/activities needed by the individual to be integrated in and have full access to the community.
10. Mobility including training or assistance aimed at enhancing movement within the individual’s home, mastering the use of adaptive aids and equipment, accessing and using public transportation, independent travel, or other means of providing transportation.

The individual/designee responsibilities and authority to direct the delivery of homemaker/personal care are identified in Ohio Administrative Code (OAC) 5123-9-32.

Individuals or their representatives will direct/supervise individual providers of participant-directed homemaker/personal care.
In addition to the day-to-day supervision by the individual/designee, Appendix D-1d identifies the continuous review process implemented by the service and support administrator in accordance with Ohio Administrative Code 5123:2-1-11.

The type and frequency of supervision and review are tailored to each person’s unique needs and specified in the Individual Support Plan.

The individual provider shall comply with the requirements of rule 5123:2-2-06 regarding behavior supports.
there is an individual behavior support strategy, the individual provider shall be trained in the components of the plan. The individual provider shall maintain documentation of such training in accordance with 5123-9-32 and present such documentation upon request by ODM, DODD, or the county board.

On Site/On Call is a subservice of Homemaker Personal Care. The on-site/on-call rate is paid when no need for supervision or supports is anticipated and a provider must be on-site and available to provide homemaker/personal care but is not required to remain awake. This service must be documented in the Individual Service Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Due to the scope of services available, participant-directed homemaker/personal care may not be provided at the same time the individual is receiving non-residential adult day support, group employment support, individual employment support, or vocational habilitation, non-medical transportation or residential respite. A provider of participant directed Homemaker/Personal Care cannot also provide money management or shared living to the same individual. Participant-directed Homemaker/Personal Care service may not be provided in schools, other educational settings, or in preschool.

06/17/2019
"Remote Monitoring Equipment" means the equipment used to operate systems such as live video feed, live audio feed, motion sensing system, radio frequency identification, web-based monitoring system, or other device approved by the department. It also means the equipment used to engage in live two-way communication with the individual being monitored as outlined in Ohio Administrative Code 5123:2-9-35. The provider of Remote Monitoring is to have a backup power system (such as battery power and/or generator) in place at the monitoring base in the event of electrical outages. The provider must have other backup systems and additional safeguards in place which include, but are not limited to, contacting the backup support person in the event the Remote Monitoring system stops working for any reason.

If an individual indicates he or she wants the Remote Monitoring system turned off, the following protocol is to be implemented:
(i) The Remote Monitoring staff is to contact the backup support person and request in-person assistance at the individual’s residence.
(ii) The Remote Monitoring system will remain in operation until the backup support person arrives.
(iii) If no one else at the residence is receiving Remote Monitoring, the Remote Monitoring staff will turn off the system once the backup support person arrives at the residence and is briefed on the situation.

The provider of Remote Monitoring is required to provide an individual who receives Remote Monitoring with initial and ongoing training on how to use the Remote Monitoring system as specified in the Individual Service Plan.

Note: It is Ohio’s intent to amend the waiver to end Remote Monitoring Equipment as a service effective 12/31/2018. Assistive Technology service will incorporate the Remote Monitoring Equipment and will be available as an alternative to Remote Monitoring Equipment beginning 1/1/2019.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Individuals will only have the option to lease remote monitoring equipment. In addition, Ohio will collect data to determine if the proposed amount is reasonable.

Some providers have systems that use video cameras; others do not. Most use different types of sensors (floor mats, bed mats, etc.); however, which sensor(s) will be used is based on the individual’s wants and needs. Cameras are only set up in common areas, never anywhere that there is an expectation of privacy.

Note: It is Ohio’s intent to amend the waiver to end Remote Monitoring Equipment as a service effective 12/31/2018. Assistive Technology service will incorporate the Remote Monitoring Equipment and will be available as an alternative to Remote Monitoring Equipment beginning 1/1/2019.

06/17/2019
“Remote supports” means the provision of supports by staff at a remote location who are engaged with the individual through technology/devices with the capability for live two-way communication. Equipment used to meet this requirement must include one or more of the following systems: motion sensing system, radio frequency identification, live video feed, live audio feed, GPS tracking, web-based monitoring system, or a device that otherwise meets the requirement for two-way communication. Individual interaction with the staff person may be scheduled, on-demand, or in response to an alert from a device in the remote support equipment system.

Remote Supports is the new title for the Remote Monitoring service effective 1/1/2019 in response to stakeholder feedback. The new title is more person-centered and was favored by stakeholders over "Remote Monitoring."

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Remote supports shall not be provided in a shared living or non-residential setting.

Service Delivery Method (check each that applies):

- [ ] Participant-directed as specified in Appendix E

06/17/2019
"Residential Respite" means services provided to individuals unable to care for themselves that are furnished on a short-term basis because of the absence or need for relief of those persons who normally provide care for the individuals. Residential Respite shall only be provided in the following locations:

(a) An intermediate care facility for individuals with intellectual disabilities (ICF/IID); or

(b) A residential facility, other than an ICF/IID, licensed by the department under section 5123.19 of the Revised Code; or

(c) A residence, other than an ICF/IID, or a facility licensed by the department under section 5123.19 of the Revised Code, where Residential Respite is provided by an agency provider.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Payment for Residential Respite services does not include room and board.

Only one provider of residential respite or community respite shall use a daily billing unit on any given day.

Residential Respite is limited to 90 calendar days of service per waiver eligibility span.

Residential Respite shall not be provided to an individual at the same time by the same provider as Shared Living

### C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**

- Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

- Shared Living

**HCBS Taxonomy:**

06/17/2019
**Service Definition (Scope):**

“Shared living” means personal care and support services provided to an adult by a caregiver who lives with the individual receiving the services. Shared living is provided in conjunction with residing in the home and is part of the rhythm of life that naturally occurs when people live together in the same home. Due to the environment provided by living together in the same home, segregating these activities into discrete services is impractical. Examples of supports that may be provided as a component of shared living include: basic personal care and grooming, performing household activities including laundry and shopping, assistance with bladder and/or bowel requirements, assistance with medication and support in leading full community lives.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Legal guardians of individuals over the age of 18 are only permitted to be providers when they are related to the individual.

Shared living shall not be billed on the same day as homemaker/personal care, residential respite, or community respite. Only one daily unit of shared living may be provided each calendar day.

Payment for shared living does not include room and board, items of comfort or convenience, or costs for the maintenance, upkeep, and improvement of the home in which shared living is provided.

Shared living is provided in a home that is the primary, legal residence of the person served and the provider.

06/17/2019
'Social Work' means the application of specialized knowledge of human development and behavior, social, economic and cultural systems. This knowledge is used to assist individuals and their families to improve and/or restore their capacity for social functioning. Services include the provision of counseling and active participation in problem solving with individuals and family members; counseling in relationship to meeting the psychosocial needs of the individuals; collaboration with health care professionals and other providers of service to assist them to understand and support the social and emotional needs and problems experienced by individuals and their families; advocacy; referral to community-based and specialized services; develop social work/counseling plans of treatment; and assist providers of services and family members to understand and implement activities related to implementation of the plan of treatment.

Supported employment-enclave are services and training activities provided in regular business, industry and community settings for groups of workers with disabilities. Examples include mobile crews and other business-based workgroups employment small groups of workers with disabilities in employment in the community. Support employment-enclave support must be provided in a manner that promotes integration into the workplace and interaction between participants and people without disabilities in those workplaces. Where applicable, the proposed outcome of this service is sustain paid employment and work experience leading to further career development and individual integrated community-based employment for which an individual is compensated at or above the minimum wage, but not less than the customary wage and level of benefits paid by the employer for the same or similar work performed by individuals without disabilities. Supported employment-enclave does not include vocational services provided in facility based work settings. "Supported employment" does not include sheltered work or other similar types of vocational services furnished in specialized facilities.

Supported Employment - Enclave means Supported Employment services provided to waiver enrollees who work as a team at a single work site of the host community business or industry with initial training, supervision and ongoing support provided by specially trained, on-site supervisors.

Two unique service arrangements have been identified in which Supported Employment Enclave waiver services are provided:

a.) Dispersed enclaves in which individuals with developmental disabilities work as a self-contained unit within a company or service site in the community or perform multiple jobs in the company, but are not integrated with non-disabled employees of the company.
b.) Mobile work crews comprised solely of individuals with developmental disabilities operating as distinct units and/or self-contained businesses working in several locations within the community.

Supported employment enclave services shall normally be made available four or more hours per day on a regularly scheduled basis, for one or more days per week, unless provided as an adjunct to other day activities included in an ISP and shall take place in a non-residential setting separate from any home or facility in which an individual resides.

Supported employment - enclave services are provided to eligible waiver enrollees who participate in a work program that meets the criteria for employment of workers with disabilities under certificates at special minimum wage rates issued by the department of labor, as required by the "Fair Labor Standards Act," and in accordance with the requirements of 29 C.F.R. Part 525: "Employment of Workers with Disabilities Under Special Certificates" (revised as of July 1, 2005).

Supported Employment - Enclave services are available to individuals who are no longer eligible for educational services based on their graduation and/or receipt of a diploma/ equivalency certificate and/or their permanent discontinuation of educational services within parameters established by the Ohio Department of Education.

Supported Employment-Enclave services furnished under the waiver are not available under a program funded by the Rehabilitation Act of 1973, 29 U.S.C.701, as amended and in effect on the effective date of approval of this waiver service by CMS.

Activities That Constitute Supported Employment Enclave

1. Vocational assessment that is conducted through formal and informal means for the purpose of developing a vocational profile and employment goals. The profile may contain information about the individuals educational background, work history and job preferences; will identify the individuals strengths, values, interests, abilities, available natural supports and access to transportation; and will identify the earned and unearned income available to the individual.

2. "Job development and placement" includes some or all of the following activities provided directly or on behalf of the individual:

(a) Developing a resume that identifies the individuals job related and/or relevant vocational experiences;
(b) Training and assisting the individual to develop job-seeking skills;
(c) Targeting jobs on behalf of the individual that are available in the individuals work location of choice;
(d) Assisting the individual to find jobs that are well matched to his/her employment goals.
(e) Developing job opportunities on behalf of the individual through direct and indirect promotional strategies and relationship-building with employers;

(f) Conducting work-site analyses, including customizing jobs;

(g) Increasing potential employers awareness of available incentives that could result from employment of the individual.

3. "Job training/coaching” includes some or all of the following activities:

(a) Developing a systematic plan of on-the-job instruction and support, including task analyses;

(b) Assisting the individual to perform activities that result in his/her social integration with disabled and non-disabled employees on the work-site;

(c) Supporting and training the individual in the use of generic and/or individualized transportation services;

(d) Providing off-site services and training that assist the individual with problem solving and meeting job-related expectations;

(e) Developing and implementing a plan to assist the individual to transition from his/her prior vocational or educational setting to employment, emphasizing the use of natural supports.

4. "Ongoing job support” includes direct supervision, telephone and/or on-site monitoring and counseling and the provision of some or all of the following supports to promote the individuals job adjustment and retention:

(a) Following-up with the employer and/or the individual at the frequency required to assist the individual to retain employment;

(b) Assisting the individual to use natural supports and generic community resources;

(c) Providing training to the individual to maintain work skills, enhance personal hygiene, learn new work skills, improve social skills and/or modify behaviors that are interfering with the continuation of his/her employment.

(d) Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities as identified in rule 5123:2-6-01 of the Administrative Code, which a licenses nurse agrees to delegate in accordance with requirements of Chapters 4723., 5123., and 5126. of the Revised Code and rules adopted under those chapters.

5. "Worksite accessibility” includes some or all of the following activities:

(a) Time spent identifying the need for and assuring the provision of reasonable job site accommodations that allow the individual to gain and retain employment;

(b) Time spent assuring the provision of these accommodations through partnership efforts with the employer.

6. "Training in self-determination” includes assisting the individual to develop self-advocacy skills, to exercise his/her civil rights, to exercise control and responsibility over the services he/she receives and to acquire skills that enable him/her to become more independent, productive and integrated within the community.

7. Assisting the individual with self-medication or provision of medication administration for prescribed medication and assisting the individual with or performing health-related activities as identified in rule 5123:2-6-01 of the Administrative Code, which a licenses nurse agrees to delegate in accordance with requirements of Chapters 4723., 5123., and 5126. of the Revised Code and rules adopted under those chapters.

Documentation is maintained that this service is not available under section 110 of the Rehabilitation Act of 1973 or IDEA (20 U.S.C. 1401 et seq.). Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: 1) Incentive payments made to an employer to encourage or subsidize the employer's participation in supported employment; or 2) Payments that are passed through to users of supported employment services.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

It is Ohio's intent to amend the waiver to end Supported Employment-Enclave, as a service effective 03/31/2017. Group Employment Support and/or Career Planning services will be available as an alternatives to Supported Employment-Community beginning 04/01/2017.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Transportation

HCBS Taxonomy:

Category 1:  
Sub-Category 1:
Service Definition (Scope):
Service offered in order to enable individuals served on the waiver to gain access to waiver and other community services, activities and resources, specified by the individual’s service plan. This service is offered in addition to medical transportation required under 42 CFR 431.53 and transportation services under the State plan, defined at 42 CFR 440.170(a) (if applicable), and shall not replace them. Transportation services under the waiver shall be offered in accordance with the individual’s service plan. Whenever possible, family, neighbors, friends, or community agencies that can provide this service without charge will be utilized. Transportation services may be provided in addition to the Non-Medical Transportation services that may only be used to enable individuals to access Adult Day Support, Vocational Habilitation, Individual Employment Support, Group Employment Support and Career Planning. To avoid service duplication with Non-Medical Transportation Service, documentation is required to show what service has been billed at what time. DODD conducts audits on services provided by aligning what is in the plan (ISP) with what has been approved in the Payment Authorization for Waiver Services (PAWS) and what has been billed in the Medicaid Billing System to ensure that no duplication has occurred. The SSA maintains the responsibility for monitoring the services as authorized in the ISP.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

It is Ohio’s intent to amend the waiver to end Supported Employment-Community and Supported Employment Enclave, as services effective 03/31/2017. Individuals Employment Support, Group Employment Support and/or Career Planning services will be available as an alternatives beginning 04/01/2017.

Waiver nursing delegation services means the initial and ongoing supports provided by a licensed nurse who is delegating a nursing task or assuming responsibility for individuals who are receiving delegated nursing care. Waiver nursing delegation services include two distinct components: assessment of the individual receiving delegated nursing care that includes a face-to-face interview and observation of the individual receiving care and supervision of the performance of the nursing task performed by the unlicensed person. Waiver Delegation Nursing service start date is expected to be 02/01/2018.

All nurses providing waiver nursing services to individuals enrolled on the Individual Options shall provide services within the nurse's scope of practice as set forth in Chapter 4723. of the Revised Code (Ohio's Nurse Practice Act) and Administrative Code rules adopted there under, and hold a current, valid, and unrestricted license issued by the Ohio board of nursing.

Ohio’s Medicaid state plan does not currently fund nursing delegation.

Related legal guardians of individuals over the age of 18 are permitted to be providers. A family member who lives with the individual is not eligible to be paid for waiver nursing delegation provided to that individual. Family members who live with the individual can delegate to independent providers through the family delegation statute and do not require waiver certification/payment to do so.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Waiver nursing delegation shall be provided pursuant to an individual service plan that conforms to the requirements of rule 5123:2-1-11 of the Administrative Code.

An individual may receive up to one assessment every 60 days in a residential setting and one assessment every 60 days in a non-residential setting.

Waiver nursing delegation may be reimbursed for no more than 10 hours per month for each individual in all settings.

LPNs may not perform waiver nursing delegation assessment.

The scope and intensity of supervision of unlicensed personnel shall be determined by the RN or LPN.

Service Definition (Scope):

<table>
<thead>
<tr>
<th>Category 4:</th>
<th>Sub-Category 4:</th>
</tr>
</thead>
</table>
Waiver nursing services are defined as services provided to individuals who require the skills of a registered nurse (RN) or licensed practical nurse (LPN) at the direction of an RN. All nurses providing waiver nursing services to individuals enrolled on the Individual Options shall provide services within the nurse's scope of practice as set forth in Chapter 4723. of the Revised Code (Ohio's Nurse Practice Act) and Administrative Code rules adopted thereunder, and hold a current, valid, and unrestricted license issued by the Ohio board of nursing.

Waiver nursing service authorization is outlined in the Ohio Administrative Code 5123:2-9-39 Waiver Nursing, paragraph (D)(1) through (5).

It is different than state plan nursing because its approved provider pool is not limited to Medicare-certified home health agencies. Waiver nursing services that can be covered under the State Plan should be furnished to waiver participants under the age of 21 as services required under EPSDT.

Related legal guardians of individuals over the age of 18 are permitted to be providers.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Waiver nursing services shall be provided pursuant to an individual service plan that conforms to the requirements of rule 5123:2-1-11 of the Administrative Code. Waiver nursing services shall be utilized only when an individual's needs cannot be met through medication administration and nursing delegation as outlined in Chapter 5123:2-6 of the Administrative Code, and/or state plan nursing services as defined in Chapter 5160-12 of the Administrative Code.

A provider of waiver nursing services shall be identified as the provider and have specified in the individual service plan the number of hours for which the provider is authorized to furnish waiver nursing services.

Waiver nursing services shall not include:
Services delegated in accordance with Chapter 4723. of the Revised Code and rules adopted thereunder, and to be performed by persons who are not licensed nurses in accordance with Chapter 4723. of the Revised Code;

Services that require the skills of a psychiatric nurse;

Visits performed for the purpose of conducting a registered nurse assessment as set forth in rule 5160-12-08 of the Administrative Code, including but not limited to, an outcome and assessment information set or any other assessment;

Registered nurse consultations as set forth in rule 5160-12-08 of the Administrative Code, including but not limited to, those performed by registered nurses for the sole purpose of directing licensed practical nurses in the performance of waiver nursing services or directing personal care aides or home health aides employed by a medicare-certified home health agency or otherwise accredited agency;

Visits performed for the sole purpose of meeting the home care attendant service registered nurse visit requirements set forth in rules 173-39-02.24, 5160-46-04.1, and 5160-50-04.1 of the Administrative Code; or

Services performed in excess of the number of hours approved pursuant to, and as specified in, the individual service plan.

Appendix C: Participant Services

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (select one):

☐ Not applicable - Case management is not furnished as a distinct activity to waiver participants.

☒ Applicable - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

☐ As a waiver service defined in Appendix C-3. Do not complete item C-1-c.

☐ As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.

☒ As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.

☐ As an administrative activity. Complete item C-1-c.

☐ As a primary care case management system service under a concurrent managed care authority. Complete item C-1-c.

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:
Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- No. Criminal history and/or background investigations are not required.
- Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

At the time of initial certification and renewal certification, the Ohio Department of Developmental Disabilities requests that every independent provider and every agency have a report sent to the Department as part of their application requirements. Certification will not be granted without this document, which must be sent directly from the Bureau of Criminal Identification and Investigation to the Ohio Department of Developmental Disabilities. For agency employees, criminal background checks must be conducted at initial hire and at least once every 5 years.

DODD does not enroll an applicant who provides direct services to individuals with developmental disabilities as an Individual Options waiver provider until a background investigation has been satisfactorily completed.

Criminal history/background checks are conducted for all providers having direct contact with waiver participants. Background investigations follow the requirements listed in Section 5126.281 of the Ohio Revised Code and rule 5123:2-2-02 of the Ohio Administrative Code (OAC).

A report is submitted by Ohio's Bureau of Criminal Identification and Investigation (BCII) directly to the Department of Developmental Disabilities regarding an applicant's criminal record. If the applicant who is the subject of a background investigation does not present proof that he/she has been a resident of Ohio for the five-year period immediately prior to the date of the background investigation, a request that BCII obtain information regarding the applicant's criminal record from the federal bureau of investigation (FBI) shall be made. If the applicant presents proof that he/she has been a resident of Ohio for that five-year period, a request may be made that BCII include information from the FBI in its report.

An individual provider is required to report to DODD if he or she is ever formally charged with, convicted of, or pleads guilty to any of the disqualifying offenses listed or described in divisions (A)(3)(a) to (e) of section 109.572 of the Revised Code. The individual provider shall make such report, in writing, not later than fourteen calendar days after the date of such charge, conviction or guilty plea.

An agency provider shall require any employee in a direct services position to report, in writing, to the agency provider if the employee is ever formally charged with, convicted of, or plead guilty to any of the disqualifying offenses listed or described in divisions (A)(3)(a) to (e) of section 109.572 of the Revised Code not later than fourteen calendar days after the date of such charge, conviction or guilty plea.

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

- No. The state does not conduct abuse registry screening.
Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

At the time of initial certification and renewal certification, the Ohio Department of Developmental Disabilities completes a registry search for each independent provider and every agency by entering the provider information on the Abuser Registry website. The results are then saved in the provider’s file to confirm that this search has been completed. Certification will not be granted without this document. For agency employees, registry checks must be completed at the time of initial hire and at least every five years after.

The requirements for the abuser registry are contained in Sections 5123.50 through 5123.54 of the Ohio Revised Code. DODD maintains an abuser registry and screens applicants for Individual Options waiver positions having direct contact with waiver participants against the abuser registry. Certification as an individual waiver provider is not approved until the screening has been satisfactorily completed. Agency providers must assure that employees or contractors have been screened against the abuser registry.

Certification shall be denied to any applicant whose name appears on the abuser registry. For waiver providers who previously have been certified, DODD regulations require the revocation of all providers certifications whose names have been placed on the registry.

Contact is also made with the Ohio Department of Health to inquire whether the nurse aide registry established under section 3721.32 of the Revised Code reveals that its director has made a determination of abuse, neglect, or misappropriation of property of a resident of a long-term care facility or residential care facility by the applicant. DODD will deny certification to an applicant whose name appears on the nurse aide registry with regard to abuse, neglect or misappropriation. DODD staff are also responsible for checking the list of excluded persons and entities maintained by the Office of Inspector General in the United States Department of Health and Human Services pursuant to section 1128 of the Social Security Act. A check must be conducted of the sex offender and child-victim offender database which was established pursuant to division (A)(11) of section 2950.13 of the Revised Code; the United States general services administration system for award management database; and the database of incarcerated and supervised offenders established pursuant to section 5120.066 of the Revised Code. Agency providers are required to conduct all of these registry checks for employees or contractors.

For employees, subcontractors of the applicant, and employees of subcontractors who provide specialized services to an individual with a developmental disability as defined in division (G) of section 5123.50 of the Revised Code, the applicant shall provide to DODD written assurance that, as of the date of the application, no such persons are listed on the abuser registry established pursuant to sections 5123.50 to 5123.54 of the Revised Code.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

C. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:

- No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
- Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

i. Types of Facilities Subject to §1616(e). Complete the following table for each type of facility subject to §1616(e) of the Act:
**ii. Larger Facilities:** In the case of residential facilities subject to §1616(e) that serve four or more individuals unrelated to the proprietor, describe how a home and community character is maintained in these settings.

Residential Respite services are a short-term service provided on an intermittent basis in facilities licensed by DODD. These facilities may be licensed for fewer or more than four individuals. Individuals, parents, guardians, and family members provide necessary information to the facility to ensure that individuals receive their respite services in a manner that resembles their home-life as much as possible.

Homemaker/Personal Care services are also provided on a routine basis for individuals residing in a licensed facility.

Each facility in which more than four individuals with developmental disabilities reside must be licensed by DODD in accordance with Chapter 5123.19 of the Ohio Revised Code. Licensure requirements assure that the home provides individualized services, that residents have access to laundry facilities, personalized bedrooms that cannot be occupied by more than two individuals and accessible bathrooms. Homes are required to have food preparation and dining areas and non-sleeping areas that meet minimum square footage requirements. No rooms within the home, other than staff living areas, are to be 'off limits' to any resident.

Residential providers are required to provide or arrange for transportation of individuals to access community services, in accordance with their Individual Service Plans. Licensed facilities may not erect any sign or otherwise differentiate the home from other private residences in the community.

Individuals have the right to interact with friends, family, and community members both in and out of their home. Providers must ensure that the rights of individuals are protected. This is reviewed as part of the DODD review process through interview, observation, and documentation review.

When single rooms are available, decisions regarding who has the single room and who shares a room are made by the individuals who share the residence. Individuals have the right to participate in the management of their home, including who they share a room with, and have the right to move from one bedroom to another when all parties involved are in agreement to the change.

Individuals participate in determining their own schedules to the highest extent possible and, when assessed to need assistance in this area, can choose to receive assistance from their chosen provider. Individuals can choose whether or not to participate in planned activities. Licensed waiver setting conditions state that unless there is an identified and documented risk to health and safety for an individual, the facility must ensure a 3 day supply of fresh food and a 5 day supply of frozen food, and that food be available to the individual at any time.

Currently, OAC 5123:3-26 limits the development new non-ICF/IID licensed facilities to a maximum of 4 beds; however, facilities licensed for more than 4 prior to this rule becoming effective may maintain their current capacity.

Licensed facilities are located in residential neighborhoods where access to community activities and public transportation are available. This provides individuals in these homes to interact with individuals without disabilities. The facilities physically resemble large homes, not institutions as much as possible and provide services in a family-like way (meals, outings).

---

Appendix C: Participant Services

**C-2: General Service Specifications (3 of 3)**

d. **Provision of Personal Care or Similar Services by Legally Responsible Individuals.** A legally responsible individual is any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- ☐ No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.
- ☐ Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of **extraordinary care** by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. **Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.**
Self-directed
Agency-operated

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The state does not make payment to relatives/legal guardians for furnishing waiver services.
- The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

 Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.
Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3, except as follows:

Legally responsible individuals are not permitted to furnish waiver services to the individuals for whom they are responsible.

Spouses are not permitted to furnish waiver services to their spouses.

Parents are not permitted to furnish waiver services to their biological children, adoptive children, or stepchildren who are under the age of eighteen.

Guardians who are unrelated to their dependents are not permitted to furnish waiver services to their dependents.

Legal guardians of individuals over the age of eighteen are only permitted to be the shared living provider for the individual when the legal guardian is related to the individual.

Procedures that have been established to ensure that payment is made only for services rendered:

The Individual Service Plan (ISP) developed by the county board of dd specifies the waiver services eligible for payment. Waiver services specified in the ISP are entered into the DODD-operated payment system to ensure that payment is made only for waiver services specified in ISP and only in the amounts specified in the ISP.

Consistent with the limitations in Appendix C-2-e, relatives/family members who are otherwise qualified to provide services as specified in Appendix C-1/C-3, may become qualified waiver providers by following the same certification process as DODDs other waiver providers.

Consistent with Appendix I-2-a, when necessary to comply with FLSA, the reimbursement to independent providers will be adjusted for overtime compensation.

Monitoring of the ISP implementation is done by the County Board Service and Support Administrator (SSA), and provider compliance reviews conducted by DODD include a review of whether services were actually delivered in accordance with the individual’s ISP.

Other policy.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

DODD continuously certifies applicants to be providers of Individual Options waiver services. The documents required to be certified as a waiver provider, along with information regarding the certification process, are posted on DODD's website. Prospective providers may call or email DODD for information about the requirements or assistance with the application process.

Once certified by the DODD, the Medicaid Provider application is forwarded to ODM for review and assignment of a Medicaid provider number.

County Boards of DD also assist in the open enrollment of providers by passing along information regarding the waiver services and the provider application process to potential providers. DODD has an online Provider Certification Wizard which has streamlined the process potential providers use to become certified for waiver services.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.
a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

PM C1: Number and percent of new independent providers that meet initial certification requirements prior to providing waiver services. Numerator: Total number of new independent providers enrolled that meet initial certification requirements prior to providing waiver services. Denominator: Total number of new independent providers enrolled.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
DODD becomes aware of problems through a variety of mechanisms including, but not limited to, formal & informal complaints, technical assistance requests, and routine & special regulatory review processes (accreditation, licensure, provider compliance, quality assurance, etc.). As problems are discovered, the individual County Boards is notified and technical assistance is provided using email, phone contact and/or letters to the County Boards Superintendent. During the DODD regulatory review process citations may be issued and plans of correction required as needed and appropriate. When issues are noted that are systemic, DODD will provide statewide training and additional technical assistance and monitor for improvement during subsequent monitoring cycles.

Provider applicants cannot provide waiver services prior to meeting initial certification requirements. Providers are not given their DODD contract number or Medicaid Provider number until the standards of certification have been met as established in OAC 5123:2-2-01. Requirements are specific to independent providers versus agency providers; all approved providers are identified in the provider database as either being an agency or independent provider. Effective dates of certification are not granted until DODD has received all documentation supporting the initial certification requirements. Requirements, including documents, for certification are currently listed by provider type on the DODD website. Provider applicants must use the online certification tool, the Provider Certification Wizard (PCW) to apply for certification. The application process consists of the applicant being asked a series of questions that will determine a list of required documentation based on their answers. Once the application is submitted by the applicant, it is forwarded to an electronic workflow program that is used to ensure requirements of initial and renewal certification are met.

All providers are notified within 90 days of their expiration date that they must renew their certification. They are sent a list of requirements via letter sent through the US Postal Service; this letter includes information pertaining to their expiration date and instructions as to how to proceed with certification renewal. If the provider does not meet the standards of certification to renew, the provider can no longer provide services and will not be able to bill for services provided after their expiration date. If the provider submits their application after their expiration date, a new effective date will be assigned that will align with the date that all completed documentation was received. This can result in a lapse in the certification record for the provider. If the application is submitted prior to expiration, but is incomplete, per OAC 5123:2-2-01, the provider has 90 days to submit a completed application.

Providers are able to apply for certification for services under all of the DODD waivers using PCW. The services are listed within the application and the request for documentation is dependent upon the services selected. Goods and service providers are not included as DODD certified providers. Providers are only certified once the requirements of certification have been verified. Providers who do not submit documentation within the required timeframe are not denied; they are simply not certified. This includes providers who have not met the requirement for training documentation for initial and renewal certification. The Office of Provider Standards and Review will conduct compliance reviews to ensure anyone working for an agency in a direct service position has met any certification requirements. If they have not, citations will be issued by the Department. Reports can be accessed by Department staff outlining the number of providers who have been certified for initial or renewal certification, the type of provider, and the services for which they have been certified.

### ii. Remediation Data Aggregation

**Remediation-related Data Aggregation and Analysis (including trend identification)**

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. Additional Limits on Amount of Waiver Services. Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

☐ Not applicable - The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
☐ Applicable - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (check each that applies)

☐ Limit(s) on Set(s) of Services. There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

Furnish the information specified above.

☐ Prospective Individual Budget Amount. There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

Furnish the information specified above.
**Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

*Furnish the information specified above.*
The budget limits are established by individual acuity scores on the Ohio Developmental Disabilities Profile (ODDP), an instrument that was standardized years ago with the involvement of waiver participants and stakeholders at the time. The analysis resulted in scoring weights that were consistent with individuals’ needs and service costs also at the time. Since then, it has served as the statewide tool to assure consistency in individual funding levels for all served on the IO Waiver. The ODDP is available on the website (http://dodd.ohio.gov/Communications/SiteAssets/DDP%20Word%20Document%2012.7.2017.pdf) and the scored tool is to be done with the involvement of the individual.

The process for determining a funding range that is linked to an individual and to other individuals with similar needs throughout the state is defined in the Ohio Administrative Code, OAC5123:2-9-06 and is found on DODD’s website. The rule specifically outlines the purpose of the tool and the key variables that are considered in determining the funding range, e.g. supports available to the individual, the living arrangement, medical and behavioral needs, and more. The rule requires the input of the individual and the team in the completion of the ODDP and, with consent of the individual, the team can review the completed tool to ensure its accuracy.

The entire process outlined here is available to the public and is communicated to individuals who are impacted by it. The ODDP instrument is available on the website as are the rules discussed here. Each individual’s completed ODDP and resulting ranges that are linked to the individual plan is completed with the participation of the individual and is found online. Individuals may appeal any item completed on the tool if it is felt that another response for the item is more accurate.

The Service and Support Administrator informs the individual of the assigned funding range at the time of enrollment and any time the Ohio Developmental Disabilities Profile is reviewed or updated. The Service and Support Administrator also ensure the individual has access to review the Ohio Developmental Disabilities Profile and other assessments used in relation to the completion of the Ohio Developmental Disabilities Profile.

Each enrollee's need for waiver services is evaluated using the Ohio Developmental Disabilities Profile (ODDP). The ODDP is a standardized instrument used to assess the relative needs and circumstances of an individual (OAC 5123:2-9-06) in order to determine the amount of service needs available for a persons Individual Options waiver services. The ODDP is submitted electronically to DODD, and the answers are electronically scored to assign a funding range. The SSA is responsible to develop a plan that corresponds to the individuals funding range, as assessed and calculated by the ODDP.

The funding range applies to all services except the Adult Day Support, Vocational Habilitation, Individual Employment Support, Group Employment Support, Career Planning, Adapted Equipment, and Non-Medical Transportation, Waiver Nursing and Nursing Delegation. Participant-directed homemaker/personal care services are to be included in the limitations specified for the existing homemaker/personal care services. Waiver nursing delegation and payment for the provider competency add on are excluded from the overall cost limitation. As an individuals situation changes, responses to the assessment tool are changed and the funding range is adjusted accordingly. Whenever an individuals funding range changes, the county board of dd notifies them of this change.

If an individuals needs cannot be met within the annual range expected, enrollees have a right to work with their county board to develop a request for prior authorization to exceed the assigned funding range, based on a process that includes the application of statewide criteria specifically developed for waiver services.

The Prior Authorization process is as follows: The ISP, developed in conjunction with the individual, establishes the individuals needs and matches services to address them. When the costs of waiver services identified in his/her ISP exceeds the range set by the individuals ODDP score, the individual or guardian may request from DODD that the services be authorized. To do this, the individual or guardian submits to the county board of dd a form that lists the services that are being requested. The county board of dd is then required to submit the documentation that relates to the prior authorization request to DODD. The county board of dd also provides a rationale for the services and costs, along with a statement of their support or lack of support for the plan. DODD QIDPs review the documents to verify the needs, corresponding services, and costs, and then either approve or deny the proposed request. The individual or guardian is notified of their
appeal rights following any determination.

☑ Other Type of Limit. The state employs another type of limit.

*Describe the limit and furnish the information specified above.*
Sets of Services to Which Annual Budget Limits Are Applied:

Following are the annual budget limitations that apply to Adult Day Support, Vocational Habilitation, Individual Employment Support, Group Employment Support, and Career Planning waiver services when these services are provided separately or in combination.

The annual service limit that is applicable to the adult day service set of Adult Day Support, Vocational Habilitation, Individual Employment Support, Group Employment Support and Career Planning Waiver services is determined by use of a projected service utilization of 260 days per year multiplied by 6.25 hours of attendance each day multiplied by four 15-minute units per hour to obtain the maximum base of 6,500 15-minute units of service that may be received per person per twelve month waiver year. The 6,500 units are then multiplied by the rate for Vocational Habilitation/Adult Day Support that corresponds to the group to which each individual would be assigned based on completion of the Acuity Assessment Instrument. The rate selected when calculating an individual’s service limit will be further determined by the cost of doing business adjustment (category) that applies to the county in which the individual is anticipated to receive the preponderance of Vocational Habilitation, Adult Day Support, Individual Employment Support, Group Employment Support or Career Planning waiver services during the individuals twelve month waiver span. It is Ohio's intent to amend the waiver to end Supported Employment-Community and Supported Employment-Enclave, as a service effective 03/31/2017. Services and Support Administrators (SSA) employed by County Boards will be assigned the responsibility to submit to DODD information contained on the DODD Acuity Assessment Instrument for each waiver recipient for whom Adult Day Supports, Vocational Habilitation, Individual Employment Support, Group Employment Support and Career Planning waiver services have been authorized through the individual planning process. The SSA will be responsible to inform the waiver enrollee/guardian of the assessment score and resulting group assignment initially and at each time the assessment instrument is re-administered. It is Ohio's intent to amend the waiver to end Supported Employment-Community and Supported Employment-Enclave, as a service effective 03/31/2017.

Each provider shall document the ratios of staff members to individuals served in a grouping during the times or span of times in each calendar day when Adult Day Support, Vocational Habilitation, Individual Employment Support, Group Employment Support or Career Planning services were provided. It is Ohio's intent to amend the waiver to end Supported Employment-Community and Supported Employment-Enclave, as a service effective 03/31/2017. When determining that an individual received services at the staff intensity ratio indicated by the Acuity Assessment Instrument score, a certified provider may use the average of the staff to individual ratios at which he/she provided each waiver service to the individual during one calendar day.

An administrative review processes internal to DODD and subject to ODM oversight will be available to individuals who believe that their DODD's Acuity Assessment Instrument scores and subsequent placement in Group A, A-1 and B prohibit their access to or continuation in the Vocational Habilitation or Adult Day Support, Individual Employment Support, Group Employment Support and/or Career Planning services they have selected. It is Ohio's intent to amend the waiver to end Supported Employment-Community and Supported Employment-Enclave, as a service effective 03/31/2017. In no instance will the total annual budget limit approved through the administrative review exceed the published amount for Group C in the cost of doing business region in which the individual receives the preponderance of his/her adult service set.
Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.
The proposed assistive technology and community transition services comport with the federal HCBS settings requirements. Independence and autonomy can be expanded through the use of technology that assists people when, where, and how they prefer to receive support. Community transition services support people who move to community settings. All new services must comply with department’s settings suitability rule (OAC 5123:2-9-2-02) effective May 2016, which mirrors the language in 42 CFR 441.301(c) (4)-(5).

The summary of the results of the preliminary assessments for both residential and non-residential adult day services settings that currently meet HCBS characteristics is described below. In addition, the remediation strategies as outlined in the Ohio Statewide Transition Plan Appendix 1: ICF-IID Level of Care Waivers Systems Grid will demonstrate how the state will ensure that all settings will continue to meet HCB settings requirements in the future.

I. Residential Settings which currently meet HCBS characteristics

The Residential Settings Subcommittee reviewed the types of residential settings in which individuals are currently receiving HCBS. Those settings included individual/family homes, shared living, and congregate settings in which 2 or more individuals share services. Certain settings, including those in which individuals resided alone or with family, were presumed compliant with the regulation. In September 2014, DODD conducted a survey of residential settings for those individuals who live in congregate settings to determine the level of compliance with the CMS HCBS regulation. Based on this criterion, the estimated target number of individuals included in the survey was 7,500 individuals residing in approximately 2,500 settings. The actual survey results yielded responses for 2,163 settings in which approximately 7,000 individuals reside.

When combining the presumed compliant locations with the settings that were surveyed, 90.9% are in compliance with the CMS HCBS Regulations.

II. Non-Residential Adult Day Waiver Services Settings which currently meet HCBS characteristics

DODD also conducted a survey for its Adult Day Waiver Service (ADWS) settings to determine the level of compliance for those HCBS services. To ensure the data yielded as a result of the survey was as accurate as possible, settings in which integrated, community employment services are provided were not included. The survey was distributed to providers of facility-based work and non-work services. In the DODD system, those services are Adult Day Supports and Vocational Habilitation. In total, responses were received from 464 settings where services are provided to more than 25,000 individuals.

Remediation Strategies/Action Steps/Timelines as outlined in the Ohio Statewide Transition Plan Appendix 1: ICF-IID Level of Care Waivers System Remediation Grid that will provide for ongoing monitoring of HCB setting requirements in the future, as submitted in CMS portal on December 1, 2015:

1. Adopt and implement an overarching DODD Home and Community-Based Services Administration rule that describes the characteristics required of all settings in which HCBS is provided and recognizes the individual’s opportunity to choose among services/settings that address assessed needs in the least restrictive manner, promote autonomy and full access to the community, and minimize dependency on paid supports. Including the requirements specific to provider owned or controlled settings.
   Action Steps:
   a. Developed content with the sub-committee with equal representation from advocates/self-advocates, county boards, and providers of HCBS.
   b. Formal clearance for draft rule.
   c. Final file.

2. Revise service definition of Homemaker/Personal Care under the Individual Options and Level One Waivers to include language that supports the use of this service to promote individuals’ integration in and access to the greater community.
   Action Steps:
   a. Submit waiver amendments to CMS.
   b. Formal clearance for draft rule.
   c. Final file.

3. Implement a new HCBS settings evaluation tool utilized to conduct compliance reviews of providers of HCBS to include prompts for ensuring HCBS are provided in settings that comport with the regulation.
   Action Steps:
a. Convene workgroup with broad cross-section of individuals/families, providers of HCBS, and county board personnel.
b. Develop draft tool.
c. Share draft with stakeholders for feedback.
d. Provide training on new tool.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:

Individual Service Plan

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- [ ] Registered nurse, licensed to practice in the state
- [ ] Licensed practical or vocational nurse, acting within the scope of practice under state law
- [ ] Licensed physician (M.D. or D.O)
- [ ] Case Manager (qualifications specified in Appendix C-1/C-3)
- [ ] Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

- [ ] Social Worker

Specify qualifications:

- [X] Other

Specify the individuals and their qualifications:

Service and support administrators (SSA) are responsible for service plan development and revision (ORC 5126.15 and rule 5123:2-1-11 of the Administrative Code). A service and support administrator must be, regardless of title, employed by or under subcontract with a County Board to perform the functions of service and support administration, and must hold the appropriate certification in accordance with rule 5123:2-5-02 of the Administrative Code. The minimum qualifications for certification are an associate's degree from a college or university and the successful completion of following:

1. The Ohio Alliance of Direct Support Professionals Professional Advancement Through Training and Education in Human Services (PATHS) Certificate of Initial Proficiency program; OR
2. An orientation program of at least eight hours that addresses: Organizational background of the county board or contracting entity. Components of quality care for individuals served including Person-centered philosophy. Health and safety. Positive behavior support. Services that comprise service and support administration.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

- [ ] Entities and/or individuals that have responsibility for service plan development may not provide other
direct waiver services to the participant.

 Entities and/or individuals that have responsibility for service plan development may provide other
direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best
interests of the participant. Specify:
County Boards currently serve as the single provider of case management through Ohio’s Targeted Case Management (TCM) services. County boards may also provide direct services to some individuals receiving 1915(c) waiver services. In many cases, people have been receiving their direct services from the county board for a long period of time. The state reports that there are not enough providers and the state needs time to develop a broader provider pool.

In the past 7 years, the state has reduced the percentage of adult day services provided by the boards from 92% to 52%. This was accomplished through a combination of expanding the private provider pool, expecting boards to actively recruit providers in counties where options are minimal, and carefully planned transitions of individuals from county boards to other providers.

Ohio is in the process of redesigning the adult day services. It is anticipated that these new services will be available in 2016, they will not be available in segregated facilities. County boards providing TCM will not be eligible to provide any of the new adult day services, unless no other qualified provider is available in the geographic area. It is anticipated that all individuals will be safely transitioned from their existing adult day services, many of which are operated by county boards, to the newly designed services according to Ohio's Transition Plan.

Under the newly designed adult day services model, the county boards’ role will be to assist individuals with navigating the various employment services available through the waiver, as well as through other community organizations, such as Ohio’s vocational rehabilitation vendors and the county departments of job and family services. This employment navigation will be provided as a function of TCM.

Case management shall not be assigned responsibilities for implementing other services for individuals and shall not be employed by or serve in other administrative functions for any other entity that provides programs or services to individuals with developmental disabilities in accordance with section 5126.15 of the Ohio Revised Code.

So long as a county board is a provider of home and community-based services, the county board shall: (1) Ensure administrative separation between county board staff doing assessments and service planning and county board staff delivering direct services; and (2) implement a process and establish annual benchmarks for recruitment of sufficient providers of adult day support and employment services. The state monitors for this administrative separation during the county board accreditation reviews as outlined under OAC 5123:2-1-02 (P) Administration and Operation of County Boards of Developmental Disabilities. Through the accreditation process county boards are reviewed as a provider of service, if applicable, and as the administrative entity overseeing service delivery and waiver programs. Based on the results of an accreditation review, a County Board is awarded an accreditation term of from one to three years.

Personnel providing TCM shall inform individuals, at least annually, of the right to choose from among all qualified providers and shall provide assistance, as needed, with the provider selection process in accordance with section OAC 5123:2-9-11. Individuals who wish to appeal a decision related to their HCBS services may request a state hearing in accordance with section 5101.35 of the Revised Code and Chapters 5101:6-1 to 5101:6-9 of the Administrative Code.

By March 1, 2020 no more than 30% of the individuals receiving case management through the county boards will also receive direct services through the county boards. To achieve this goal, the County Boards will continue to phase out their provision of direct services.

Annual benchmarks will be established for recruitment of sufficient providers in each county to safely meet the needs of all individuals requiring day services and for reducing the census of county board day programs. Annual benchmarks will be established in accordance with paragraph (D) of OAC 5123:2-9-11 for the recruitment of sufficient adult day, employment, and non-medical transportation providers. The county board shall establish and implement annual benchmarks for reducing the number of individuals for whom the county board provides adult day support, employment services, and non-medical transportation. Benchmarks are subject to approval by DODD. The county board shall report progress on achieving benchmarks to the department twice per year in accordance with the schedule and format established by the department.

The Ohio Department of Developmental Disabilities shall require county boards to establish annual benchmarks as
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development

**c. Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

(a) Each participant receives information and support from the SSA to direct and be actively engaged in the service plan development process. (OAC 5123:2-1-11) The DODD website publishes a variety of handbooks and brochures to assist participants and family members to understand HCBS waivers and the service planning process.

(b) The participant’s authority to determine who is included in the service planning process is specified in OAC 5123:2-1-11, Service and Support Administration. Rule 5123:2-1-11 states that an individual shall be responsible for making all decisions regarding the provision of services, and that even who have been adjudicated incompetent pursuant to Chapter 2111 of the Revised Code have the right to participate in the decisions that affect their lives. The rule also requires that the service planning process occur with the active participation of the individual to be served and other persons selected by him/her; that the ISP shall be reviewed and/or revised at the request of the individual; and that the individual will receive a complete copy of the ISP.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development

**d. Service Plan Development Process.** In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):
With the active participation of the individual and members of the individual’s team, the SSA shall initially, and at least every twelve months thereafter, coordinate assessment of the individual. The assessment shall take into consideration: a) what is important to the individual to promote satisfaction and achievement of desired outcomes; b) what is important for the individual to maintain health and welfare; c) known and likely risks; d) the individual’s place on the path to community employment; and e) what is working and not working in the individual’s life. The assessment shall also identify supports that promote the individual’s rights, self-determination, the individual’s physical, emotional, and material well-being, personal development, interpersonal relationships, and social inclusion.

The SSA shall explain to the individual services and supports funded by the waiver, alternative services available, the individual’s due process and appeal rights, and the individual’s right to choose any qualified and willing provider. The Individual Service Plan integrates all sources of services and supports, including natural supports and those funded through state plan or other resources. The Service and Support Administrator serves as the primary point of coordination.

Using person-centered planning, the SSA shall ensure the individual service plan reflects results of the assessment and includes services and supports that: a) ensure health and welfare; b) assist the individual to engage in meaningful and productive activities; c) support community connections and networking with others; d) assist the individual to improve self-advocacy skills and increase the opportunity to participate in self-advocacy activities; e) ensure achievement of and balance between outcomes that are important to and important for the individual; and f) include supports to prevent or minimize identified risks. The individual service plan shall also integrate all sources of services and supports, including natural supports and alternative services available to meet the individual’s needs and desired outcomes. The plan shall reflect services and supports that are consistent with efficiency, economy, and quality of care.

The SSA is responsible for developing a plan that corresponds to the individual’s funding range, as assessed and calculated by the standardized Ohio Developmental Disabilities Profile (ODDP). If a service plan that meets the individual’s health and welfare needs cannot be developed within the individual’s ODDP funding range, then the SSA is required to work with the individual to obtain prior authorization for a plan of care that will meet his/her needs.

The SSA shall review and revise the individual service plan at least every twelve months and more frequently under the following circumstances: a) at the request of the individual or a member of the team; b) whenever the individual’s assessed needs, situation, circumstances or status changes; c) if the individual chooses a new provider or type of service or support; d) as a result of the continuous review process of the individual service plan; e) identified trends and patterns of unusual or major unusual incidents; and f) when services are reduced, denied or terminated.

The SSA shall establish and maintain contact with the individual, providers, and natural supports, as frequently as necessary to ensure the desired outcomes of the individual are being met through the individual service plan. The SSA ensures the individual and all team members have a copy of the plan, as directed by the individual. Providers shall receive a copy at least 15 calendar days in advance of implementation unless extenuating circumstances make a 15-day advance copy impractical and the provider agrees. The SSA provides ongoing coordination of the plan to ensure services and supports are provided in accordance with the plan and to the benefit and satisfaction of the individual. Ohio Administrative Code 5123:2-1-11, which was effective 3/17/14, includes requirement for providers to sign the plan and for copies to be made available to providers at least 15 days in advance of implementation, unless extenuating circumstances make the 15-day advance copy impractical and the individual and providers agree to a delay.

The SSA shall also implement a continuous review process that is tailored to the individual to ensure the individual service plan is developed and implemented in accordance with OAC 5123:2-1-11. The scope, type, and frequency of reviews shall be specified in the individual service plan and shall include, but not be limited to face-to-face visits and contact via phone, email or other appropriate means, as needed. The SSA shall share results of reviews in a timely manner with the individual, providers, and others chosen by the individual, as applicable.

Appendix D: Participant-Centered Planning and Service Delivery

D-I: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.
The SSA is required to coordinate assessments after the initial request for services and at least annually thereafter to identify what is important for the individual to maintain health and welfare, as well as known and likely risks. The SSA is also required to review and revise the individual service plan if the individuals assessed needs change, as a result of the continuous review process, or upon identification of trends and patterns of unusual or major unusual incidents. If significant risks are identified, a formal risk assessment may be requested. The results of the risk assessment would be identified and needs would be addressed through person centered planning. The team, with active participation of the individual, would balance what is important to and important for the individual.

Certification requirements for independent and agency providers of homemaker/personal care services specify that a provider may only arrange for substitute coverage for an individual from the list of certified providers identified in the ISP and that the provider must notify the individual or legally responsible person in the event that substitute coverage of services is necessary. Several types of back-up plans may be used. In some cases a natural support could be utilized as a back-up. In other cases, other certified waiver providers would serve as a back-up provider. The team identifies possible back-up options and tailors the service plan to meet the needs of the individual.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

DODD ensures individuals have Free Choice of Provider through interviews and documentation reviews conducted during the accreditation review process. In accordance with OAC 5123:2-9-11 DODD assures the free choice of provider processes are adhered to and is intended to emphasize the right of individuals to choose any qualified provider of home and community-based services.

DODD maintains a current list of all qualified providers on its website. Annually the county board is required to provide to all individuals enrolled on the waiver a description of the individual’s right to choose any qualified provider from all those available statewide; the procedures that service and support administrators will follow to assist individuals in the selection of providers of home and community-based services; and a description of the information available on the website and instructions for accessing this information.

When an individual chooses a qualified provider who is willing to provide services to him/her, the service and support administrator assists the individual in making arrangements to initiate services with the chosen provider.

If an individual requires assistance to choose qualified providers the county board informs the individual of the list of qualified providers available on the DODD website; assists the individual to access the website information, if needed; assists the individual to obtain outcomes of past monitoring reviews of services provided by the qualified provider(s) whom the individuals wishes to consider, if requested, and contacts the preliminary provider(s) selected by the individual to determine the provider’s interest in providing services to the individual, unless the individuals wishes to contact the provider(s) directly.

To the extent that the individual requests assistance in the provider choice selection process, the service and support administrator follows the Provider Choice Process approved by DODD and ODM to facilitate communication, meetings, and information sharing between the individuals and qualified providers until the individual has selected a qualified provider. (OAC 5123:2-9-11)

The Free Choice of Provider rule requires that county boards annually provide consumers with information regarding the availability of alternate providers and how to access the list of all providers on the DODD website. This may be done at the service plan review for each person and/or can be a mass mailing to all individuals on an annual basis. Throughout the year communication between the SSA and individual would address this information as appropriate following the process specified in the Free Choice of Provider rule (OAC 5123:2-9-11). ODM ensures this during reviews and hearing requests and DODD ensures this as part of the accreditation review process. In addition if either department receives a complaint that this is not occurring, it can be reviewed on a case-by-case basis.
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

**g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency.** Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

Service and Support Administrators (SSA) develop services plans in accordance with OAC 5123:2-1-11. Changes to plans that result in a decrease in services or changes that result in an increase in the cost of services within the individual’s funding range are approved by the service and support administrator. Changes to plans that result in an increase in the cost of an individual’s services in excess of their funding range are approved by DODD. In addition, ODM monitors service planning activity through the quality performance measures, as well as periodic reviews. ODM also retains the right to review and modify service plans at any time.

The single State Medicaid Agency (ODM) assures the compliant performance of this waiver by: delegating specific responsibilities to the Operating Agency (DODD) through an interagency agreement; managing Medicaid provider agreements; establishing general Medicaid rules; approving the Operating Agency’s program-specific rules related to Medicaid requirements; processing claims for federal reimbursement, conducting audits; conducting post-payment review of Medicaid claims; monitoring the compliance and effectiveness of the Operating Agency’s operations; leading the development of quality improvement plans; and facilitating interagency data-sharing and collaboration.

Responsibilities delegated to the Operating Agency include: assuring compliant and effective case management for applicants and waiver participants by county boards of developmental disabilities; managing a system for participant protection from harm; certifying particular types of waiver service providers; assuring compliance of non-licensed providers; assuring that paid claims are for services authorized in individual service plans; setting program standards/expectations; monitoring and evaluating local administration of the waiver; providing technical assistance; facilitating continuous quality improvement in the waiver’s local administration; and more generally, ensuring that all waiver assurances are addressed and met for all waiver participants. These requirements are articulated in an interagency agreement which is reviewed and re-negotiated at least every two years.

Requirements to comply with federal assurances are also codified in state statute and administrative rules, and clarified in procedure manuals. While some rules and guidelines apply narrowly to specific programs administered by the operating agency, other rules promulgated by ODM authorize those rules or guidelines, establish overarching standards for Medicaid programs, and further establish the authority and responsibility of ODM to assure the federal compliance of all Medicaid programs.

Participants can request a State Hearing regarding plans of care and ODM has general authority to provide oversight of the Operating Agency actions regarding the waiver, which includes plans of care.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

**h. Service Plan Review and Update.** The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- [ ] Every three months or more frequently when necessary
- [ ] Every six months or more frequently when necessary
- [x] Every twelve months or more frequently when necessary
- [ ] Other schedule

*Specify the other schedule:*

06/17/2019
i. **Maintenance of Service Plan Forms.** Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- [ ] Medicaid agency
- [ ] Operating agency
- [ ] Case manager
- [x] Other

Specify:

Copies of service plans are maintained by the local County Board of Developmental Disabilities and are available upon request.

---

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

**a. Service Plan Implementation and Monitoring.** Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The SSA is responsible for monitoring the implementation of the service plan in accordance with OAC 5123:2-1-11 in order to verify the health, safety and welfare of the individual; consistent implementation of services; achievement of the desired outcomes for the individual as stated in the service plan; and individual's service plan is reviewed at least annually and more often should the needs of the individual change. This on-going monitoring is tailored to the individual and occurs through regular interaction with the individual and his or her provider(s). The scope, type, and frequency of reviews are specified in the individual service plan.

DODD monitors service plan implementation through the provider compliance and accreditation review processes. Reviewing service plan documentation and the corresponding service plans is one component of the accreditation and provider compliance review processes conducted by DODD field review staff.

Reviewing service plans and the monitoring activities of SSAs is one component of the accreditation review process. Accreditation reviews are scheduled at least once every three years based on the term of the county board's accreditation award. A county board may be accredited for one to three years based on the outcome of their review.

Provider compliance reviews are scheduled at least once every three years for each provider who has actively billed during the last calendar year and is providing services in an unlicensed setting. Special reviews for each review process are conducted based on requests and/or complaints received from individuals and family members, advocates, other stakeholders, and concerned citizens. County Boards cannot complete compliance reviews of day services while providing day services. This function can only be performed by DODD. DODD and ODM shall regularly communicate with one another regarding all Transitions DD Waiver provider reviews that are conducted.

**b. Monitoring Safeguards.** Select one:

- ☐ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- ☐ Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:
Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
PM D1: Number and percent of participants whose service plans address their assessed needs, including health and safety risk factors, and personal goals.

Numerator: Number of participants whose service plans address their assessed needs, including health and safety risk factors, and personal goals.

Denominator: Total number of participants service plans reviewed.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

   DODD becomes aware of problems through a variety of mechanisms including, but not limited to, formal & informal complaints, technical assistance requests, and routine & special regulatory review processes (accreditation, licensure, provider compliance, quality assurance, etc). As problems are discovered, the individual CBDD is notified and technical assistance is provided using email, phone contact and/or letters to the CBDD Superintendent. During the DODD regulatory review process citations may be issued and plans of correction required as needed and appropriate. When issues are noted that are systemic, DODD will provide statewide training and additional technical assistance and monitor for improvement during subsequent monitoring cycles.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

Frequency of data aggregation and analysis (check each that applies):

- Continuously and Ongoing

Other

Specify:

Semi-annually

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

- No
- Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

- Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.
- No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- Yes. The state requests that this waiver be considered for Independence Plus designation.
- No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.
This waiver includes many opportunities for participants to control and manage their supports and services by allowing the participant to:

- Develop a person-centered plan that ensures health and welfare (with assistance from the Service and Supports Administrator (SSA))
- Negotiate rates within a range for applicable services
- Serve as the employer of record
- Recruit, hire, and manage providers
- Establish work schedules
- Train and supervise providers
- Discharge providers when necessary
- Participate in the development and implementation of a backup/emergency plan

Individuals who require homemaker/personal care services may elect to direct that service by choosing participant-directed homemaker/personal care through their person-centered planning process. Each person’s service and support administrator is responsible for sharing this option with individuals and providing information necessary to support individuals with making an informed choice regarding engaging in participant-direction.

The entities involved in supporting participant direction include any representative designated by the individual, the individual’s service and support administrator and the financial management service.

Appendix E-1f specifies that an individual may choose a legal or non-legal representative to direct waiver services. Unless otherwise limited by the individual, the non-legal representative may exercise direction of the ISP, selection of residence and providers, and negotiation of rates.

Appendix E-1e identifies the role of the SSA in sharing information to inform individuals of the rights and responsibilities associated with choosing participant-directed services.

Appendix E-1i identifies the scope of supports provided by the FMS, including verifying support worker citizenship status, collecting/processing timesheets, processing payroll, disbursing funds for the payment of participant-directed services, and providing periodic reports of expenditures.

### Appendix E: Participant Direction of Services

| c. Availability of Participant Direction by Type of Living Arrangement. Check each that applies: |
|---|---|
| ☑ Participant direction opportunities are available to participants who live in their own private residence or the home of a family member. |
| ☑ Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor. |
| ☐ The participant direction opportunities are available to persons in the following other living arrangements |
Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (select one):

- Waiver is designed to support only individuals who want to direct their services.
- The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
- The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

Individuals who require homemaker/personal care services have the opportunity to direct that service by choosing participant-directed homemaker/personal care services.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

Training materials created as a means to inform the participant about the rights, responsibilities and services available under this waiver. This information is available on DODD’s website and will be given to the participant by the SSA prior to selection of participant-directed homemaker/personal care services to ensure the participant understands the responsibilities associated with participant-direction. This information will also be revisited with the participant by the SSA at least annually when the ISP is reviewed and revised.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (select one):

- The state does not provide for the direction of waiver services by a representative.
- The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

- Waiver services may be directed by a legal representative of the participant.
Waiver services may be directed by a non-legal representative freely chosen by an adult participant. Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

The participant who wishes to designate a non-legal representative/designee would do so by signing a form. A power of attorney may be used for this. Unless otherwise limited by the participant, the non-legal representative/designee would have direction over the ISP, selection of residence and providers, and negotiation of rates. If the participant objects to a decision made by the non-legal representative/designee, the participant’s decision prevails. The participant may revoke the designation at any time, and the revocation should be in writing.

The non-legal representative/designee cannot be a provider, nor can they be employed by a county board, or a provider, or a contractor of either. The ISP process, along with the involvement of the SSA, will provide the mechanism for ensuring decisions are made in the best interests of the participant. Safeguards include the participation and watchfulness of the service and support administrator as would be expected in their roles.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. Select one:

- Yes. Financial Management Services are furnished through a third party entity. (Complete item E-1-i).

Specify whether governmental and/or private entities furnish these services. Check each that applies:

- Governmental entities
- Private entities

- No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used. Do not complete Item E-1-i.

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. Select one:

- FMS are covered as the waiver service specified in Appendix C-1/C-3
The waiver service entitled:

☑️ FMS are provided as an administrative activity.

Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

The entity who provides the FMS service is a statewide FMS vendor that was selected via a competitive bidding request for proposals (RFPs) process which DODD participated in.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

The FMS will be paid as monthly fee per participants as part of their contract with the state.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (check each that applies):

<table>
<thead>
<tr>
<th>Supports furnished when the participant is the employer of direct support workers:</th>
</tr>
</thead>
<tbody>
<tr>
<td>☒ Assist participant in verifying support worker citizenship status</td>
</tr>
<tr>
<td>☒ Collect and process timesheets of support workers</td>
</tr>
<tr>
<td>☒ Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance</td>
</tr>
<tr>
<td>☐ Other</td>
</tr>
<tr>
<td>Specify:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Supports furnished when the participant exercises budget authority:</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Maintain a separate account for each participant’s participant-directed budget</td>
</tr>
<tr>
<td>☐ Track and report participant funds, disbursements and the balance of participant funds</td>
</tr>
<tr>
<td>☐ Process and pay invoices for goods and services approved in the service plan</td>
</tr>
<tr>
<td>☐ Provide participant with periodic reports of expenditures and the status of the participant-directed budget</td>
</tr>
<tr>
<td>☐ Other services and supports</td>
</tr>
<tr>
<td>Specify:</td>
</tr>
</tbody>
</table>

Additional functions/activities:

| ☐ Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency |
| ☒ Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency |
iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

DODD monitors and assesses the performance of the FMS in the following ways:

- Annual reviews conducted by DODD Audit staff or by a contract with an audit agency that review a representative sample of participant files including all fiscal and financial records.
- Expenditures are reviewed for being allowed under the waiver and Ohio Administrative Code, and whether expenditures are accurately and appropriately assigned and reported.
- All expenditures are reported monthly to DODD from the FMS. DODD staff identifies inconsistencies based on information including utilization, individual budgets, expenditures, dates of service, waiver enrollment date and then follow up with FMS staff to see correction of errors.
- The FMS will be required by contract to comply with applicable audit requirements and responsibilities of the Office of Management and Budget (OMB) Circular A-133.
- On a quarterly basis, DODD will review the timeliness of processing payroll and payment of other invoices by the FMS.
- Periodically, DODD will randomly select a number of provider files maintained by the FMS to verify qualifications of these providers.
- At the end of the first year, DODD will review all systems and practices to confirm compliance with the contract and Medicaid regulations.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

j. Information and Assistance in Support of Participant Direction. In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (check each that applies):

- **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

  Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:
The waiver participant's Service and Supports Administrator (SSA) and the FMS entity are responsible for supporting the waiver individual in exercising employer authority under the waiver.

The information and assistance supports are case management activities of the County Board SSA and the State contracts with an FMS vendor to furnish the services statewide.

The SSA provides the support to the participant in gaining knowledge of the responsibilities of self direction, hiring and training their direct service workers including the completion of IRS and State workers compensation forms, developing the person centered care plan, service plans, and the associated service budgets.

The SSA provides support to participant through education and training sessions with the participant/authorized representative prior to waiver enrollment.

The SSA provides support to the participant/representative through the provision of a participant’s reference manual for support with the duties of being the employer of record. The reference manual provides information on hiring, firing, and training workers. It will also contain forms to assist the participant with tracking worker’s time sheets.

The FMS agency provides support to the participant through assistance with completion of IRS and State workers compensation forms, and performance of payroll functions.

The oversight of the participant-directed service delivery method is the shared responsibility of DODD and the State Medicaid agency.

- **Waiver Service Coverage.**

Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

**E-1: Overview (10 of 13)**

**k. Independent Advocacy** *(select one).*

- ☐ No. Arrangements have not been made for independent advocacy.
- ☐ Yes. Independent advocacy is available to participants who direct their services.

*Describe the nature of this independent advocacy and how participants may access this advocacy:*

---
Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

1. Voluntary Termination of Participant Direction. Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:

If a participant chooses to voluntarily terminate self-directed services, the SSA will assist the participant in order to responsibly transfer the participant to traditional community-based services and the individual and their SSA will devise and implement a transition plan that will assure the individual’s health and welfare is not put in jeopardy if an individual decides they no longer want to direct their services.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

If the participant’s health and welfare can no longer be assured, the participant may be involuntarily terminated from self-directed services. The SSA will assist the participant in order to responsibly transfer the participant to traditional community-based services.

When a participant is involuntarily terminated from the use of participant-direction, they will be offered fair hearing rights and provided with an explanation of how to access these rights.

The SSA is required to implement a transition plan in the case of an individual’s involuntary termination of participant direction.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)
a. Participant - Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. Participant Employer Status. Specify the participant's employer status under the waiver. Select one or both:

- [ ] Participant/Co-Employer. The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

  Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

  - [ ]

- [x] Participant/Common Law Employer. The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. Select one or more decision making authorities that participants exercise:

- [x] Recruit staff
- [ ] Refer staff to agency for hiring (co-employer)
- [x] Select staff from worker registry
- [x] Hire staff common law employer
- [x] Verify staff qualifications
- [x] Obtain criminal history and/or background investigation of staff

  Specify how the costs of such investigations are compensated:

  Provider applicants incur the expenses of the background (BCII) check.

  Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.

  Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

- [x] Determine staff duties consistent with the service specifications in Appendix C-1/C-3.
- [x] Determine staff wages and benefits subject to state limits
- [x] Schedule staff
- [x] Orient and instruct staff in duties
- [x] Supervise staff
- [x] Evaluate staff performance
- [x] Verify time worked by staff and approve time sheets
- [x] Discharge staff (common law employer)
Discharge staff from providing services (co-employer)
Other
Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. Select one or more:

- Reallocate funds among services included in the budget
- Determine the amount paid for services within the state's established limits
- Substitute service providers
- Schedule the provision of services
- Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
- Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
- Identify service providers and refer for provider enrollment
- Authorize payment for waiver goods and services
- Review and approve provider invoices for services rendered
- Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.
Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

iii. Informing Participant of Budget Amount. Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

iv. Participant Exercise of Budget Flexibility. Select one:

- Modifications to the participant directed budget must be preceded by a change in the service plan.
- The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

Answers provided in Appendix E-1-b indicate that you do not need to complete this section.

v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:
Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

At the time of application for benefits, the individual or authorized representative is informed, in writing of the right to a state hearing, of the method by which a state hearing may be requested and that the case may be presented by an authorized representative, such as legal counsel, relative, friend, or other spokesperson. Individuals receive an “Explanation of State Hearing Procedures,” JFS 04059(rev 4/2005), or its computer-generated equivalent, to provide this notice in accordance with rule 5101:6-2-01 of the Ohio Administrative Code.

Applicants for Individual Options waiver enrollment and waiver enrollees who are affected by any decision made to approve, reduce, suspend deny or terminate enrollment or to deny the choice of a qualified and willing provider or to change the level and/or type of waiver service delivered, including any changes made to the individual service plan, shall be afforded medicaid due process. All waiver enrollees receive prior notice for any adverse action proposed. This notice includes the right to a state hearing and an explanation of the hearing procedures and is either generated manually by county boards or electronically by county departments of job and family services. Each agency retains copies of notices issued.

The individual must call or write their local county agency or write the Ohio Department of Job and Family Services (ODJFS), Office of Legal Services, Bureau of State Hearings (BSH). A hearing request must be received within 90 days of the mailing date of the notice of action.

DODD assures participation through an agency representative (DODD and/or county board of dd) pursuant to OAC 5101:6-6-02 at hearings requested by applicants, enrollees and disenrolled individuals of the Individual Options waiver.

Individuals who request hearings are notified about the action to be taken regarding the hearing request and are informed of the date, time, and location of the hearing at least ten days in advance. Services proposed to be reduced or terminated must be continued at the same level when the hearing is requested within fifteen days of the mailing date on the notice. Hearing decisions are rendered no later than 90 days after the hearing request. When agency compliance with a hearing decision is required, it must be acted upon within fifteen calendar days of the decision or within 90 days of request for hearing, whichever is first. Individuals are informed in writing of the hearing decision and are notified of the right to request an administrative appeal if they disagree with the hearing decision. The administrative appeal process is defined in rule 5101:6-8-01 of the Ohio Administrative Code.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:

- ☐ No. This Appendix does not apply
- ☑ Yes. The state operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a
participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Appendix F: Participant-Rights
Appendix F-3: State Grievance/Complaint System

a. Operation of Grievance/Complaint System. Select one:

☐ No. This Appendix does not apply
☒ Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

DODD

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

DODD receives and acts upon complaints in a variety of ways. DODD’s Major Unusual Incident/Registry Unit receives complaints through a toll-free number for reporting abuse/neglect and other MUIs. Complaints are also received via email and U.S. mail. Each complaint received is logged and acted upon the same or next day and followed up until the issue is resolved. Some calls result in MUIs while other calls are assorted complaints which are referred to other department staff, county boards, or outside entities such as the Department of Health. These include medical, behavior, environmental and other miscellaneous subjects. Managers in the MUI/Registry Unit recommend closure when the issue has been resolved. The case is then closed by unit supervisors.

DODD employs a Family Advocate who works with families to provide technical assistance, including addressing complaints.

DODD Provider Standards and Review will follow up on any complaints regarding County Boards or certified waiver providers. This could result in citations being issued. Citations require a plan of correction that must be approved by DODD. Individuals may also contact their SSA to voice any concerns or complaints. Each County Board is required to have a complaint resolution process.

None of the above complaint resolution processes may be used in place of or to delay a Medicaid state hearing. As an alternative dispute resolution process that does not involve a decision by the SSA or County Board, Individuals who wish to appeal a decision related to their Home and Community-based services may request a state hearing in accordance with section 5101.35 of the Revised Code and Chapters 5101:6-1 to 5101:6-9 of the Administrative Code.

Appendix G: Participant Safeguards
Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program. Select one:
Yes. The state operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)

☐ No. This Appendix does not apply (do not complete Items b through e)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

"Major Unusual Incident" means the alleged, suspected, or actual occurrence of an incident when there is reason to believe the incident has occurred. Major unusual incidents (MUIs) include the following:
1. Accidental or Suspicious death
2. Attempted Suicide
3. Death other than accidental or suspicious death
4. Exploitation
5. Failure to report
6. Law enforcement
7. Medical emergency
8. Misappropriation
9. Missing individual
10. Neglect
11. Peer-to-peer acts
12. Physical abuse
13. Prohibited sexual relations
14. Rights code violation
15. Significant injury
16. Sexual abuse
17. Unapproved behavioral support
18. Unanticipated Hospitalization
19. Verbal abuse

Required Reporters:
County Boards of Developmental Disabilities (County Boards)
Ohio Department of Developmental Disabilities (DODD)
DODD operated Developmental Centers
All Developmental Disabilities Waiver providers
All Developmental Disabilities DD licensed or certified providers
Developmental Disabilities employees providing specialized services

Reporting Methods and Timeframes
The timeframe for reporting abuse, neglect, misappropriation, exploitation, and suspicious or accidental death is immediate to four (4) hours. The remaining MUIs must be reported no later than three p.m. the next working day. DODD is notified by the county board through the Incident Tracking System by three p.m. on the working day following notification by the provider or becoming aware of the MUI.

Immediate action to protect the individual(s) is taken by the provider and ensured by the county board. Notifications are made immediately to law enforcement for alleged criminal acts and to Children's Services if the individual is under 22.

Reference Rule: OAC 5123-17-02

06/17/2019
c. **Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

**d. Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.
The County Board of DD's Major Unusual Incident Unit receives reports of critical incidents from providers, families, and county board operated programs. This Unit is responsible for determining if it meets the criteria of a Major Unusual Incident, ensuring immediate actions have been taken to protect the individual(s), making notifications, and initiating the investigation for all Major Unusual Incidents.

Investigations into allegations of abuse, neglect, misappropriation, exploitation, and suspicious or accidental deaths are initiated within 24 hours. For all other MUIs the investigation is initiated within a reasonable amount of time based on the initial information received and consistent with the health and safety of the individual(s) but no later than three (3) working days. All investigations are to be completed within 30 working days unless extensions are granted by DODD based upon established criteria.

Reference Rule: OAC 5123-17-02.

Ohio Department of Medicaid (ODM) Health and Welfare Section

Alert Process Summary

One way ODM assures that the health and safety needs of individuals enrolled on DODD HCBS waivers are adequately addressed is by the ODM health and welfare section monitoring the progress and contributing to the investigatory process by mandated state agencies for certain incidents that impacted those individuals. Those incidents include but not limited to incidents of alleged neglect or abuse resulting in ER treatment or removal by law enforcement; suspicious, unusual, accidental deaths, and misappropriations valued at over $500.

ODM is made aware of these incidents through various means including: notification by DODD, discovered during other ODM oversight activities, contacted by other agencies, media sources, stakeholders and citizens.

The monitoring is completed by viewing the report and all investigation updates recorded in DODDs Incident Tracking System (ITS) and other DODD and ODM electronic sources. Inquires and concerns by ODM regarding any aspect of the investigation process/progress are added to the report by DODD with timelines for responses included.

Prior to ODM considering a case closed members ensure if the steps taken to assure the immediate health and safety of the individual(s) involved in the incident are and continue to be adequate; that appropriate notification was made to law enforcement, childrens services, guardians, other appropriate agencies and parties; that all of the causes and contributing factors are identified, and are adequately remedied and/or addressed in the prevention plans; and that all questions by all parties have been answered, that the recommendations and prevention plans have been implemented/completed.

Participants and other relevant parties are notified in writing of the outcome as outlined in OAC 5123-17-02 no later than five working days following the County Board's or DODD's recommendation via the Incident Tracking System that the report be closed.

After the initial review the progress of the incident investigations are evaluated through a review.

If during the process of getting a Directors Alert MUI case to closure it becomes apparent the efforts to provide for the waiver recipient(s) health or welfare are not being assured for any reason, ODM will address those issues through the Adverse Outcome process describe in Appendix A.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.
DODD reviews all initial MUI/Registry Unit incident reports to ensure the health and safety of individuals. All substantiated reports of abuse, neglect, and misappropriation involving staff are reviewed. Other incidents are reviewed as deemed necessary to ensure the health and safety of individuals.

DODD MUI/Registry Unit conducts assessments of county boards of dd to ensure the following:

- Appropriate reporting
- Immediate actions
- Appropriate notifications
- Thorough investigations
- Preventative measures to address the cause and contributing facts
- Trend and Pattern analysis and remediation
- Appropriate reporting of unusual incidents (local reporting)
- Training requirements

MUI Assessments are conducted based on the performance of the County Board but at least on a three (3) year cycle. Triggers are identified which could result in the assessment being done sooner.

There is an MUI assessment that is part of the Accreditation review; however, the MUI division also conducts their own 3-year performance-based cycle of reviews (which are separate from the Accreditation reviews) based on the MUI division's assessment of a county board's performance. For example: If, in 2014, the MUI assesses the county board and the county board is eligible for a 3-year MUI review based on their performance, but there is an Accreditation review scheduled in 2015, the MUI team would still return in 2015 for another assessment along with the Accreditation team.

MUI Trend and Pattern analyses and remediation is done twice a year by providers and county boards. DODD reviews all analyses completed by county boards and samples those completed by providers. County Boards are responsible for reviewing the analyses for providers in their county.

DODD MUI/Registry Unit flags serious or egregious incidents as Director's Alerts. These cases are closely monitored for a thorough investigation and good prevention planning. Examples include accidental or suspicious deaths, neglect or physical abuse resulting in serious injuries or death, missing persons with high risk, serious unknown injuries and others as deemed appropriate.

DODD holds a quarterly Mortality Review Committee compiled of stakeholders, including ODM, to review deaths for the purpose of or licensing boards. In addition, the committee looks at causes of deaths and what steps might be taken to educate the field on the causes.

A statewide Trend and Pattern Committee, made up of stakeholders, including ODM, meets twice a year to review statewide trends and patterns along with activities and initiatives being taken by DODD in regards to health and safety.

DODD’s MUI/Registry Unit conducts annual, in-depth analysis on Abuse, Neglect, and Misappropriation to determine who, what types, root causes, and provides interventions to reduce reoccurrences. This is communicated through Alerts and during annual trainings.

DODD’s MUI/Registry Unit notifies the county board of individual trends and requires the county board to identify what action will be implemented to address the trends.

DODD works in conjunction with Office of Provider Standards and Review (OPSR) when trends and patterns are noted with a particular provider.

ODM Health and Welfare Section Additional Oversight Responsibilities:

1. Participate in DODD’s semi-annual Trends and Patterns Committee
2. Participate in DODD’s quarterly Mortality Review Committee
Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

The state does not permit or prohibits the use of restraints

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

بيب The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The State of Ohio has in place a “Behavioral Support Strategies that Include Restrictive Measures” (5123:2-2-06) (Behavior Support Rule) that regulates the use of all restraints (including manual, mechanical, and chemical). Safeguards and protocols in the rule include:

• Behavior support strategies that include restrictive measures (including restraint) may only be used as a last resort when necessary to keep people safe and with informed consent of the person and prior approval by a human rights committee;
• A list of prohibited measures, including: prone restraint; use of manual or mechanical restraint that causes pain or harm; using any restrictive measure for punishment, retaliation, instruction or teaching, convenience of providers, or substitute for services;
• A comprehensive assessment process that takes into consideration a person’s: interpersonal, environmental, medical, mental health, and emotional needs and other motivational factors;
• Requirements for people who are conducting and developing behavior support strategies that include restrictive measures;
• Behavior support strategies that include restrictive measures shall be designed in a manner that promotes healing, recovery, and emotional well-being; be data-driven; recognize the role of environment; capitalize on strengths; delineate measures to be implemented and those responsible for implementation; specify steps to be taken to ensure the safety of the individual and others;
• Behavior support strategies that include restrictive measures shall be implemented with sufficient safeguards and supervision to ensure the health, welfare and rights of individuals receiving specialized services and anyone serving the individual must be trained on the strategy prior to serving;
• Shall be reviewed at least every 90 days;
• All County Boards must have a human rights committee to safeguard individual’s rights and protect individuals from physical, emotional, and psychological harm – their role and responsibility is clearly defined in the Behavior Support Rule;
• Use of restrictive measures without prior approval by the human rights committee must be reported as an “unapproved behavior support”;
• DODD must be notified after approval of the human rights committee and prior to implementation of all behavior support strategies that include restrictive measures;
• All County Boards must collect and analyze data regarding behavior support strategies that include restrictive measures and furnish data to their human rights committee.
ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

DODD is responsible for overseeing the use of restraints. The following specifies how the oversight is conducted:

- After approval by the human rights committee and prior to implementation, a County Board must complete and submit the “Restrictive Measure Notification” form electronically to DODD (Note: DODD does not use the notification system as a means to approve plans, the approval of plans that include restrictive measures occurs at the local level. The notification system is used to collect and monitor data for trends and patterns, provide oversight, and to identify cases where technical assistance may be needed.) The notification must be submitted initially, when revised or renewed, and (optionally) when discontinued.

- DODD may select a sample of behavior support strategies for additional review to ensure that the strategies are developed and implemented, and monitored in accordance with this rule.

- DODD shall take immediate action, as necessary, to protect the health and safety of individuals served.

- DODD shall compile and analyze data regarding the use of behavior support strategies throughout the state for the purposes of determining methods for enhancing risk reduction efforts and outcomes, reducing the frequency of restrictive measures, and identifying technical assistance and training needs.

- DODD conducts both MUI, and regular regulatory reviews (Accreditation, Licensure, & Provider Compliance Reviews) to ensure consistent and routine reviews of behavior support policies and procedures that are in place for individuals.

The rule Addressing Major Unusual Incidents and Unusual Incidents to Ensure Health, Welfare and Continuous Quality Improvement, and the Behavior Support Rule requires an MUI to be filed when there is an unapproved behavior support. The system has required fields that must be completed plus the intake staff at DODD follow-up on any reports that are incomplete. If an unreported incident is identified during the course of the review or as a part of a complaint received, an MUI is filed, a citation is issued, and a plan of correction is required.

When ODM discovers a case of the improper or unauthorized use of restraint(s) and restrictive intervention(s) that have not yet been reported through DODD ITS system the case is reported to the proper DODD parties. Additionally, that case will be processed through the Adverse Outcome process described in Appendix A in order to ensure that the waiver recipient's health or welfare are being assured.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (Select one):

- The state does not permit or prohibits the use of restrictive interventions

  Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other
individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

The State of Ohio has in place a “Behavioral Support Strategies that Include Restrictive Measures” (5123:2-2-06) (Behavior Support Rule) that regulates the use of all restrictive measures. Safeguards and protocols in the rule include:

- Behavior support strategies that include restrictive measures may only be used as a last resort when necessary to keep people safe, and in the case of rights restrictions, when an individual’s actions may result in legal sanction. The strategies require informed consent of the person and prior approval by a human rights committee;
- A list of prohibited measures, including: prone restraint; use of manual or mechanical restraint that causes pain or harm; using any restrictive measure for punishment, retaliation, instruction or teaching, convenience of providers, or substitute for services;
- A comprehensive assessment process that takes into consideration a person’s: interpersonal, environmental, medical, mental health, and emotional needs and other motivational factors;
- Requirements for people who are conducting and developing behavior support strategies that include restrictive measures;
- Behavior support strategies that include restrictive measures shall be designed in a manner that promotes healing, recovery, and emotional well-being; be data-driven; recognize the role of environment; capitalize on strengths; delineate measures to be implemented and those responsible for implementation; specify steps to be taken to ensure the safety of the individual and others;
- Behavior support strategies that include restrictive measures shall be implemented with sufficient safeguards and supervision to ensure the health, welfare and rights of individuals receiving specialized services and anyone serving the individual must be trained on the strategy prior to serving;
- Shall be reviewed at least every 90 days;
- All County Boards must have a human rights committee to safeguard individual’s rights and protect individuals from physical, emotional, and psychological harm – their role and responsibility is clearly defined in the Behavior Support Rule;
- Use of restrictive measures without prior approval by the human rights committee must be reported as an “unapproved behavior support”;
- DODD must be notified after approval of the human rights committee and prior to implementation of all behavior support strategies that include restrictive measures;
- All County Boards must collect and analyze data regarding behavior support strategies that include restrictive measures and furnish data to their human rights committee.

**ii. State Oversight Responsibility.** Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:
DODD is responsible for overseeing the use of restrictive interventions. The following specifies how the oversight is conducted:

• After approval by the human rights committee and prior to implementation, a County Board must complete and submit the “Restrictive Measure Notification” form electronically to DODD (Note: DODD does not use the notification system as a means to approve plans, the approval of plans that include restrictive measures occurs at the local level. The notification system is used to collect and monitor data for trends and patterns, provide oversight, and to identify cases where technical assistance may be needed.) The notification must be submitted initially, when revised or renewed, and (optionally) when discontinued.

• DODD may select a sample of behavior support strategies for additional review to ensure that the strategies are developed and implemented, and monitored in accordance with this rule.

• DODD shall take immediate action, as necessary, to protect the health and safety of individuals served.

• DODD shall compile and analyze data regarding the use of behavior support strategies throughout the state for the purposes of determining methods for enhancing risk reduction efforts and outcomes, reducing the frequency of restrictive measures, and identifying technical assistance and training needs.

• DODD conducts both MUI, and regular regulatory reviews (Accreditation, Licensure, & Provider Compliance Reviews) to ensure consistent and routine reviews of behavior support policies and procedures that are in place for individuals.

The rule on Addressing Major Unusual Incidents and Unusual Incidents to Ensure Health, Welfare and Continuous Quality Improvement and the Behavior Support Rule requires an MUI to be filed when there is an unapproved behavior support. The system has required fields that must be completed plus the intake staff at DODD follow-up on any reports that are incomplete. If an unreported incident is identified during the course of the review or as a part of a complaint received, an MUI is filed, a citation is issued, and a plan of correction is required.

When ODM discovers a case of the improper or unauthorized use of restraint(s) and restrictive intervention(s) that have not yet been reported through DODD ITS system the case is reported to the proper DODD parties. Additionally, that case will be processed through the Adverse Outcome process described in Appendix A in order to ensure that the waiver recipient's health or welfare are being assured.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. (Select one): *(This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)*

☐ The state does not permit or prohibits the use of seclusion

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

☐ The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
The State of Ohio has in place a “Behavioral Support Strategies that Include Restrictive Measures” (5123:2-2-06) (Behavior Support Rule) that regulates the use of all restrictive measures, including “Time Out.” Safeguards and protocols in the rule include:

- Behavior support strategies that include restrictive measures (including Time Out) may only be used as a last resort when necessary to keep people safe and with informed consent of the person and prior approval by a human rights committee;
- A list of prohibited measures, including: prone restraint; use of manual or mechanical restraint that causes pain or harm; using any restrictive measure for punishment, retaliation, instruction or teaching, convenience of providers, or substitute for services;
- Time Out may not exceed 30 minutes for any incident or 1 hour in a 24 hour period; may not be key-locked; shall be adequately lighted and ventilated and provide a safe environment for the person;
- An individual in a time-out room or area must be protected from hazardous conditions, shall be under constant visual supervision, and time out shall cease immediately once risk of harm has passed or the individual engages in self-abuse, becomes incontinent, or shows other signs of illness;
- A comprehensive assessment process that takes into consideration a person’s: interpersonal, environmental, medical, mental health, and emotional needs and other motivational factors;
- Requirements for people who are conducting and developing behavior support strategies that include restrictive measures;
- Behavior support strategies that include restrictive measures shall be designed in a manner that promotes healing, recovery, and emotional well-being; be data-driven; recognize the role of environment; capitalize on strengths; delineate measures to be implemented and those responsible for implementation; specify steps to be taken to ensure the safety of the individual and others;
- Behavior support strategies that include restrictive measures shall be implemented with Use of restrictive measures without prior approval by the human rights committee must be reported as an “unapproved behavior support”;
- DODD must be notified after approval of the human rights committee and prior to implementation of all behavior support strategies that include restrictive measures;
- All County Boards must collect and analyze data regarding behavior support strategies that include restrictive measures and furnish data to their human rights committee.
- Sufficient safeguards and supervision to ensure the health, welfare and rights of individuals receiving specialized services and anyone serving the individual must be trained on the strategy prior to serving;
- Shall be reviewed at least every 90 days;
- All County Boards must have a human rights committee to safeguard individual’s rights and protect individuals from physical, emotional, and psychological harm – their role and responsibility is clearly defined in the Behavior Support Rule.

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:
DODD is responsible for overseeing the use of restrictive interventions, including seclusion (“time out”). The following specifies how the oversight is conducted:

• After approval by the human rights committee and prior to implementation, a County Board must complete and submit the “Restrictive Measure Notification” form electronically to DODD (Note: DODD does not use the notification system as a means to approve plans, the approval of plans that include restrictive measures occurs at the local level. The notification system is used to collect and monitor data for trends and patterns, provide oversight, and to identify cases where technical assistance may be needed.) The notification must be submitted initially, when revised or renewed, and (optionally) when discontinued.

• DODD may select a sample of behavior support strategies for additional review to ensure that the strategies are developed and implemented, and monitored in accordance with this rule.

• DODD shall take immediate action, as necessary, to protect the health and safety of individuals served.

• DODD shall compile and analyze data regarding the use of behavior support strategies throughout the state for the purposes of determining methods for enhancing risk reduction efforts and outcomes, reducing the frequency of restrictive measures, and identifying technical assistance and training needs.

• DODD conducts both MUI, and regular regulatory reviews (Accreditation, Licensure, & Provider Compliance Reviews) to ensure consistent and routine reviews of behavior support policies and procedures that are in place for individuals.

The rule on Addressing Major Unusual Incidents and Unusual Incidents to Ensure Health, Welfare and Continuous Quality Improvement and the Behavior Support Rule requires an MUI to be filed when there is an unapproved behavior support. The system has required fields that must be completed plus the intake staff at DODD follow-up on any reports that are incomplete. If an unreported incident is identified during the course of the review or as a part of a complaint received, an MUI is filed, a citation is issued, and a plan of correction is required.

When ODM discovers a case of the improper or unauthorized use of restraint(s) and restrictive intervention(s) that have not yet been reported through DODD ITS system the case is reported to the proper DODD parties. Additionally, that case will be processed through the Adverse Outcome process described in Appendix A in order to ensure that the waiver recipient's health or welfare are being assured.

---

**Appendix G: Participant Safeguards**

**Appendix G-3: Medication Management and Administration (1 of 2)**

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. **Applicability.** Select one:

- ☐ No. This Appendix is not applicable *(do not complete the remaining items)*
- ☑ Yes. This Appendix applies *(complete the remaining items)*

b. **Medication Management and Follow-Up**

i. **Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.
Individual medication management and follow up is the responsibility of the physician, clinical nurse specialist, psychiatrist or other prescribing authority. These various health care professionals determine the need to monitor and follow up based on the individual’s diagnoses, individual’s medication regimen and stability of the individual being served. In addition, a quality assessment is completed for each individual receiving administration of prescribed medications, performance of health-related activities, and/or tube feedings at least once every three years or more frequently if needed (see OAC 5123:2-6-07). The quality assessment includes:

- Observation of administering prescribed medication or performing health-related activities;
- Review of documentation of prescribed medication administration and health-related activities for completeness of documentation and for documentation of appropriate actions taken based on parameters provided in prescribed medication administration and health-related activities training;
- Review of all prescribed medication errors from the past twelve months;
- Review of the system used by the employer or provider to monitor and document completeness and correct techniques used during oral and topical prescribed medication administration and performance of health related activities.

Plans that incorporate medication for behavior control is prohibited unless it is prescribed by and under the supervision of a licensed physician who is involved in the interdisciplinary planning process. The protocols for this are described under Appendix G-2.

Prior documented informed consent is obtained from the individual receiving services from the County Board of DD program, or guardian if the individual is eighteen years old or older, or from the parent or guardian if the individual is under eighteen years of age.

The medication administration Quality Assurance review is conducted by an RN, thus assuring professional evaluation of the systems in place for providing safe, accurate and effective administration of all medications. Only medications prescribed for an individual (by a professional with prescribing authority under Ohio law) may be administered. Only personnel who are relevantly professionally credentialed or who have completed the training and skills validation for DODD Medication Administration Certification may administer medications. The use of the standards of practices established for Medication Administration Certification is evaluated as part of the RN QA review. Any potentially harmful practices identified would be addressed via the Plan of Correction (POC) element of the RN QA. The reviewing RN confirms the plan of correction and submits to QA outcome to the County Board.

During all compliance reviews: if an individual in the sample receives medications for behavior, the plan is reviewed to ensure the appropriate process has been followed. Medications prescribed for behavior modification must be approved by the Human Rights Committee and reviewed by the team monthly.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.
DODD monitors medication administration through regularly scheduled reviews. The frequency of these reviews is based upon the terms of a provider’s certification, license or accreditation, which range from one to five years. Special reviews (not scheduled) can be conducted by DODD if requested by an individual, parent or guardian or if there is suspicion of abuse, neglect, or non-compliance with laws or rules especially those related to medication administration.

DODD also becomes aware of potentially harmful practices through the review of major unusual incidents. These incidents are initially investigated by local County Board of DD personnel and the results of the investigation forwarded to the state for review. Medication errors that result in harm or reasonable risk of harm to an individual are classified, reported, and investigated as major unusual incidents.

Personnel who do not safely administer medications are reported to DODD by employers, County Boards, QA RNs and delegating nurses by electronic record and uploading of documentation to the unlicensed personnel’s Medication Administration Certification record. Unresolved issues identified via the RN QA Reviews are reported to the DODD RN and to OPSR for follow through on resolutions. MUI reports require plans of correction to prevent future events; MUI cases are followed by DODD until appropriate POC is confirmed.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. Select one:

- ◯ Not applicable. (do not complete the remaining items)
- ☐ Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)

ii. State Policy. Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
A self-medication assessment is done to determine if an individual is capable of self-medicating and specifies how and when it is to be reviewed, revised, and redone. This must be reviewed annually and completely redone at least every 3 years if an individual does not meet the criteria for self medication. This can be done more frequently than every 3 years if there is change in the individual’s medication condition or if a problem with self medication is observed. (OAC 5123:2-6-02)

In accordance with Section 5123.47 of the Revised Code, a family member of a person with a developmental disability may authorize an independent provider to administer oral and topical prescribed medications or perform other health care task as part of the in-home care the worker provides to the individual, if all of the following apply:

• The family member is the primary supervisor of the care.

• The independent provider has been selected by the family member or the individual receiving care and is under the direct supervision of the family member.

• The independent provider is providing the care through an employment or other arrangement entered into directly with the family member and is not otherwise employed by or under contract with a person or government entity to provide services to individuals with developmental disabilities.

• A family member shall obtain a prescription, if applicable, and written instructions from a health care professional for the care to be provided to the individual. The family member shall authorize the independent provider to provide the care by preparing a written document granting the authority. The family member shall provide the independent provider with appropriate training and written instructions in accordance with the instructions obtained from the health care professional.

• A family member who authorizes an independent provider to administer oral and topical prescribed medications or perform other health care tasks retains full responsibility for the health and safety of the individual receiving the care and for ensuring that the worker provides the care appropriately and safely. No entity that funds or monitors the provision of in-home care may be held liable for the results of the care provided under this section by an independent provider, including such entities as the county board of developmental disabilities and the department of developmental disabilities.

• An independent provider who is authorized under this section by a family member to provide care to an individual may not be held liable for any injury caused in providing the care, unless the worker provides the care in a manner that is not in accordance with the training and instructions received or the worker acts in a manner that constitutes wanton or reckless misconduct.

Per Ohio Administrative Code (OAC) 5123:2-6-03 (A), staff that will be administering medication to individuals that do not self-medicate as is required to become certified to administer medications. For general medication administration staff are required to meet specific standard and then must attend a class that is a minimum of 14 hours per OAC 5123:2-6-06 (C) (1), do at least one successful return demonstration, and take a written test that must be passed with at least a score of 80% as described in OAC 5123:2-6-06 (C) (6). This certification must be renewed annually. To do this the staff must complete at least 2 hours of continuing education and complete a successful return demonstration per 5123: 2-6-06 (C) (7) (a).

To administer medication per gastrostomy or jejunostomy, the staff must take the general medication administration class and become certified. After completing the initial certification they must take an additional four-hour class per 5123:2-6-06 (D) (1), complete a return demonstration, take a written test and pass with at least 80% as described in OAC 5123:2-6-06 (D) (5). This certification is available to them for one year and must be renewed annually. The renewal process is described in OAC 5123 :2-6-06 (D) (6) and includes annual completion of at least one hour of continuing education and a successful return demonstration. In addition initially individual specific training must be completed and a nurse (an RN or an LPN under the direction of an RN) must delegate this to the staff prior to the medication administration beginning as required per OAC 5123:2-6-06(D) (1) (i).

Certified staff in residential settings of 5 beds or less are permitted to do insulin administration after being certified as in 5123 :2-6-06 (E). The staff must take the general medication administration class and then per
5123:2-6-06 (E) (1) they must take an additional minimum four-hour class. OAC 5123:2-6-06 (E) (4) states that
during the class the staff must complete a successful return demonstration, take a written test and pass with at
least 80%. In addition, prior to doing medication administration each certified staff must be provided individual
specific training related to the individuals they will be serving per OAC 5123:2-6-06 (E) (1) (k) and a nurse (an
RN or an LPN under the direction of an RN) must delegate that specific medication administration to the staff per
OAC 5123:2-6-06 (E) (1) (i)

ORC 5123.41 through 5123.65 of the Ohio Revised Code, along with OAC 5123:2-6-01 through
5123:2-6-07 govern administration of medication to be completed by waiver providers. These laws and rules
require staff who will be administering medications to individuals that cannot self-medicate to meet certain
standards and to become and maintain certification as described above. Specific curriculum has been developed
and must be used unless an individual has developed his/her own and had it approved by the DODD. All tests are
developed by the DODD must be administered as the “written test” and no exceptions are granted. Medication
administration must be documented on a medication administration record although a specific form is not
required.

The renewal process for certifications required for medication administration are contingent on continuing
education requirements and annual skills verification. Multiple notations on the provider’s Medication
Administration Certification record results in DODD review of the specific performance problems and may result
in denial of renewed certification.

iii. Medication Error Reporting. Select one of the following:

Providers that are responsible for medication administration are required to both record and report
medication errors to a state agency (or agencies).

Complete the following three items:

(a) Specify state agency (or agencies) to which errors are reported:

Per 5123:17-02 (C) (25) “...medication errors without a likely risk to health and welfare;” are unusual
incidents unless additional circumstances warrant it to be classified as a Major Unusual Incident in
accordance with OAC 5123:2-17-02(C) (16)(a), (b) & (c).

(b) Specify the types of medication errors that providers are required to record:

"Prescribed medication error” means the administration of the wrong prescribed medication (which includes
outdated prescribed medication and prescribed medication not stored in accordance with the instructions of
the manufacturer or the pharmacist), administration of the wrong dose of prescribed medication,
administration of prescribed medication at the wrong time, administration of prescribed medication by the
wrong route, or administration of prescribed medication to the wrong person. All of these are reported.

(c) Specify the types of medication errors that providers must report to the state:

Per 5123:2-17-02 (C) (8) administration of incorrect medication or failure to administer medication as
prescribed is an unusual incident unless additional circumstances warrant it to be classified as a Major
Unusual Incident in accordance with OAC 5123:2-17-02(C) (6)(iii)(c) & (d) (Neglect or death, by any cause,
of an individual.

Providers responsible for medication administration are required to record medication errors but make
information about medication errors available only when requested by the state.

Specify the types of medication errors that providers are required to record:
iv. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

DODD monitors performance of waiver providers through review of various county board of DD reports and county board of DD quality assurance reviews. Incidents or issues that may be questioned can be reported to the County Board of DD or the DODD at times other than when a report is filed or a QA review is completed. When reported directly to DODD, DODD will complete an investigation to determine necessary action.

Personnel who do not safely administer medications are reported to DODD by employers, County Boards, QA RNs and delegating nurses by electronic record and uploading of documentation to the unlicensed personnel’s Medication Administration Certification record. Unresolved issues identified via the RN QA Reviews are reported to the DODD RN and to OPSR for follow through on resolutions. MUI reports require plans of correction to prevent future events; MUI cases are followed by DODD until appropriate POC is confirmed.

The system that processes and tracks the DODD Certifications for unlicensed personnel and authorizes medication administration has been significantly enhanced to support better tracking and identification of problems as well as improvement strategies. On September 1, 2013, a new computerized registry of the Medication Administration Information System – MAIS went live, replacing the former Medication Administration database. The new system’s capabilities will contribute to identifying medication administration problems, patterns and trends on a personnel scale and through data mining by DODD. RN Trainers, QA RNs, Employers and DODD can enter “Notations” on a personnel’s certification record related to medication administration problems. The medication Administration Rule (OAC 5123:2-6-07) mandates that if a certified personnel is not administering medication safely the employer or County Board or delegating nurse must take them off medication administration duty and report that to DODD (via the MAIS notation system); an additional notation must be added if/when the personnel is able to be adequately reeducated to return to safe practice.

Documentation of the details of each event must be uploaded to DODD along with the notation. Notations are also made if personnel are substantiated in a medication related MUI and if problems are noted during QA reviews.

If personnel have 4 notations or 1 MUI recorded in an 18 month period, renewal of MA Certification cannot happen without specific DODD review of the personnel’s record. QA RNs and DODD reviewers have the ability to see the event notations as part of the QA review processes.

The MAIS also mandates significantly more data entry to track where personnel work and who is providing the mandated employer oversight of medication administration safety and performance by MA Certified unlicensed personnel. DODD is working to include all the data fields from the MAIS into the Data Warehouse where it can be queried for data mining of patterns and trends.

When ODM discovers non-compliance with laws or rules governing medication administration without an occurrence or potential of harm which not been discovered or not adequately being addressed by DODD that case will be processed through the Adverse Outcome process described in Appendix A. When ODM discovers an instance of harm occurring or where there is a reasonable risk of harm to an individual due to medication management or administration issues case it is reported to the proper DODD parties and processed through the Adverse Outcome process described in Appendix A.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. **Sub-assurance:** The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

### Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

### Performance Measure:

**PM G1:** Number and percent of substantiated cases of abuse, neglect, exploitation and misappropriation of funds where recommended actions to protect health and welfare were implemented.

- **N:** Number of substantiated cases where recommended actions to protect health and welfare were implemented.
- **D:** Total number of substantiated cases where there were recommended actions to protect health and welfare implemented.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

   For critical incidents, ODM monitors both prevention and outcome activities performed by DODD and the CBDDs to assure that all prevention, investigation and resolution protocols are followed through and to completion. ODM meets regularly with DODD and works collaboratively to identify and observe trends, propose changes to rules and protocols, and support ongoing improvement in systems intended to assure prevention and adequate response to incidents of abuse.

   DODD becomes aware of problems through a variety of mechanisms including, but not limited to, formal & informal complaints, technical assistance requests, and routine & special regulatory review processes (accreditation, licensure, provider compliance, quality assurance, etc). As problems are discovered, the individual CBDD is notified and technical assistance is provided using email, phone contact and/or letters to the CBDD Superintendent. During the DODD regulatory review process citations may be issued and plans of correction required as needed and appropriate. When issues are noted that are systemic, DODD will provide statewide training and additional technical assistance and monitor for improvement during subsequent monitoring cycles.

   ii. Remediation Data Aggregation

   Remediation-related Data Aggregation and Analysis (including trend identification)

   c. Timelines
   When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

   ☐ No
   ☐ Yes
Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.

If the state’s Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)
a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.
The State’s quality oversight strategy for this waiver relies on the collaborative efforts of staff at ODM and DODD to generate and analyze both data and other performance related information to measure compliance with federal waiver assurances and to assure participant health and welfare.

Role of the State Medicaid Agency (ODM)
ODM oversees the operation and performance of DODD to ensure the waiver program is operated in accordance with the approved waiver, and to assess the effectiveness of DODD’s oversight of the County Boards operating the waiver locally. Operation of the waiver is delegated by ODM to DODD through an interagency agreement between ODM and DODD. This agreement includes language authorizing ODM to perform oversight activities to establish the program’s compliance with federal and state laws and regulations as well as auditing and fiscal compliance. ODM will employ a multifaceted monitoring and oversight process that includes the following activities:

Continuous Review of DODD Performance Data- Under the Continuous Review process, ODM will regularly review, monitor, and dialogue with DODD about data generated quarterly through the approved waiver’s performance measures to gauge performance and compliance with federal waiver assurances including service planning, care management, free choice of provider, level of care, health and welfare, and validation of service delivery. Through its review of this data, ODM may request additional information as well as remediation and/or quality improvement strategy as appropriate.

Quality Briefings - Twice per year, ODM and DODD will meet to dialogue about data generated through the departments’ quality processes. In these meetings, the departments’ will review performance data generated and discuss remediation and/or quality improvement strategy. These Quality Briefings will also be informed by data presented by DODD on the oversight activities conducted by that department including but not limited to problems detected, corrective measures taken, and how the operating agency verified, or intends to verify, that the actions were effective.

Quality Improvement Plan- Whenever a performance measure is not fully met, and falls below a threshold of 86%, a systemic remediation (Quality Improvement Plan (QIP) would be conducted to determine the cause. A QIP must be implemented once the cause is found unless the state provides justification accepted by CMS that a QIP is not necessary. A QIP may take any of several forms. It may be training, revised policies/procedures, additional waiver services, etc. Each QIP must measure the impact to determine whether it was effective.

Case Specific Resolution – ODM will continue to assure case-specific resolution through “Alert Monitoring” and its “Adverse Outcomes” process.

Quality Steering Committee - ODM convenes the multi-agency HCBS waiver Quality Steering Committee (QSC). The committee collects, compiles, and reports aggregate waiver-specific performance data. The committee uses this data as a means to assess and compare performance across Ohio’s Medicaid waiver systems to identify cross-waiver structural weaknesses, support collaborative efforts to improve waiver systems, and to help move Ohio toward a more unified quality management system.

Fiscal Reviews – ODM staff perform regular desk reviews of administrative costs, with A-133 Audits being performed every one to three years based on risk. On a biennial basis, ODM staff conduct audits of County Boards prepared cost reports. Additional detail about Ohio’s practice for maintaining fiscal oversight of the waiver can be found in Appendix I.

Open Lines of Communication - ODM and DODD schedule mid-level managers meetings in which the departments discuss issues related to program operations including but not limited to: participant health and safety, program administration, budgeting, enrollment, providers and provider enrollment, provider reimbursement, issues pertaining to Medicaid state plan services, pending legislation, statute and rule changes etc.

Role of the Operating Agency (DODD)
Through an interagency agreement, ODM delegates to DODD responsibility for the administration of the waiver program. These responsibilities include managing and monitoring the waiver program to assure compliance and quality improvement.
Monitoring by DODD is primarily focused on: 1) assuring compliant and effective case management for applicants and waiver participants by county boards; 2) managing a system to assure prevention and effective response to incidents of participant abuse and neglect; 3) assuring the qualifications and compliance of particular waiver service providers; 4) assuring that paid claims are for services authorized in individual service plans; 5) setting program standards/expectations; 6) compliance and performance of County Boards which administer the program locally; 7) providing technical assistance; 8) facilitating continuous quality improvement in the waiver’s local administration; and more generally, 9) ensuring that all waiver assurances are addressed and met for all waiver participants.

DODD’s Office of Provider Standards and Review (OPSR), conducts compliance reviews in licensed waiver funded settings, unlicensed waiver funded settings, and CBDD settings. In order to ensure consistency, the review process and tools used are the same in all settings to determine compliance with administrative rules and waiver assurances. A standardized review tool is used to determine if health, safety and individual satisfaction criteria are met.

DODD uses the Participant Experience Survey (PES) when interviewing individuals/families as part of the department’s regulatory review processes.

Compliance Review – regularly scheduled reviews of a provider are conducted prior to the end of the provider’s term license, accreditation term or at least once every 3 years for non-licensed waiver settings. The review is conducted utilizing a single review tool. A report is issued to the county board and/or provider identifying areas of deficiencies and requiring a plan of compliance (POC). The POC is reviewed and approved by the OPSR and follow-up visits are conducted to verify that the appropriate corrections have been made. In cases where an immediate risk to health or safety is identified, the OPSR reviewer remains onsite until corrective action is taken.

Special Compliance Review – an unscheduled review, which occurs due to identified concerns such as complaints, Major Unusual Incidents, reports of fraud, or adverse outcomes identified by other entities such as the Ohio Department of Health or the ODM. A report is issued to the county board and/or provider identifying areas of deficiencies and requiring a plan of compliance (POC). The findings are reported to appropriate State agency.

### b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.
ODM monitoring and oversight responsibilities include ensuring that DODD is exercising its authority for the day-to-day operation of the waiver in accordance with federal Medicaid requirements. ODM supports and facilitates qualitative improvements in the systems, procedures, and protocols DODD employs to ensure conformity of providers, recipients, and other entities with federal Medicaid requirements. ODM will work with DODD to assess the root cause and develop and implement an appropriate course of action to remedy the program.

DODD monitoring and oversight responsibilities include ensuring that the local County Boards are establishing and implementing systems, procedures and protocols to ensure conformity of providers, recipients, staff, or other entities with federal Medicaid requirements. The DODD supports and facilitates qualitative improvements in the systems, procedures, and protocols at the County Board level. When a program component is determined to be out of compliance with federal Medicaid requirements, ODM will work with DODD to assess the root cause and develop and implement an appropriate course of action to remedy the program.

ODM is responsible for ensuring DODD and County Boards are in compliance with federal regulations, including the amount, duration and scope of services, free choice of providers, timeliness of delivery of services to waiver eligible participant and the availability of services statewide and conducts A-133 audits at least once every three years based on risk.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

ODM in conjunction with DODD will review the effectiveness of the State’s Quality Oversight Strategy including DODD performance data, fiscal reviews results, case-specific resolutions data, quality improvement plans, and technical assistance provided. These discussions will occur through quality briefings outlined in this appendix.

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (Select one):
   - No
   - Yes (Complete item H.2b)

b. Specify the type of survey tool the state uses:
   - HCBS CAHPS Survey
   - NCI Survey
   - NCI AD Survey
   - Other (Please provide a description of the survey tool used):

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
The Ohio Department of Developmental Disabilities (DODD), Division of Fiscal Administration – Audit Office performs waiver reviews utilizing a risk-based approach. The risk-based approach covers a wide range of providers, individuals and transactions. A risk analysis is performed for each waiver cycle to identify riskier providers. Risk factors used in the analysis include, but are not limited to: dollar amount of claims paid; number of individuals served; complexity of services provided; prior noncompliance issues; prior findings; referrals from OPSR; and changes in compliance requirements to services provided. Once the selection of higher risk providers is determined, a selection of claims paid to each provider for those selected individuals is selected for testing, depending on the number of individuals served, types of services provided, and/or number of and dollar amount of claims paid. Additionally, some of the required OAC compliance testing is performed on a statewide basis to achieve increased coverage across the State and increase the number of county boards of dd reviewed.

Additionally, the DODD Audit Office performs audits of the county boards of dd’s Cost Reports. The audits consist of program monitoring for allowable costs, activities allowed, and cash management. The cost report audits also include a review of program revenues and expenditures and other reporting requirements.

The Auditor of the State of Ohio conducts an annual Single State Audit of the Ohio Department of Medicaid (ODM) in accordance with the requirements of the Single Audit Act (31 U.S.C. 7501-7507) as amended by the Single Audit Act Amendments of 1996 (P.L. 104-146).

In accordance with Ohio Administrative Code rule 5160-1-29, ODM is required to have in effect a program to prevent and detect fraud, waste, and abuse in the Medicaid program. The definition of fraud, waste, and abuse incorporates the concept of payment integrity. ODM, the Auditor of the State of Ohio, and/or the Ohio Office of Attorney General may recoup any amount in excess of that legitimately due to the provider based on review or audit.

The Department of Medicaid has a Bureau of Audit Performance whose primary function is to conduct audit and review activities to assure the allowability of claims paid to Medicaid providers. The scope of providers subjected to audit and review activities includes claims paid through sister state agencies which administer Medicaid programs on behalf of ODM.

DODD recovers any overpayments pursuant to Section 5164.58 of the Ohio Revised Code. DODD notifies the provider of the overpayment and requests voluntary repayment. If DODD is unable to obtain voluntary repayment, it shall give the provider notice of an opportunity for a hearing in accordance with Chapter 119 of the Ohio Revised Code. DODD shall conduct the hearing to determine the legal and factual validity of the overpayment. DODD shall submit the hearing officer’s report and recommendation and a complete record of the proceedings, including all transcripts to the Director of Ohio Department of Medicaid. The Director of ODM may issue a final adjudication order in accordance with Chapter 119 of the Ohio Revised Code.

Agency and independent providers must submit claims using designated procedure codes for the competency-based add-on. These claims will be sampled by DODD’s Office of Provider Standards and Review (OPSR) when conducting routine and/or special provider compliance reviews in accordance with Ohio Administrative Code 5123:2-2-04 Compliance reviews of certified providers. In addition, claims for the competency-based add-on will also be reviewed as part of the risk-based audits conducted in accordance with the methodology specified in appendix I.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:
   The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read “State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.”)

   i. Sub-Assurances:
a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered. (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
PM I1: Number and percent of paid waiver claims submitted that were authorized.
Numerator: Total number of paid waiver claims submitted that were authorized.
Denominator: Total number of submitted waiver claims.

**ii.** If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

[b. Methods for Remediation/Fixing Individual Problems](#)

**i.** Describe the State's method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.
DODD monitors claims rejections and denials on a quarterly basis by county boards and by rejection/denial reason code. If there is a large negative change for a county board or if a county board continuously has a large number of claims rejected or denied, DODD staff will contact the county board and offer technical assistance to the county board and their providers. Similarly, if a rejection or denial reason code spikes up in a certain quarter, claims staff will research the reason.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).
DODD is responsible for the development of statewide rates for waiver services through an Interagency Agreement with ODM. The rate development process includes input from stakeholders. Once developed by DODD, ODM is responsible for the final review and approval of all rates. Once approved by ODM, all reimbursement rates are incorporated into Ohio’s Administrative Code, which includes a period for public comment as well as a public hearing process that allows for public testimony before Ohio’s Joint Commission on Agency Rule Review (JCARR), a body compromised of representatives from the Ohio Senate and the Ohio House of Representatives. Public Comments are solicited during the Public Hearing phase for any new/amended/to be rescinded Administrative rules in Ohio. Information about payment rates are made available to the individual during the Individual Service Planning process. Reimbursement rates for HPC, participant-directed HPC, shared living, and money management and other direct services are created by utilizing an independent rate setting model, with the exception of Transportation. The model begins with (BLS) information specific to Ohio’s job market and incorporates reimbursement for employee related expenses, administrative overhead and non-billable work time. This results in a statewide rate for each service. This statewide rate is then adjusted for the variations in the cost of doing business throughout the state. Ohio has established eight cost of doing business regions for this purpose. The model results in base rates for agency providers as well as rates for non-agency providers, which vary slightly due to differences in reimbursement for administrative overhead and non-billable work time. The base rates are adjusted upward based the number of individuals sharing services up to four individuals per setting. In addition to these base rate adjustments, the model includes rate add-ons for services rendered to individuals who meet certain medical, behavioral, and/or complex care criteria. A competency rate add-on to routine HPC is available for direct support professionals with at least 2 years experience and 60 hours accredited competency based training. Also, a community integration add-on is available for routine HPC for a period of one year for individuals formerly residing in ICFs. It was calculated by increasing the administrative overhead percentage of the current agency HPC base rate and making adjustments to the non-billable time in an amount equal to the current non-billable assumptions in the independent HPC rate. The add-on covers time-limited cost increases experienced as individuals move from institutional settings to community-based settings. Those areas include: additional training, health care navigation, benefits coordination, and crisis intervention. The add-on promotes stability in staffing and greater continuity of care as individuals adjust to working with new teams, county board service and support administrators and community-based medical and mental health professionals. Claims are reimbursed at the lower of the rate established by the rate setting model or the provider’s usual and customary charge for the service. The rate add-ons are not applicable to Money Management services. Rates will be paid in fifteen minute units for services to individuals who do not share services with others (e.g., live alone or live with others who do not receive HPC services from the same provider.) After an individual’s service needs are identified in the Individual Service Plan, the Cost Projection Tool (CPT), developed and maintained by DODD, is used to determine the total expected amount of payment for each individual’s waiver span as well as the total service hours that are expected to be rendered. The projection of service costs and payment standards are in accordance with Chapters 5160-41 and 5123:2-9 of the Ohio Administrative Code (OAC). A Daily Billing Unit (DBU) is paid for services to individuals who share the same provider in the same site. The DBU for homemaker/personal care was developed using the HPC rates for individuals who share services in a consistent and predictable pattern. After each individual's service needs are identified in the Individual Service Plan, the Cost Projection Tool (CPT), developed and maintained by DODD, is used to determine the total expected amount of payment for each individual during their waiver span as well as the total service hours that are expected to be rendered to the site and to each individual during their waiver span. The estimated DBU includes the base fifteen minute unit rates currently approved by CMS as well as any applicable rate add-ons for individuals who meet certain medical, behavioral, and or community integration criteria. From this information an hourly rate for that specific provider is determined for that specific site. After services are rendered, the provider will use a web-based rate calculator to determine the amount of the total month’s reimbursement claim that is attributable to each individual based on their specific authorized service amount and attendance during that month. The provider will then submit an individual-specific claim for the service period. This individual-specific claim is known as the DBU for the individual for that service period. Depending on the hours of service rendered by a provider and each individual’s attendance in a given month, the individual DBU amount billed will be variable; however, total claims for the waiver span cannot exceed what has been authorized during the individual planning process. ODM and DODD shall assure that the necessary systems controls are in place to prevent over payment. Rates for transportation are based on federal mileage reimbursement guidelines as specified in the OAC. Claims are reimbursed at the lower of the rate established or the provider’s usual and customary charge for the service. An independent rate model was developed for adult day support, vocational habilitation, and supported employment-enclave services. The base hourly wage is calculated using salary survey data as submitted by counties as well as a select set of BLS hourly wages for occupations closely paralleling those for providers of Adult Day Support and Voc. Hab. services. These wages are averaged to arrive at a base hourly wage that is applied statewide. Data from cost reports as submitted by each county for the period 1/1/2005-6/30/2005 are used to calculate a series of additional cost components.
that impact the wages. These rates are adjusted for cost of doing business and for the acuity requirements noted in C-4. The medical and behavior add-ons are applicable to the Adult Day Services (ADS) for dates of service on/after April 1, 2017. A community integration add-on will be available when ADS and Voc. Hab.is provided in integrated settings in groups of four or fewer individuals. Staff providing the service must demonstrate successful completion of a DODD approved program instruction in community integration to be eligible for the add-on. Non-Medical Transportation (NMT) may be billed either per trip or per mile. Per trip NMT rates are calculated using data from cost reports as submitted by each county for the period January 1 through June 30, 2005. From the cost report data, the total reported transportation costs for adults are divided by the total number of reported trips to derive a cost per trip by county. The calculated transportation rates are then adjusted for inflation and regional cost of doing business factors to derive the final rates. The per mile non-medical transportation rate combines the hourly rate of the provider/vehicle driver with the mileage rate to derive a single payment rate based upon, for each 1-mile driven, the driver provides 2 minutes of service at the HPC costs. The payment specifications for non-medical transportation are included in the OAC. Statewide maximum rates are in place for Environmental Accessibility, Adaptive & Assistive Equipment, Community Transition, and Assistive Technology Equipment services. Reimbursement for these services is the lower of the provider’s usual charge or the established statewide maximum. The Adult Family Living rate was based on historical data collected from the 88 County Boards of DD of individuals that qualified for the AFL service. Daily rates were based on the costs of HPC services delivered to adults identified as living with family and utilizing a provider. There are four daily rates which apply to the Ohio Developmental Disabilities Profile (ODDP) groups. The rates are adjusted according to the cost of doing business (CODB) county of the individual. The Community and Residential Respite service rates were developed by using the HPC rate model as the basis for the rate structure. Historical costs of the HPC service were reviewed to determine the base rates. Both services may be adjusted by a medical and/or behavior add-on. An independent rate model was developed for Remote Monitoring waiver service. The model includes Bureau of Labor Statistics (BLS) information specific to Ohio’s job market and incorporated reimbursement for employee related expenses, administrative overhead, productivity assumptions and a responder/on call component.

The Supported Employment Community service rates were developed by using a blend of two components of the approved integrated employment service under the SELF waiver (initial and retention supports) as a basis for the hourly rate. Ohio assumed that 70% of all employment services are for retention and 30% for placement. The agency and independent rates are adjusted by the cost of doing business (CODB) factors. This service will be replaced with Individual Employment Supports and Career Planning services and will use a similar rate structure. An independent rate model was developed for social worker, nutritionist and interpreter waiver services. The models include Bureau of Labor Statistics (BLS) information specific to Ohio’s job market and incorporated reimbursement for employee related expenses, administrative overhead, productivity assumptions for agency and independent providers. The services that use an independent model (or are based on other services that used an independent model) are as follows: Adult Day Support, Voc. Hab., and ADS with providers certified by ODA, SE-Enclave, Group Employment, SE-Community, Non-Medical Transportation, HPC, Participant-Directed HPC, Daily Billing Unit, Adult Foster Care, Adult Family Living, Money Management, Remote Supports Assistive Technology Consultation/Supports & Community Respite. The rate methodology used to determine Home Delivered Meals is unknown at this time. However, the United States Department of Agriculture (USDA) estimated that costs for home prepared meals cost approximately $49 per week in 1994. Ohio’s reimbursement rate of $7 per meal is consistent with the USDA estimate. ODM engaged an actuary to study factors such as labor market data, education, licensure status and length of service visit in the development of the waiver nursing and nursing delegation rates. The model begins with BLS information specific to Ohio’s job market and incorporates reimbursement for employee related expenses, administrative overhead, and non-billable work time. This results in a statewide rate for each service. When necessary to comply with FLSA, the reimbursement to independent providers will be adjusted for overtime compensation. Overtime payments are calculated based on the wage component of the service rate.

See top of Main B Optional Section for responses to CMS RAI on 4/13/2018.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state’s claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:
Claims are submitted electronically to DODD from all types and classes of Individual Options service providers, who have voluntarily reassigned DODD to submit claims to ODM on their behalf. On a weekly basis, DODD compiles all claims received from providers during that week into one billing file which is submitted to ODM for processing and adjudication through the state’s claims payment system, the Medicaid Information Technology System (MITS).

Claims collection will comply with the requirements of the federal 21st Century Cures Act as passed by Congress and signed into law on December 3, 2016 and any related applicable electronic visit verification regulations.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

- No. state or local government agencies do not certify expenditures for waiver services.
- Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

☐ Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-a.)

☒ Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Certified public expenditures are incurred by county boards of dd when the waiver services are delivered by the boards. The claims for these services are accompanied by an attestation that the services delivered were fully paid for with public funds and are eligible expenditures for FFP. Claims delivered by county boards of dd are reimbursed at the lower of the county board’s usual and customary charge for the service or the statewide rates established for those services as described in Section I-2-a of this Appendix.

Under the cost-based reimbursement system, it is the State of Ohio’s responsibility to monitor and audit its subrecipients as Federally required. Ohio Department of Developmental Disabilities (DODD) monitors and audits the cost reports that are prepared as a result of the cost based activity. It is the responsibility of DODD to ensure timely reviews and audits of its subrecipients in order to settle the associated costs for the period under review.

Adult Day Services Reconciliation:
The total annual cost of providing services to the Medicaid consumers will be derived from the cost report. The annual revenue will be derived by taking reimbursement received for the units of services delivered multiplied by unit rates approved by CMS. The total annual cost of providing services will be reconciled to reimbursement received as detailed in the Guide to Preparing Income and Expenditure Report.
d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant’s approved service plan; and, (c) the services were provided:

Provider billings are primarily validated through the Payment Authorization for Waiver Services (PAWS) system, which delineates those waiver services that are identified on each waiver enrollee’s Individual Service Plan (ISP), the provider(s) authorized to deliver each service, and the frequency and duration of each service. DODD has developed a more comprehensive IT system known as the Medicaid Services System (MSS). There is a post review process that compares PAWS to actual ISPs to assure that the services identified through the ISP process are accurately reflected in the MSS/PAWS system. Additionally, the PAWS is linked to DODD’s Waiver Management System (WMS), which indicates that the individual has a current level of care determination. The Medicaid Billing System (MBS) edits the waiver claims to assure the service codes and the number of units match what the county board has submitted as authorized services. This automated system compares 100% of submitted claims against the MSS/PAWS system. No payments are issued when a discrepancy arises. In addition to the validation through DODD systems, ODM’s MITS adjudicates all claims for reimbursement and makes the determination that both the individual receiving the service and the provider delivering the service were eligible for Medicaid waiver payment on the date the service was delivered. The actual validation of delivery is accomplished through various quality assurance post reviews that track backward from paid claims documents to actual service delivery documentation.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability
I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).

- Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:
Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.
- The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.
- The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

DODD is the limited fiscal agent for the IO waiver program. DODD is responsible for paying the provider claims as authorized in an Interagency Agreement with ODM. The ODM will adjudicate the claims and maintain ongoing monthly fiscal meetings with the Fiscal and Information Systems sections of DODD to assure that claims are paid efficiently and systems concerns are addressed timely.

DODD’s website has an entire section dedicated to providers. That section includes the Medicaid Waiver Billing Instructions, as well as sections devoted to how to submit a claim. It has detailed information on how to contact Provider Support Services for assistance. In addition, provider support staff from DODD will go out and do training for providers to assist them with this process.

Providers are paid by a managed care entity or entities for services that are included in the state’s contract with the entity.

Specify how providers are paid for the services (if any) not included in the state’s contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The state does not make supplemental or enhanced payments for waiver services.
Yes. The state makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

The competency add-on rate only applies to routine homemaker/personal care services delivered by direct support staff with two years' full time equivalent experience in providing direct support to people with developmental disabilities and completion of 60 hours of accredited competency-based training. Eligible providers will retain 100% of the computable expenditure claimed. The competency rate add on is paid according to standards specified in Appendix I-4-a.

The competency based add-on rate, proposed for an effective date of 6/1/2018, only applies to routine homemaker/personal care services and not the self-directed homemaker/personal care service.

Appendix I: Financial Accountability
I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

- No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.
- Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

County Boards of dd receive payments for waiver services provided.

Appendix I: Financial Accountability
I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.
Describe the recoupment process:

Appendix I: Financial Accountability
I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability
I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
- Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

The Ohio Department of Developmental Disabilities.

ii. Organized Health Care Delivery System. Select one:

- No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
- Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used.
iii. Contracts with MCOs, PIHPs or PAHPs.

- The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- This waiver is a part of a concurrent ?1115/?1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The ?1115 waiver specifies the types of health plans that are used and how payments to these plans are made.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

- Appropriation of State Tax Revenues to the State Medicaid agency
- Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

DODD provides a portion of the non-federal share of computable waiver costs through funds appropriated in its budget. These funds are not transferred to the State Medicaid Agency, as DODD makes the requests for provider payment to the Auditor and Treasurer of State. DODD attests to ODM that expenditures included in Intra-State Transfer Vouchers (ISTVs) are based on the state’s accounting of actual recorded expenditures.

- Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as...
Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

- **Not Applicable.** There are no local government level sources of funds utilized as the non-federal share.
- **Applicable**

  Check each that applies:

  - Appropriation of Local Government Revenues.

  Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

- **Other Local Government Level Source(s) of Funds.**

  Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

  County boards of DD provide a portion of the non-federal share of computable waiver costs. DODD operates as the Fiscal Agent and will maintain the administrative control of the non-federal share. The nonfederal share will be comprised of various funds appropriated through the state legislation and funds generated through local levies. Ohio utilizes a CPE arrangement for the non-federal share when county boards are the providers.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

- **None of the specified sources of funds contribute to the non-federal share of computable waiver costs**
- **The following source(s) are used**

  Check each that applies:

  - Health care-related taxes or fees
  - Provider-related donations
  - Federal funds
For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

- No services under this waiver are furnished in residential settings other than the private residence of the individual.
- As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:

The rate setting methodology does not include any factors that represent costs associated with room and board.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

- No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
- Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- No. The state does not impose a co-payment or similar charge upon participants for waiver services.
- Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.
i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

**Charges Associated with the Provision of Waiver Services** (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- [ ] Nominal deductible
- [ ] Coinsurance
- [ ] Co-Payment
- [ ] Other charge

Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- ☒ No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- ☐ Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.
Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

**Composite Overview.** Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

**Level(s) of Care:** ICF/IID

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

**b. Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.
Ohio assumed a 5% disenrollment rate per year for Waiver Years 1-5.

Ohio will accrue total person-days of service:
Waiver Year 1: 6,270,000
Waiver Year 2: 6,860,000
Waiver Year 3: 7,084,700
Waiver Year 4: 7,308,000
Waiver Year 5: 7,529,900

The average number of days each person is served:
Waiver Year 1: 330
Waiver Year 2: 350
Waiver Year 3: 349
Waiver Year 4: 348
Waiver Year 5: 347

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:
Ohio assumes all the waiver services will be utilized by differing percentages of the total waiver population based on past service utilization patterns. However, Ohio assumed a 3% service utilization increase for the waiver renewal period.

Waiver Renewal Year 1: 3.0%
Waiver Renewal Year 2: 3.0%
Waiver Renewal Year 3: 3.0%
Waiver Renewal Year 4: 3.0%
Waiver Renewal Year 5: 3.0%

The new service estimates are based on calendar year 2015 data from the Department of Developmental Disabilities and the 372 report submitted for the 2014 report period. Ohio assumes all IO waiver services will be utilized by differing percentages of the total waiver population based on past service utilization patterns and the individual’s choice of the new services. The new service estimates are based on calendar year 2015 data from the Department of Developmental Disabilities and the 372 report submitted for the 2014 report period.

The Factor D estimates are based on actual service utilization data. An annual inflation factor of 0% was used to project future waiver year costs. Service rates will not increase unless noted by submission of a waiver amendment. Estimates are based on the Department of Developmental Disabilities-Medicaid Billing System (MBS). The new service estimates are based on calendar year 2015 data from the Department of Developmental Disabilities and the 372 report submitted for the 2014 report period.

Ohio obtained data from the DODD database and compared service costs to the actual expenditures reported in the 372 report. Although Career Planning, Individual Employment Supports, and Group Employment Supports are new services, individuals enrolled in the Individual Options could receive similar services through Supported Employment-Community and Supported Employment – Enclave. Utilization data for these services from 2015 and the 372 report were used to develop estimates for the new services.

Ohio assumed a percentage of the C value to project the number of users. At least fifteen percent of individuals using Supported Employment-Community or Supported Employment-Enclave were projected to use one or more of the new services. The average cost and units were based on the actual distributions of individuals in acuity groups for each waiver. Ohio will monitor utilization of the new services and determine if a waiver amendment will be required to adjust projected costs.

The hour Group Employment Support (GES) service has been modified to add a daily reimbursement rate. Ohio assumed that approximately 75% of individuals receiving GES need 5 to 7 hours a day of the service, which is reimbursed as a daily rate. The remaining 25% use four or less hours of service, which is reimbursed as an hour rate. This methodology is similar to the hour and daily rate methodology previously approved as Supported Employment.

The Shared Living service will replace Adult Foster Care and Adult Family Living. Ohio developed the rate by modifying the approved rate bands under the Adult foster Care rate model. Estimates are based on the current utilization patterns.

To develop estimates for waiver nursing delegation, Ohio surveyed local Medicaid authorities to estimate the number of people enrolled in a DD waiver who have a nurse delegating one or more healthcare tasks or medications. The average units reflect utilization up to the service limit for nursing delegation services. To develop estimates for homemaker/personal care services, Ohio analyzed negotiated rates reimbursement data from the SELF waiver to project that 6% of people using traditional service models of homemaker/personal care through Individual Options and Level 1 would elect to direct their homemaker/personal care services when participant-directed homemaker/personal care is available. The average units are the same as the average units for traditional homemaker/personal care.

Waiver nursing delegation service estimates are based upon 2017 service uptake survey data and historical nursing services utilization data. Participant-directed homemaker/personal care service estimates were developed using an analysis of negotiated rates in the SELF waiver.

Revised service estimates for Residential Respite, effective in the 6/1/2018 amendment, reflect the approved 372 reports and reimbursement data continuously reviewed by the Department.
Revised service estimates for Community Respite, effective in the 6/1/2018 amendment, reflect the approved 372 reports and reimbursement data continuously reviewed by the Department.

Expiring services in WY 5 under the Individual Options waiver (Assistive Technology sub-component under Career Planning, Remote Monitoring Equipment) and actual experience in Ohio’s HOME Choice Program, served as a basis for the updated WY 5 service cost and utilization estimates for the new services Assistive Technology and Community Transition, as well as the revised estimates for Remote Support (formerly known as Remote Monitoring). Service estimates for Assistive Technology, Community Transition, and Remote Support reflect approved 372 reports and reimbursement data continuously reviewed by the Department.

Ohio projected the number of users of Assistive Technology based on the number of users of the services being replaced by Assistive Technology. The State projected that 5% of waiver enrollees on the Individual Options waiver would utilize Assistive Technology services over a full waiver year, then divided in half to reflect the last six months of WY5.

The State projected the number of users of Community Transition Service in the second half of WY5, based upon historical trends in Ohio’s HOME Choice Program. The State projected the maximum allowable amount of $2,000 per enrollment to obtain a total component cost of $450,000 in WY5.

### ii. Factor D’ Derivation
The estimates of Factor D’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

The estimates for Factor D’ Derivation are based on data from 2011 and 2012 and assume a 3% rate of inflation. Pharmacy expenditures for dual eligibles are excluded from D’.

<table>
